## 1. ABOUT SARDINIA

Sardinia is the second largest island in the Mediterranean after Sicily, with an area of 24,100.02 km<sup>2</sup>.

With its 1,897 km of coastline, it is the Italian region with the greatest coastal development. It has organized one of the most special and important open water events of the Italian Paralympic Swimming Federation for over 11 years: the Italian Open Water Para Swimming Championships.

Sardinia is a cradle surrounded by the sea where, eight thousand years ago, a mysterious and original civilization was born, brought by sea from the other side of the ancient Mediterranean, which is why it was open to innovations and cultural influences. The Sardinians built nuraghi (typical ancient megalithic buildings) along the coast with moorings for boats, joined together to guard the sea and connected to those built inland. The island's location is strategic: it is a bustling crossroads of trade routes frequented by seafaring peoples, including the highly evolved and peaceful Phoenicians who made their base in Sardinia. They founded what would be the most beautiful, cultured and wealthy cities of their time Sulci, Bithia, Nora, Tharros and Karaly. Goods, ideas and knowledge circulated freely among the Phoenician cities and Nuragic villages until the arrival of imperialist populations eager for new domains.

First came the Carthaginians, then fell the Romans and the Phoenician cities. The Sardinians reacted heroically, as in the "lost city" of Cornus, which was defended to the last breath by the Romans. For this, it was punished, destroyed and rebuilt. The most poignant of sunsets over the sea originates from its ruins, overlooking the Gulf of Cuglieri and the cliff of Santa Caterina di Pittinurri. The Romans expanded and built their city overlooking Asinara: beautiful and imperious emerged Turrus Libisonis, today the center of Porto Torres. This is an area of La Sardegna where the early Sardinian and Nuragic civilization is best preserved. Here, a short distance from the sea, stands the ziggurat of Monte d'Accoddi. It is one of the oldest and most unusual monuments of European culture. The Romans built paved roads to better govern the territory and connect the conquered cities. One of them connected Nora to Bithia on the coast, and today it is a scenic tour through unspoiled landscapes, as it was when people traveled in ancient times.

## 6. RACE & PRICE AWARD CEREMONY

Competition from S3 to S6 - **distance 1,5 km**

Competition from S7 to S10 + S11 S12 S13 + S14 – **distance 3,0 Km**

### Competition field A

Alghero's most famous beach, located in one of the most beautiful natural landscapes of the Mediterranean Sea, can be reached on foot from the northern part of the town. Lido San Giovanni stretches for 5 km of fine white sand, gently sloping down to the crystal-clear blue sea. The beach is scented with the fragrances of juniper, sea lily, and helichrysum, which adorn a pristine yet often crowded landscape. Its seabed is shallow and crystal clear, making it a favorite among families with children, young people, and nature lovers. Lido San Giovanni offers stunning views of the sea, overlooking the iconic promontory of Capo Caccia, with its majestic cliffs rising above the bay. Thanks to its environmentally conscious surroundings, this is a wonderful corner of biodiversity where relaxation and adventure blend seamlessly.

## Competition field B

Spiaggia di Mugoni, a wide and stunning beach, stretches for about a kilometer and is characterized by fine, soft, white sand, dotted with junipers, mimosas, thistles, and sea lilies. The crystal-clear water reflects the sun's rays, bringing out beautiful shades of blue and green. The seabed is shallow and sandy, making it particularly suitable for children, and the beach gently slopes down to the sea. It's a peaceful and scenic spot, perfect for relaxing and enjoying the natural beauty of Alghero.

## COMPETITION FIELD B

The three first male and female athletes competing in the distance of 1.5 Km will awarded a medal. Also the three first male and female athletes competing in the distance of 3 Km will awarded a medal for each class group (S7 – S10 and S11 – S14), according to the weighted point table (hereby attached).

The athletes with N status can compete but they will not receive any medal.

## 7. ORGANIZATION

Since 2014, the AlbatroSS sports club has been organizing, in cooperation with the Italian Para Swimming Federation, the Italian Paralympic Open Water Swimming Championships. Such event, at the national level, will take place within the international one, as usual, this year as well. The close cooperation with the Federation has led the LOC, year after year, to offer an increasingly professional standard up to an international organizational level. The experience gained, in synergy with Aquatic Team Freedom in Water and the Italian Swimming Federation, has resulted in an ideal competition field for open water events.

The organization would guarantee:

- Organizational costs
- Transfer to and from the airport, from the hotel to the competition venue
- Accessibility to the competition venue
- International finish with touch and chip timing
- Live event
- Hospitality local Judges
- Direct relationship with the GUG (Race Officials Group of the Italian Swimming Federation)
- Teams
- Gadgets of the event
- Authorizations, competition venue with buoys,
- Safety and assistance for athletes
- Medical service
- Post race refreshments
- Prize award ceremony
- Filming of the race with 3 cameras and 1 drone
- Broadcasting on a big screen placed on the beach
- Volunteers (they don't include guide athletes)

## 8. LOCATION

Alghero, located in the northwestern region of Sardinia, is a charming town with just under 45,000 residents year-round, which swells with thousands of tourists during the summer months. Founded in the 12th century, Alghero still retains its distinctive Catalan character—a legacy of the Aragonese rule—reflected in its architecture, language, and local

traditions. The area has been inhabited since ancient times, as evidenced by the nearby Nuragic remains, such as the Palmavera complex. During Roman times, the region was already populated, and many archaeological finds are now preserved in the Alghero Archaeological Museum, offering a glimpse into the town's rich and layered history.
