WELCOME MESSAGES

It is my great pleasure to welcome you to Milano Cortina 2026 as we celebrate the 50th anniversary of the Paralympic Winter Games.

Since Örnsköldsvik, Sweden, staged the first Paralympic Winter Games in 1976, the event has evolved dramatically. This March we look forward to welcoming more than 550 athletes from around 50 National Paralympic Committees.

There is something very special and compelling about Paralympic winter sport and I am greatly excited about the addition of a new medal event in wheelchair curling mixed doubles, bringing to 79 the total number of medal events across six sports.

I am fully confident the sporting action will be out of this world with Paralympians pushing the boundaries of what is humanly possible, while being absolutely certain that Milano Cortina 2026 will be the most beautiful Paralympic Winter Games to date. With events taking place in the heart of the Dolomites, as well as Val di Fiemme and the fashion capital Milano, the backdrop will look sensational as the world's best Paralympians take centre stage on snow and ice.

Italy has a rich and proud history when it comes to the Paralympic Movement.

Rome hosted the first ever Paralympic Games, Torino staged a spectacular Paralympic Winter Games in 2006, and I am extremely grateful that the Milano Cortina 2026 Organising Committee and its delivery Partners are using the 2026 Winter Games as a catalyst to make Italy more accessible and inclusive for all. Such incredible transformation, even before the Opening Ceremony takes place, is proof that Change Starts with Sport.

The City of Verona is investing €20 million improving accessibility at the 2,000-year-old Arena di Verona ahead of it hosting the Opening Ceremony on 6 March. In Milano, where the Para ice hockey competition will take place, €55 million is being spent to ensure all remaining Metro lines are made fully accessible, while in the Lombardy region over €400 million has been invested into the purchase of more than 50 accessible trains. Elsewhere in Italy, all cities and regions hosting the Games are using the event to boost inclusive tourism and access to Para sport.

Finally, on behalf of the IPC, my immense thanks and gratitude to the Milano Cortina 2026 Organising Committee, host regions and cities, the IPC Management Team, the IOC, Games officials, volunteers, media rights holders, Partners and to you the Paralympic Family. Let's make these Games a 50th anniversary to remember!

Enjoy the world class sporting action.

Andrew Parsons
President, International Paralympic Committee.

Welcome to the Milano Cortina 2026 Paralympic Winter Games.

For this edition of the Paralympic Winter Games, Italy is proud and honoured to welcome the world once again, twenty years after the Winter Games in Torino, and seventy years after Cortina d'Ampezzo first hosted the Olympics in 1956.

In Italy, a country of history, art and passion, we are preparing to host these Games with immense joy and a deep sense of responsibility. From the Alpine peaks of Cortina to the vibrant energy of Milano, we are uniting cities, provinces, regions, cultures, and generations around a shared Paralympic dream.

Today, we are proud to present an edition of the Winter Games like no other.

For the first time, a multi-city, multi-region Games, where events will unfold across the breathtaking landscapes of Lombardy, Veneto, Trentino-Alto Adige and Südtirol — from the Dolomites to the city streets of Milano. These Games will celebrate both urban vitality and natural beauty, offering a stage as diverse and inspiring as the athletes who compete.

We will see iconic venues reborn: Cortina's historic slopes alongside cutting-edge arenas in Milano. We are introducing a new way to experience the Games—where legacy, innovation, and community meet.

Milano Cortina 2026 will also be a model of responsibility: more sustainable, more inclusive, and more connected to the world around us. A Games designed to reuse 93% existing or temporary venues, drastically reducing the environmental footprint. We are proud to host the most gender-balanced Winter Paralympics in history, and to create lasting opportunities for youth, sport and regional development.

With humility in the face of global challenges, but with a strong belief that sport unites and uplifts, we welcome you to take part in a journey that goes beyond medals. These Games are a celebration of resilience, cooperation and shared values that transcend borders.

In this guide, you will find key information on all aspects of the Games: venues, ceremonies, ticketing, transport, registration, accommodation and volunteer opportunities. Everything you need to be part of this unforgettable event.

On behalf of the entire Milano Cortina 2026 team, benvenuti in Italia.

We look forward to welcoming you—and turning dreams into reality in the heart of the Italian winter.

