These historic Paris 2024 Paralympic Games have now come to a close. We saw record numbers of athletes (160), female athletes (59), and countries (51) that makes this event without a doubt the largest Paralympic Games in history for shooting Para sport!

We express our gratitude and appreciation to the organisers of these Paralympic Games for their great efforts and organisation for these 7 days of amazing shooting Para sport; you were excellent hosts to us all at the world class CNTS shooting range in Chateauroux!

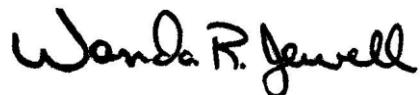

Despite our remote location outside of Paris in Chateauroux, the formidable French spirit and hospitality made us all feel welcome and at home.

We also sincerely thank all the officials, judges and volunteers who made their invaluable contributions to delivering these shooting events; your tireless dedication to your roles has been incredible, and it would not have been possible without you all.

A standout item to note from these Paris 2024 Paralympic Games were the performances! We saw thrilling finals and many Paralympic records broken. Our athletes put on a show and compete at a higher level than ever before, and it was rewarding to see the hard work of our athletes pay off during the competition.

We hope all athletes and delegations enjoyed the unique experience to be a part of these historic Paris 2024 Paralympic Games. On behalf of World Shooting Para Sport, we thank you for your determination and perseverance. You are all excellent ambassadors for the Paralympic Games; your impressive results and performances inspired us all, and we hope you will leave Chateauroux as Proud Paralympians. We hope that you will take home with you some special memories of amazing sport, atmosphere, and friendship.

Thank you!

### 10m air rifle and 50m rifle prone (events R1 to R6 and R9)

The competition consists of a qualification and a final round. The top eight athletes qualify and move to the final round. Scores are calculated using 10th-ring (decimal) scoring for the respective targets, with 10.9 the maximum achievable score per shot.

The finals consist of two stages, a first competition stage followed by an elimination stage:

- In the first stage, athletes fire two series of five shots, each fired in 250 seconds per series (150 seconds per series for rifle prone events);
- The elimination of the lowest scoring finalists begins after the 12th shot and the lowest ranked athlete will be eliminated after every two shots until only two athletes remain to fire their last shot to determine the gold medallist.

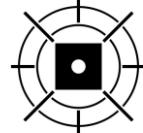

The 14 single shots are each fired in 50 seconds (30 seconds for rifle prone events).

### 50m rifle 3 positions (events R7 and R8)

The competition consists of a qualification and a final round. The top eight athletes qualify and move to the final round.

Scores are calculated using 10th-ring (decimal) scoring.

The finals commence with three series of five shots kneeling (200 seconds per series) and three series of five shots prone (150 sec per series). Finalists then undertake two series of five shots standing (250 sec per series) with the two lowest-ranking finalists eliminated after this point. The finals then continue with five single shots (50 seconds per shot) in the standing position,

with the lowest ranked athlete eliminated after each shot until only two athletes remain to fire their last shot to determine the gold medallist.

### **10m air pistol and 50m pistol (events P1, P2 and P4)**

The competition consists of a qualification and a final round. The top eight athletes qualify and move to the final round.

Scores are calculated with 10th-ring (decimal) scoring for the respective targets, with 10.9 the maximum achievable score per shot.

The finals consist of two stages, a first competition stage followed by an elimination stage:

- In the first stage, athletes fire two series of five shots, each fired in 250 sec per series;
- Elimination of the lowest scoring finalists begins after the 12th shot and the lowest ranked athlete will be eliminated after every two additional shots until only two athletes remain, with the gold and silver medals decided on shot number 24.

The 14 single shots are each fired in 50 seconds.

### **25m pistol (event P3)**

The qualification consists of a combination of 30 precision shots and 30 rapid fire shots. The top eight athletes qualify and move to the final round. All scoring is hit or miss; the size of the hit zone is within the score 10.2 or above.

There are two stages, which are the semifinal and medal matches.

The final consists of 10 five-shot rapid-fire series with hit or miss scoring. The elimination of the lowest scoring finalists begins after the fourth series and continues until the 10th series when the gold and silver medals are decided.

## **Sport Rules and Procedures**

### **Tiebreak rules**

Rifle and pistol tiebreaking rules are to be eligible to advance to the finals from the qualification.

