

## Medical Diagnostic Form for ALL Athletes with Physical Impairment

To be eligible for World Para Ice Hockey an athlete must have an underlying medical diagnosis (Health Condition) that results in a Permanent and Eligible Impairment (article 7 in the Para Sport Classification Rules and Regulations). The measurement of impairment conducted during the classification process must correspond to the diagnosis indicated below.

Completed forms and relevant Medical Diagnostic Information must be uploaded to the athlete's SDMS profile upon registration of the athlete to the SDMS. World Para Ice Hockey holds the right to request further information, if additional information is required. The athlete will not be able to undergo classification, until such time as the requested information is provided.

Please fill in the form electronically.

Athlete Inform	<b>nation</b> (to be	completed by the NI	PC)	
Family name:				
Given name/s:				
Gender: ☐ Female ☐		■ Male	Date of Birth:	(dd/mm/yyyy)
NPC:			SDMS ID:	
Medical Inforr	<b>nation</b> – to l	be completed in <b>Eng</b> l	l <b>ish</b> by a registered Medica	al Doctor, M.D.
Athlete's Medical Diagno (Health Condition				
Include descrip body part/s affe and limitations:	ected			
Primary Impairr	ment/s arisino	g from the Medical Di	agnosis (Health Condition):	
☐ Impaired muscle power☐ Impaired passive range of motion☐		□ Ataxia □ Athetosis □ Hypertonia	☐ Leg length difference☐ Limb deficiency/loss	

■ Stable

■ Progressive

Congenital (birth)

Year of onset:

Adenauerallee 212-214 53113 Bonn, Germany www.WorldParalceHockey.org

Medical condition is:

Tel. +49 228 2097-200 Fax +49 228 2097-209 WorldParalceHockey@paralympic.org

(yyyy)

■ Permanent

□ Fluctuating

Diagnostic Evidence to be att	ached:						
Evidence to support the above diagnosis MUST be attached in English for ALL athletes:							
☐ Medical Diagnostic Report and Physical Examination results (for example ASIA scale for Athletes							
with Spinal Cord Injury, Modified Ashworth Scale for Athletes with Cerebral Palsy, X-rays for Athletes							
with dysmelia, photo for At							
The age mena, process of the	motoo murampatatio	,					
World Para Ice Hockey holds the right to request additional diagnostic evidence as per article 7.5 and							
7.6 in World Para Ice Hockey Classification Rules and Regulations, including but not limited to:							
☐ Report(s) from additional diagnostic testing (for example, EMG, MRI, CT, X-ray)							
, , , ,	duitional diagnostic te	esting (for example, Li	vid, iviiti, C1, X-iay)				
Treatment History:							
Regular Medication – List do	sage and reason:						
Presence of additional medic	al conditions/diagno	oses:					
_