Giovanni Malagò
President, Olympic and Paralympic Winter Games Milano Cortina 2026

MILANO CORTINA 2026 PARALYMPIC WINTER GAMES

1.1 OVERVIEW OF THE GAMES

6–15
March 2026

Dates of the Paralympic Winter Games

Over
600
Paralympic Athletes

79
Medals

6
Sports

23,000
Workforce

5,000 Paid Staff
and 18,000 volunteers

50
NPCs represented

The Olympic and Paralympic Winter Games Milano Cortina 2026 are the first Games in history to be named under two host cities.

During the Paralympic Winter Games, over 600 athletes will be competing in 79 medal events across six sports – Para Alpine skiing, Para biathlon, Para cross-country skiing, Para ice hockey, Para snowboard and wheelchair curling.

The Games will mark the 50th anniversary of the first Paralympic Winter Games and also see the Winter Paralympic Games return to Italy for the second time in history, 20 years after Torino 2006.

1.2 ABOUT MILANO

© Getty Images

Population: 1,371,498 inhabitants.

Area: 181.8km², 9 administrative districts (**Municipi**)

A cultural hotspot: A renowned cultural hotspot, Milan is home to iconic institutions such as Teatro alla Scala (Opera House), the Pinacoteca di Brera (Art Gallery), Museo del Novecento, and the Triennale di Milano – all of which regularly host exhibitions and events of international significance.

Italy's fashion and design capital: home to "Milano Fashion Week" and the "Salone del Mobile".

Culinary specialties: risotto alla milanese, cotoletta alla milanese, panettone, ossobuco.

Historic monuments: Duomo (the city's cathedral), Castello Sforzesco, Galleria Vittorio Emanuele II, Basilica of Sant'Ambrogio, Monumentale Cemetery, Columns of St. Lawrence.

If you're planning to visit some of these landmarks during the Games, we strongly recommend booking your tickets in advance – especially for the Duomo and Leonardo da Vinci's "*The Last Supper*", which have limited availability.

Famous Milanese figures: Leonardo da Vinci (adopted Milanese), Alessandro Manzoni, Giuseppe Verdi, Giorgio Armani, Enzo Jannacci, Alda Merini, Dario Fo, Carla Fracci, Achille Castiglioni, Alessandro Volta.

1.3 ABOUT CORTINA

© Getty Images

Population: 5.482 inhabitants

Area: 252.81 km²

A natural and cultural jewel: Nestled in the Ampezzo Dolomites — a UNESCO World Heritage Site — Cortina is surrounded by iconic peaks such as the Becco di Mezzodì, Cinque Torri, and Tofane. The town is instantly recognisable thanks to El Ciampanin, the white bell tower made of Dolomite stone. Sunsets here are known as enrosadira, a Ladin term describing the mountains turning pink. On rare nights, the northern lights can also be seen, inspiring the Paralympic emblem of Milano Cortina 2026.

A timeless destination of style and elegance: Since hosting the 1956 Olympic Winter Games, Cortina has captivated monarchs, artists, athletes, filmmakers and intellectuals. Its refined charm is reflected in the elegant buildings along Corso Italia, the heraldic coats of arms of historic Ampezzo families, and the scent of burning wood and mountain pine that fills the air.

A cradle of winter sports and cinema: The resort town boasts legendary sports venues, several of which appeared in the 1981 James Bond film For Your Eyes Only. These include the Olympic Ice Stadium, the Eugenio Monti sliding track (both in use again for the 2026 Games), and the historic "Italia" ski jumping hill.

Culinary specialties: casunziei, spätzle, barley soup, apple strudel

Famous figures linked to Cortina: Dino Buzzati (writer and mountaineer) and Lino Lacedelli (mountaineer)

CHAPTER 2

ARRIVALS & DEPARTURES SERVICES (AND)

2.1 ARRIVALS & DEPARTURES INFORMATION

To benefit from these services, all your arrival and departure details must be entered into the Arrivals and Departures System (ADS) at least 48 hours before your arrival by the organisation responsible for providing your arrivals information to Milano Cortina 2026.

It is crucial that you communicate accurate information regarding baggage, sports equipment, and accessibility needs to your organisation. The ADS is designed for Milano Cortina 2026 to best plan operations and to receive Transport services.

To ensure smooth AND operations during the Paralympic Winter Games, the territory has been divided into two zones:

West Zone - Recommended for Milano cluster

- Port of Entry – Milano Malpensa Airport [MXP] for the Milano cluster and the
- Service Points - Milano Centrale railway station and Milano Linate Airport (LIN)

East Zone - Recommended for the Cortina cluster and/or Val di Fiemme cluster

- Port of Entry - Venezia Marco Polo Airport [VCE]
- Service Points - Venezia Mestre railway station and Trento railway station

Each zone is supported by dedicated Ports of Entry (PoEs) and Service Points (SPs) for efficient access to your place of accommodation.