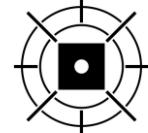

All tied scores in the 50m (rifle 3 positions and 50m pistol), 25m and 10m pistol events will be broken by applying the following rules:

- The highest number of inner 10s.
- The highest score of the last 10-shot series, working backward by 10 shot series in full ring scoring (not inner tens or decimals) until the tie is broken.
- If any ties remain, scores will be compared on a shot-by-shot basis using inner 10 (an inner 10 outranks a 10 that is not an inner 10), beginning with the last shot, then on to the next-to-last shot and so on.
- If any ties remain, scores will be compared on a shot-by-shot basis using decimal ring scores beginning with the last shot, then on to the next to last shot and so on.

When decimal scoring is used for 10m air rifle or 50m rifle prone elimination or qualification events, ties will be broken first by comparing the highest score of the last 10-shot series, then the next-to-last series and so on; then by comparing decimal scores on a shot-by-shot basis beginning with the last shot, then on to the next-to-last shot and so on.

### **Scoring**

In all events, shots are fired at a 10-ring target; scores are calculated electronically by measuring the distance between the centre of the shot hole and the centre of the target.

In rifle events (except for 50m rifle 3 positions qualification events), the 10 rings are subdivided into 10 decimal score zones, making 10.9 the highest score possible.

In 50m rifle 3 positions events, full ring scoring and inner tens are used, making 10 the highest achievable score. For the finals the decimal scoring is used.

In pistol events, the centre of the target is worth a maximum 10 points. In precision events/stages, competitors aim at the standard 10-ring target; with full ring scoring and inner tens used in qualification events and decimal scoring used in finals.

In rapid-fire events/stages the target is comprised of five, rather than 10, scoring rings; in qualification stages the target is scored five to 10 points and inner tens, and in finals there will be hit-or-miss scoring.

## Sport Terminology

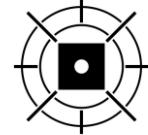

Terminologie sportive

As of FRI 23 AUG 2024

Term	Definition
Air pistol	A pistol that uses compressed air or compressed gas to discharge a lead pellet.
Air rifle	A rifle that uses compressed air or compressed gas to discharge a lead pellet.
Athletes	Competitors or participants in a sports competition. Athletes in the sport of shooting are sometimes called "shooters".
Athletes declaration	To participate in WSPS supervised competitions and championships, it is mandatory for athletes to have an active WSPS license
Bay	A group of five targets used in the 25m pistol events.
Bib number/start number	Every athlete entered in championships is issued a unique bib or start number. These numbers are used to identify and track competitors and must be worn on the athletes' backs during training and competition.
Called to the line	A command given by the chief range officer (CRO) to instruct athletes to position themselves on their allocated firing points (or targets) and set up their shooting equipment and firearms in readiness for the competition. For safety reasons, this command is only given when all officials and range staff are behind the firing line. In rifle and pistol events, athletes may pick up their firearms and do dry firing and aiming exercises but are not allowed to load or fire.
Chief range officer (CRO)	The senior range officer in overall command and control of a range, and responsible for safe conduct and efficient delivery of WSPS events.
Chief results timing and scoring officer (CRTSO)	The senior results, timing and scoring (RTS) officer, responsible for all timing and scoring matters and correct result production.
Countback	A system used to break ties when two or more athletes have the same score after firing the prescribed number of shots in elimination or qualification rounds. There are different rules for the separate events, but generally, the score achieved by each of the tied athletes in the last series are compared, with the highest score winning. If those scores are the same, the next-to-last series are compared, and so on.
Course of fire	A description of the stages of competition within an event that specifies the number of shots in each series and stage, the type of firing and the time limits.
CRO/ACRO	Chief range officer. The official or his assistant chief range officer (ACRO) who is responsible for giving instructions and commands to the athletes.
Crossfire	A shot fired at a target assigned to another athlete.
Decimal scoring	In air rifle events and in 50m rifle prone and in finals of air pistol events, the circular "rings" of a target are sub-divided into 10 equal decimal radial distances starting at the whole number and increasing in increments of 0.1. For example, if the outer edge of a bullet or airgun pellet touches a scoring ring, the value of that ring is awarded. For each tenth of the distance between that ring and the next highest ring that the bullet reaches, the score increases by 0.1 up to the highest possible 10.9. This is calculated automatically by the software used in the Electronic Scoring Targets (EST). In a 60-shot event, the maximum possible score is 60 x 10.9 (654.0)

