Cairo

About Cairo

A city founded on the Nile with an ancient charm

Cairo the City of a Thousand Minarets” is the capital of Egypt and the largest city in Africa, with a name that means "the victorious city."

Cairo, an exotic and fascinating city with a very ancient history, extends along the Nile River, in the north of Egypt, at the point where the river abandons its natural course in the desert and divides into the three branches that form the region of the Delta and serving as the capital of numerous Egyptian kingdoms.

Cairo, Egypt’s sprawling At its heart is Tahrir Square and the vast Egyptian Museum, a trove of antiquities including royal mummies and gilded King Tutankhamun artifacts. Nearby, Giza is the site of the iconic pyramids and Great Sphinx, dating to the 26th century BC. In Gezira Island’s leafy Zamalek district, 187m Cairo Tower affords panoramic city views.

There’s no other city in the world where modern architecture is topped by such a magnificent 6,000-year-old complex of royal pyramids, temples and causeways. Any trip to the Egyptian capital must start with these majestic creations.

They go from Menakaure, the smallest pyramid, through to Pyramid of Khafre, the second largest, to the Great Pyramid of Giza, commissioned by the pharaoh Khufu.