Please note: No Milano Cortina 2026 services will operate from Verona Airport (VRN).

TRA - 03/11/2025

BAGGAGE CLAIM AREA	Support for lost, damaged, or delayed baggage, including communication with airlines and airport operators if needed.	*	*	
CUSTOMS	Services will include facilitation of customs procedures (if needed).	*	*	

SEVICES AT PORTS OF ENTRY AND AND SERVICE POINTS

GENERAL ARRIVAL SERVICES	SERVICE DESCRIPTION	MXP	VCE	AND SP
GAMES CONNECTION DESK	Milano Cortina 2026 staff-operated desk that will provide stakeholders with Games-related information on arrivals and departures and transport.	*	*	
ACCESSIBILITY SERVICES	Available following the standard accessibility procedures set by airlines and train operators.	*	*	*
TRANSPORT SERVICES	Shared services across multiples modes of transport (e.g. combined transport network shared among all accredited stakeholders TP/TC).	*	*	*

2.3 BEFORE YOUR ARRIVAL IN ITALY

Italy is a Schengen state and has no internal border controls with other Schengen member states. If your arrival and/or departure requires entry into the Schengen Area via another airport in the Schengen Area (e.g. Amsterdam [AMS], Frankfurt [FRA], Munich [MUC], Vienna[VIE], etc.) you will complete immigration processes at these airports prior to arriving in Italy.

For stakeholders arriving from non-Schengen countries, immigration procedures will involve two steps:

1. Biometric registration (EU Entry/Exit System – EES) at self-service kiosks (fingerprints and photograph). This applies to first-time entrants to the Schengen Area as well as those re-entering after a previous visit.

NOTE: this step does not apply to Paralympic Family who can present a PVC or PIAC.

2. Passport and visa control (if applicable) carried out by the Polizia di Frontiera Aerea.

DOCUMENTS REQUIRED TO ENTER ITALY
To enter the Italian territory, the following documents are required:

- **A valid travel document**:
  - For EU/Schengen citizens, passport or national ID must be valid at least until the day of departure from Italy.
  - For third-country nationals, the passport must be valid for at least three months beyond the planned date of departure.
- **A visa that covers the entire duration of your stay in Italy** (except for EU/Schengen citizens and nationals of countries with bilateral short-stay visa exemption agreements).
  - Nationals from countries/territories requiring a visa to enter the Schengen Area, or for whom a visa will be requested through the Milano Cortina 2026 Accreditation system will have their visa number printed on their Pre-Valid Card (PVC). Entry will be granted upon presentation of a valid travel document and PVC. Milano Cortina 2026 ACR will not be printing the visa number on the Pre-Valid Card for those issued after 16 January 2026. If you don't have a visa printed in your PVC and your accreditation data are fully approved in the accreditation system, visa issuance is handled through the standard Italian visa sticker process. It is your responsibility to check your own visa requirements before traveling. You can check if you need it, in the official Italian visa portal: Visa for Italy.

CUSTOMS/PROHIBITED GOODS

When entering Italy from a non-Schengen country, specific customs procedures may apply. Items requiring temporary admission, such as specialized equipment or materials, must be declared at the customs desk, where officers will assist with the necessary formalities.

For information on customs policies, procedures and contact details, please refer to the **Customs and Freight Forwarding Guide**.

ASSISTANCE

When securing travel arrangements, airlines, airports and major train stations offer various assistance services to passengers. These may include mobility, cognitive and sensory, medical or safety assistance.

With regards to wheelchairs, mobility devices or medical equipment, travellers may need to provide information such as:

- Device Type
- Model and dimensions (length, width, height and, whether the item can be folded have its dimensions adjusted)
- Weight
- Battery Type

Certificates may need to be secured in advance of travel.

Airlines will provide instructions for specific packaging and handling requirements, especially where batteries and/or oxygen equipment are involved.

RULES FOR TRAVELLING WITH ASSISTANCE ANIMALS TO ITALY

If you are travelling with your assistance animal, please read the rules: **Ministero della Salute - Travelling to Italy with pets**.