Term	Definition
Deduction	Deduction of points from the score of a competitor as a penalty for contravening ISSF and WSPS rules.
Differential	The points difference between an athlete and the athlete ranked immediately ahead of him. This is used during the final and will be indicated on the public scoreboard.
Discipline	In WSPS, shooting has four disciplines: rifle, pistol, shotgun and vision impaired.
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event (DSQ).
Double starter	An athlete, who has been entered in one event through a quota place by his/her NPC can be entered as a so-called double starter in other event(s), if he/she has also obtained the minimum qualification score (MQS) in the other event(s).
Dry firing	The act of pulling the trigger and releasing the firing mechanism of a firearm without discharging a shot or releasing compressed air. Most commonly used by athletes as a means of training for trigger-control combined with aiming exercises in rifle and pistol disciplines.
Equipment control	The office or the process of checking the competitor's gun, clothing and accessories to ensure that all equipment used conforms to the WSPS and ISSF rules.
Final	The top ranked eight athletes after the qualification phase, depending upon the event, compete in a new (start-from-zero) competition in which the medal winners are determined.
Firing line	A clearly marked line on the field of play which is the forward point for the athlete's body during competition. No part of the athlete's body may touch the floor or ground ahead of the forward edge of the firing line.
Firing point	The area behind the firing line where athletes may adopt their positions during the event.
Firing position	The firing position can be standing, kneeling or prone for rifle shooting. For all other disciplines it is the standing position only.
Full-ring scoring	A means of scoring in 10m air pistol, 25m pistol, 50m rifle three positions qualification events and 50m pistol where the 'whole-number' score of the highest value ring is achieved when touched by a pellet or bullet.
Hit	In the final of the 25m pistol events, a target is "hit" when the electronically simulated "falling target" changes from black to white indicating that the target has fallen. This scores one point.
Individual scoreboard	Positioned behind and above the firing position of the athlete in the rifle and pistol disciplines. It carries the name of the athlete and shows the results in terms of single shots and series in different positions.
Inner-tens	Targets used in air pistol, 25m pistol, Three-position rifle and 50m pistol have an electronically calculated "inner ten" ring, which is shown as an "X" if the bullet or pellet touches it. The full-ring score of 10 is shown as "10 X". In qualification rounds, the total number of x's achieved is used to break ties if the full-ring scores of one or more athletes are the same.
Malfunction	The failure of a gun or ammunition to work properly.
Match shots	Scoring or record shots that count in an athlete's score.

Term	Definition
Minimum qualification score (MQS)	Scores that are established for each Paralympic shooting event by the WSPS, which the athletes must attain before they are eligible to be entered in one or more events in the Paralympic programme.
Penalties	In the case of infringements, contravention of WSPS/ISSF rules or instructions given by the range officers, penalties may be imposed upon a competitor by the WSPS jury.
Perfect score	A perfect score in qualification (or elimination) is the maximum score.
Pistol	A small gun intended to be held and fired with one hand.
Preparation and sighting time	In rifle, air pistol events and 50m pistol, the time prior to the start of match firing when an unlimited number of practice or warm-up shots may be fired at the targets.
Range	The facility on which shooting takes place for one or more shooting disciplines, or the specific shooting distance. A range complex or facility for WSPS Championships includes a 10m air rifle and air pistol range, a 25m pistol range and a 50m rifle/pistol range.
Range officer	A competition official who is responsible for conducting and controlling a rifle or pistol event.
Ranking	Athletes in each event are ranked in descending order according to the number of hits or scores achieved, with the athlete scoring the most hits or highest score ranked first, etc.
Relay	If there are more athletes than targets available in 10m and 25m events, the events are fired in a series of relays, with all scores ranked until all athletes have fired the required number of shots. The eight (10m and 25m) highest ranked athletes advance to their respective finals.
Results timing and scoring officer (RTSO)	The RTSOs are responsible for working with the RTS jury, competition jury, range officers and official results provider to facilitate the conduct of scoring and results operations on their ranges.
Rifle	A shoulder gun with spiral grooves cut in the inner surface of a gun barrel to give the bullet a rotating motion and render its flight more accurate.
Round	A phase of competition within a shooting event. Shooting events may have elimination rounds, qualification rounds and finals.
Series	A sequence of shots fired within a stage or course of fire. Airgun, rifle and 50m pistol events have 10-shot series and the 25m pistol events have five-shot series.
Shoot-off	In rifle and pistol event finals, if athletes subject to elimination have tied scores, those athletes will fire an additional shot, or shots, to decide which athlete is to be eliminated.
Sighting shots	Practice or warm-up shots that are fired in a shooting event prior to match shots. Sighting shots do not count in the competition score.
Squadding	The assignment of athletes entered in an event to relays and firing points in rifle-pistol events. This process produces start lists.
Stage	A phase or part of an event course of fire. A three positions rifle event has three stages, one for each position. The 25m pistol event has two stages, precision and rapid fire.
Start lists	Official documents produced in competitions that list all competitors entered in an event according to an athlete's relay and firing point and position in the squad.
Start time	The start time in each shooting event is the time when commands for the first match shot begin.
