Trigger Extensions & Adaptions

In accordance with the ISSF Rules, the style/shape of a trigger is a personal choice as long as it stays within the boundary of the given dimensions (as stated in ISSF Rules (currently 7.4.4.1) ‘Depth of fore-end’ and Item I ‘Maximum thickness (breadth) of the fore-end’). No definition of the shape of the trigger is given.

- **Trigger extension**: triggers that have modifications compared to standard triggers, but are inside the dimensions of ISSF Rules and protected by a trigger guard.

- **Trigger adaptions**: triggers that have modifications compared to standard triggers, and are outside of the trigger guard and dimensions of ISSF Rules.
  - athletes must have a medical reason to use a trigger adaption;
  - this must be reviewed and approved by a World Shooting Para Sport Classification Panel during a technical assessment (in consultation with the Technical Delegate, regarding the safe use of the proposed trigger adaptation) and recorded on the athlete’s Classification and WSPS License.

To help to understand the differences, on the following pages are some example photographs and explanations.

1 Overview
2  **Upper part support** (U form Shaft)

Max. weight: 200 grams
3 Support stand measuring procedure (Rule 2.9.13)

3.1 Zero point
250 gram measuring bar is used to determine the zero point.

3.2 Spring flexibility
720 gram measuring bar is used to indicate spring flexibility:
- Weak (a) spring: minimum 35mm flexibility
- Strong (b) spring: minimum 25mm flexibility
4 Test Bar for Spring Flexibility (Rule 3.9.13)

4.1 All springs are checked and marked at the Equipment Control the following way. Any spring shall be tested in all four positions.

4.2 The spring is tested with the open turn to the top. If it passes the test, the spring will be marked with an Equipment Control sticker at the top. Checks will be more efficient this way and equal for all athletes.

4.3 If the spring fails the test, it will be retested up to 3 times at different positions by turning it 90 degrees’ clockwise from the open turn. As soon as the spring passes the test, the spring will be marked with a sticker at the failing position opposite of the passing side; additionally, the sticker and the post will be marked with a thick red line.

4.4 All springs have to be used during the competition with the sticker (and possibly the red line) facing the athlete, so that the equipment control sticker is clearly visible to the range staff.

P5 10m Air Pistol Standard

General

1.1 Any calibre 4.5 mm (.177) compressed air or gas pistol may be used.

1.2 The pistol used in the 10m five shot air pistol Event must have a magazine that can be loaded with five (5) pellets.

Competition

2.1 Three (3) minutes preparation time will be given.

2.2 Ready position:

2.2.1 Before each series the athlete must lower his arm. The pistol may be rested on the bench or shooting table.

2.2.2 The pistol may not be raised or lifted to point towards the target until the command “START”.

2.3 A series is considered as having started from the moment of the command "ATTENTION". Every shot fired after that will be counted in the Competition.

2.4 Before the beginning of each Competition series, the athlete may fire one (1) sighting series of five (5) shots in ten (10) seconds.

2.5 All shooting (sighting and Competition series) are by command. All athletes in the same range section must fire at the same time, but LOCs may arrange for more than one range section to fire simultaneously under centralized commands.

2.6 The event is forty (40) Competition shots.

2.7 The Event is divided into series of five (5) shots each in ten (10) seconds. In each series five shots are fired on one (1) Stationary Air Pistol target (see ISSF Rules (currently 6.3.2.6)) in the time limit for the series.
2.8 Commands

2.8.1 When the range officer gives the command “LOAD”, the athletes must prepare themselves for their series within one (1) minute.

2.8.2 When one (1) minute has expired, the range officer will give the commands:

- "ATTENTION"
- Seven (7) seconds after “ATTENTION”
- "START" (the signal to fire).
- After 10 seconds "STOP".
- Shot(s) after the command "STOP" must be counted as zero(es) (0).

2.8.3 The timing will be controlled by stop watches.

2.8.4 Incorrect range commands

2.8.4.1 If the athlete wishes to protest because of an incorrect command and/or action by the range officer, the athlete must hold the pistol (or secure in the loading device) pointing down range and raise their hand, and immediately after the series report this to the range officer or a Competition Jury member.

2.8.4.2 If the claim is considered justified, the athlete must be allowed to fire the series.

2.8.4.3 If the claim is considered not justified, the athlete may fire the series, but must be penalized by the deduction of two (2) points in the event from the score of that series.

2.8.4.4 If the athlete has fired a shot after the incorrect command and/or action, the protest must not be accepted.

2.9 Scoring

2.9.1 All shots fired in the 10 seconds shooting time will be scored. Early and late shot(s) will be scored as zero(es).

2.9.2 Ties

2.9.2.1 Any ties will be broken by ISSF Rules (currently 6.15.1).
Appendix 8
P5 10m Air Pistol Standard

2.10 Interruption

2.10.1 If the interruption is for safety or technical reasons without fault of the athlete:

2.10.1.1 If the elapsed time is more than fifteen (15) minutes, the Competition Jury must allow one extra sighting series of five (5) shots.

2.10.1.2 In the 10m Air Pistol Standard Event, the interrupted series must be annulled and repeated. The repeated series must be recorded and credited to the athlete.

2.10.1.3 Any extension of time allowed by the Competition Jury or range officers must be marked clearly, stating the reason, on the register keeper’s score card and on the scoreboard where it is visible clearly to the athlete.

2.11 Disturbances

2.11.1 Should an athlete consider that they were disturbed while firing a shot, the athlete must hold their pistol pointing down range (or secure in the loading device) and inform immediately the range officer or Competition Jury by raising their hand. The athlete must not disturb other athletes.

2.11.2 If the claim is considered justified:

2.11.2.1 The series must be annulled and the athlete may repeat the series.

2.11.3 If the claim is considered not justified:

2.11.3.1 If the athlete has finished his series, the shot or series must be credited to the athlete.

2.11.3.2 If the athlete has not finished his series due to the claimed disturbance, the athlete may repeat the series.

2.11.4 Scoring and penalties are as follows:

2.11.4.1 The score must be recorded as the total of the five (5) lowest value hits on the targets.

2.11.4.2 Two (2) points must also be deducted from the score of the repeated series.

2.11.4.3 In any repeated series, all five (5) shots must be fired at the target. Any shot(s) not fired or not hitting the target must be scored as zero(es).
2.12 Malfunctions

2.12.1 If a shot has not been fired due to a Malfunction, and if the athlete wishes to claim a Malfunction, they must aim the pistol pointing down range, retain his grip, and immediately inform the range officer by raising their free hand. They must not disturb other athletes.

2.12.1.1 An athlete may try to correct a Malfunction and continue the series, but after attempting any correction, they may not claim an allowable Malfunction unless a part of the pistol is damaged sufficiently to prevent the pistol from functioning.

2.12.1.2 If a Malfunction occurs in the sighting series it must not be registered as a Malfunction.

2.12.1.3 The number of shots already fired must be recorded and the series may be repeated.

2.12.1.4 Repeating a series because of a Malfunction must be permitted only in case of an allowable Malfunction.

2.12.2 Scoring: allowable Malfunction

2.12.2.1 The score must be recorded as the total of the five (5) lowest value hits on the targets. The athlete must fire all five (5) shots at the target in the repeat series. Any shot(s) not fired or not hitting the target in the re-shoot must be recorded as zero(es). (If paper targets are used, a second target must be provided for the re-shoot.)

2.12.3 Scoring: non allowable Malfunction

2.12.3.1 The score must be the total of the fired shots.