MISHANDLED BAGGAGE

Assistance with lost or delayed baggage is available in the baggage-claim area, where Milano Cortina 2026 Staff can help facilitate necessary procedures. Including filling out a Property Irregularity Report (PIR) form. The airline is responsible for delivering the baggage to your accommodation and will contact you directly. Once the delayed baggage is ready for dispatch, the airline's designated handler will arrange delivery to the hotel address provided by the client on the PIR, in accordance with standard airline procedures. Upon delivery, it is the responsibility of each passenger to retrieve their baggage from the hotel. We recommend labeling all baggage with your name and contact number to reduce the risk of mishandling.

2.4 ARRIVAL PROCESS

2.4.1 PORT OF ENTRY (POE)

VENEZIA MARCO POLO AIRPORT (VCE)

V2 Stakeholder Arrival Process

Milano Cortina 2026 recommends using Venezia Marco Polo (VCE) as the official port of entry for V2 stakeholders staying at the Paralympic Family Hotel in Cortina and for stakeholders who need to reach the Cortina cluster (Cortina) and Val di Fiemme cluster (Predazzo and Tesero).

Upon arrival at VCE, you will be welcomed by Milano Cortina 2026 staff positioned at key locations throughout the terminal, including near the passport control, to assist you with any issues you may encounter. Signage will also support your navigation through the airport.

Milano Cortina 2026 staff will be stationed in front of the i passport-control area with official uniforms and lollipop signs to greet you and will guide you towards Milano Cortina 2026's dedicated fast-track preferential lane to ensure a swift and smooth immigration process.

You will then proceed to the baggage claim area, where Milano Cortina 2026 staff will be present. Once you have collected your luggage, you will continue through customs. In the event of any issues with your luggage, please follow the procedure outlined below.

The Milano Cortina 2026 staff will be stationed at the exit of the baggage-claim area, and will escort you to the fast-track accreditation validation counters and then to the transport Load Zone, where where transport will be provided to your accommodation cluster.

Transport to official accommodation is dependent on information being entered in the Arrivals & Departures System (ADS) by your organisation.

1. LANDING GATE
2. IMMIGRATION
3. BAGGAGE CLAIM AREA
4. ARRIVAL HALL (ACR DESK)
5. TRANSPORT

V3 Other Stakeholder Arrival Process

Upon arrival, please follow the dedicated signage towards passport control. Milano Cortina 2026 staff in uniform will be present to guide you to the dedicated immigration lanes.

After you clear passport control (if entering Schengen Area), pick up your luggage and pass through customs, you will be ready to exit the baggage-claim area following the airport signage. In the event of any issues with your luggage, please follow the procedure outlined.

You will then find the Accreditation Desk in the public arrivals area where you can validate your Pre-Valid Card (PVC). If you are unable to validate your PVC at the airport, alternative locations will be available to complete the accreditation process. **Please refer to the accreditation section of this guide for further information**.

The Milano Cortina 2026 Games Connection Desk (GCD) is available to support your onward journey. Staff at this desk will provide guidance on the next steps in your trip, including access to the appropriate transport services, and will be available to answer any questions you may have.

From Venezia Marco Polo will be able to use the TC line to reach Venezia Mestre Train Station and from there you can access the TP/TC network depending on the final destination.

1 ***LANDING GATE***

2 ***IMMIGRATION***

3 ***BAGGAGE CLAIM AREA***

4 ***ARRIVAL HALL (ACR DESK)***

5 ***TRANSPORT***

MILANO MALPENSA AIRPORT (MXP)

Milano Cortina 2026 recommends using Milano Malpensa Airport (MXP) as the PoE for the Milano cluster.

Upon arrival, please follow the dedicated signage towards baggage claim. Milano Cortina 2026 staff in uniform will be present to guide you.

After you clear passport control (if entering Schengen Area), pick up your luggage and pass through customs, you will be ready to exit the baggage-claim area following the airport signage. In the event of any issues with your luggage, please follow the procedure outlined below.

You will then find the Accreditation Desk in the public arrivals area where you can validate your Pre-Valid Card (PVC). If you are unable to validate your PVC at the airport, alternative locations will be available to complete the accreditation process. **Please refer to the accreditation section of this guide for further information**.

The Milano Cortina 2026 Games Connection Desk (GCD) is available to support your onward journey. Staff at this desk will provide guidance on the next steps in your journey, including access to the appropriate transport services, and will be available to answer any questions you may have.

1. ***LANDING GATE***
2. ***IMMIGRATION***
3. ***BAGGAGE CLAIM AREA***
4. ***ARRIVAL HALL (ACR DESK)***
5. ***TRANSPORT***

2.4.2 SERVICE POINTS

MILANO LINATE AIRPORT
Milano Linate Airport (LIN) has been designed as a Service Point (SP) for the Milano cluster.

Upon arrival, signage will guide you through the airport. There won't be any Games Connection Desk. To access the transport services available in Milano Linate Airport (LIN) to reach official accommodation, clients will need their PVC registration number or valid accreditation to log in to the Transport Client app and book public transport.

MILANO CENTRALE
Once you arrive at Milano Centrale station, you can proceed to the Milano Cortina 2026 Games Connection Desk, which will be located on the Ground floor.

At the desk, you will receive personalized travel information and assistance related to your onward journey. Staff will support you with your transport and provide guidance to help you efficiently reach your accommodation .

There is no accreditation desk at the station, if you need to validate your Pre-Valid Card, you must do so at one of the official accreditation centres indicated in the relevant section of this guide.

OTHER SERVICE POINTS
Other service points will facilitate access to their associated clusters:

- Venezia Mestre train for Cortina and Predazzo.
- Trento train station for the Val di Fiemme cluster.

At each of these service points, transport services (TP/TC) are available to take you to your official accommodation.

2.4.4 DRIVE ARRIVE

BEFORE YOUR ARRIVAL

You may also choose to reach your official accommodation using your own means of transport. In which case, it remains essential to enter all travel details into the Arrivals & Departures System (ADS) by 12 February and select the option “Drive Arrive.”

By doing so, you will receive the Drive Arrive Form, which needs to be filled in at least 72 hours before arrival. Venue transport will then send the Drive Arrive Letter 48 hours before arrival, which needs to be printed and displayed so it is visible through the car windshield.

DURING GAMES TIME

If the traffic control filter is not active, access is unrestricted.

If the traffic control filter is active, vehicles must have either a valid VAPP or Drive Arrive Letter printed and displayed to be able to pass through it.

If you don't have any of the above, you need to collect a Daily Pass at a Daily Pass Distribution Point near the filter. You will need to present a PVC, digital Drive Arrive Letter or booking reservation to obtain the pass.

2.5 DEPARTURE PROCESS

The departure process for the Milano Cortina 2026 Paralympic Winter Games mirrors the arrivals.

Paralympic Family should keep their organisations informed of their departure plans well in advance of their departure so that these details can be made available to Milano Cortina 2026 through the Arrivals and Departures System.

Luggage handling follows the same principles as during arrivals – your baggage will travel with you, and Paralympic Family are encouraged to keep their Paralympic Identity and Accreditation Card with them at all times until the end of your journey.

2.5.1 DEPARTURE TRANSPORTATION

Departure transport services will follow the same structure as arrivals.

During the departure phase, Paralympic Family will have access to multiple transport options to reach their final destinations.

ORIGIN	DESTINATION	TP/TC
MILANO CLUSTER	Milano Malpensa Airport (MXP)	**Public transport and Transport Connect** services ensuring movement across the clusters served by Milano Cortina 2026

Not recommended journeys:

CLUSTER	PORT OF ENTRY	TRANSPORT SERVICE	CLUSTER
PREDAZZO	Malpensa Airport	TC + Train (3 connections)	7 hours
CORTINA	Malpensa Airport	TC + Train (2 connections)	7 hours 15 minutes
MILANO	Venezia Airport	TP + Train (2 connections)	3 hours 55 minutes

2.6 ASSISTANCE SERVICES

2.6.1 PORTS OF ENTRY

MILANO MALPENSA AIRPORT

Milano Malpensa Airport (MXP) is managed by SEA (Società Esercizi Aeroportuali) and is fully committed to ensuring a safe, inclusive and comfortable travel experience for all passengers, in compliance with EC Regulation No. 1107/2006 concerning the rights of people with reduced mobility (PRM) when traveling by air. PRM travelers may benefit from access to the Sala Amica, the dedicated special-assistance lounges, equipped with accessible restrooms, seating, flight monitors and vending machines. Sala Amica lounges at Malpensa are located at:

- **Terminal 1**: departures floor, following the signs for 'Sala Amica'. Accessible from street entrance door 12 or from inside the terminal near check-in areas 1-3;
- **Terminal 2**: departures floor, central door.

The airport infrastructure fully complies with accessibility standards and includes automatic entry doors, inclined ramps and elevators equipped with braille buttons and audio guidance. Clear multilingual signage, together with synchronised visual and auditory announcements, facilitate ease of movement for all passengers. All personnel providing support to PRM passengers undergo dedicated training in inclusive service practices and emergency management. Further information for passengers with reduced mobility is available on the official Milano Malpensa website: **Reduced mobility I Milano Malpensa Airport**. SEA also provides a detailed guide for passengers with reduced mobility: **SEA Service Charter Guide for PRM passengers**.

Assistance is free of charge and must be requested through the operating airline, travel agent or tour operator at least **48 hours prior to the scheduled journey**.

Passengers are recommended to **reach the airport at least**:

- three hours prior to the scheduled departure time, in the case of a flight with a domestic or Schengen destination; or
- four hours prior to the scheduled departure time, in the case of a flight with an international or non-Schengen destination.

Upon arrival at the airport, passengers may request assistance at one of the following locations:

1. **at the designated PRM call points located at the designated external Sala Amica Call Points, which are located:**

- in **Terminal 1**:
  - departures floor, doors 13, 15 and 19
  - arrivals floor, doors 4 and 7
  - P2 parking area, floor -1 - train station - car rental offices;

- In **Terminal 2**:
  - departures area, door 3
  - arrivals area, door 7
  - P5 parking area
  - train station

2. **at the check-in counters for your flight;**

3. **at the Sala Amica Lounge, located in Terminal 1, departures floor, near door 12; or**

4. **at the information desks.**

In general, the accessibility plan for PRM stakeholders varies depending on the mode of transport used upon arrival at MXP:

- If travelling by a Milano Cortina 2026 bus, the only service that needs to be booked is the SEA assistance service, Sala Amica to receive assistance for moving through the airport and for boarding/disembarking the aircraft.

- If travelling by train, railway dedicated assistance service must be booked in addition to Sala Amica, to receive assistance for moving through railway stations and for boarding/alighting from trains.(see section "RAILWAY SERVICES" below)

Please note that airport assistance and station assistance are two different procedures, managed by different companies and requiring two separate bookings.

It is essential that each stakeholder informs their airline in advance if they require assistance, so that support can be guaranteed both at the departure airport and upon arrival in Italy.

In addition, the same information must be correctly entered into the Arrivals & Departures System (ADS). This ensures that Milano Cortina 2026 staff can plan and provide the necessary services during your transfer from the Port of Entry to your official accommodation.

WAITING AREA

An information desk for Transport & Arrivals and Departures (**Games Connection Desk**), will be set up in the waiting area for stakeholders (accreditation required) with:

- furnished space with seating

- access to electricity and internet

LOAD ZONES

For arrivals, load zones are designated areas located on the arrivals level (ground floor) of Milano Malpensa Airport (MXP), intended to ensure the boarding of stakeholders into their assigned means of transport, as coordinated by the transportation area.

At MXP, the load zone corresponds to doors 4–5 on the arrivals level, with the entire area dedicated to Milano Cortina 2026 vehicles. Within this area, buses and vans serving the various clusters will transit and park, along with Milano Cortina 2026 vehicles providing dedicated services where applicable.

The airport management company, SEA, is responsible for ensuring that the bus load zones at MPX are accessible.

With regard to signage, Milano Cortina 2026 will be responsible for ensuring its accessibility. In addition, staff will be present to guide and assist passengers from the waiting area to the load zone.

For departures, the load zones will be located on the departures level (first floor), in front of exit doors 12-13. They are positioned near the logistics area to facilitate the reconciliation between stakeholders and their sports equipment.

VENEZIA MARCO POLO AIRPORT

Venezia Marco Polo Airport (VCE) is managed by SAVE Group and offers free assistance to passengers with disabilities or reduced mobility (PRM) in compliance with EC Regulation No. 1107/2006, which guarantees uniform support across European airports. Services include a mobile landing stage, reserved parking, and the Sala Amica lounge. Assistance must be requested through the airline at booking or at least 48 hours before departure. Requests made after this deadline may result in delays. Airlines may also ask for specific information regarding the required assistance, equipment or medical clearance.

Passengers may travel with up to two mobility or medical devices free of charge. Upon arrival, assistance is provided from the aircraft to the PRM call spot. For departures, support is available at multiple locations, including check-in, the lounge, and the information desk.

Assistance can be requested at any PRM call spot or directly at the check-in desk. The PRM call spots are located:

- terminal – ground floor, door 1
- terminal – first floor, door 7
- P1 Park – second floor
- P1 Park – car rental
- short stay parking
- dock - pier N.2
- dock - pier N.13

Further information is available on the official Venezia Marco Polo airport website: **Services for Passengers with Disabilities Venice Airport - PRM Passenger Venice Airport**.

2.6.2 SERVICE POINTS

RAILWAY SERVICES
Milano Cortina 2026 will rely on several train stations to welcome you and provide services as soon as you reach Italy. These include:

- Milano Malpensa Airport T1
- Milano Centrale
- Trento
- Venezia Mestre

Passengers with disabilities must book the railway assistance service through **sala blu – rfi**. The email address for requests varies depending on the station: the specific email address for each station is listed below.

The '**Milano Cortina 2026 transport**' app provides passengers with disabilities with all the necessary information on how to purchase tickets and book rail assistance. It is available on the app store and google play.

Travelling between malpensa train station and milano centrale train station (in both directions) requires booking railway assistance for passenger with disabilities via **rfi – rete ferroviaria italiana**, sending an email to: salablu.Milano@rfi.It

If you are travelling from any of the other stations previously listed, you need to book assistance via **RFI – Rete Ferroviaria Italiana**. Details on how to book these services are provided in the following paragraphs.

RFI - RETE FERROVIARIA ITALIANA
RFI is the company responsible for managing Italy's national railway infrastructures. RFI's accessibility services and facilities are described on their official website:

- For persons with disability
- Accessibility Info – general information

For each train station, RFI provides a dedicated webpage featuring "Infoaccessibilità" (Accessibility Information), which includes details on:

- accessibility of the platforms;
- accessibility of the building;
- presence, numbers, and real-time functioning of elevators;
- presence or absence of the PRM assistance service;
- presence or absence of PRM parking;
- presence or absence of accessible toilets;
- presence or absence of audible public information system; and
- presence or absence of visual public information system.

RFI also provides a dedicated assistance service known as “Sala Blu”, accessible via the official website: Scegli dal menu ... - SalaBlu online.

This service is designed to support passengers with disabilities or reduced mobility throughout their rail journey — from arrival at the station, to boarding, travel, and disembarkation.

Services offered include:

- meeting at the station entrance or meeting point;
- assistance with luggage and navigation within the station;
- support with boarding and disembarking from the train (including the use of platform lifts, if required);
- assistance during train transfers; and
- coordination with train staff for onboard support.

RFI’S SALA BLU ASSISTANCE SERVICE BOOKING PROCEDURES

Specific information on booking procedures can be found on the official website. Information about the assistance in the Sala Blu in one click.

In general, assistance must be requested at least **12 hours in advance** (or **24–48 hours for international trains**), and Milano Cortina 2026 is working to reduce the service to 1-6 hours, depending on the station. Reservations can be made through the following channels:

- **Toll-free telephone number** reachable from a landline in Italy (800 90 60 60) or the national standard-rate number reachable from fixed and mobile phones and from abroad +39 02 32 32 32, during the Sala Blu opening hours.
- National email – up to **6 hours before the train** departure: salablu.nazionale@rfi.it.
- **Specific train-station email**, available on the website - up to 6 hours before the train departure.
- At the Sala Blu help desk (physical locations available in major stations).
- Official app: SalaBlu+ both for Android and IOS - up to **3 hours before the train departure**.
- Online form: Scegli dal menu ... - SalaBlu online.
- Web chat for people with hearing disabilities, can be activated by registering at SalaBlu online.

STATION-SPECIFIC ACCESSIBILITY REQUIREMENTS AND SALA BLU CONTACTS

MILANO CENTRALE TRAIN STATION

For **Sala Blu at Milano Centrale**, booking can be made by phone up to **one hour before departure**. The Sala Blu help desk at Milano Centrale is located near **platform 4**. The Milano Centrale Sala Blu e-mail contact is: salablu.milano@rfi.it.

Elevators	Yes
PRM assistance service	Yes – Venezia S. Lucia
PRM parking	Yes
Accessible toilets	Yes
Audible public information system	Yes
Visual public information system	Yes

MILANO LINATE AIRPORT

Milano Linate Airport (LIN) is managed by SEA (Società Esercizi Aeroportuali) and is fully committed to ensuring a safe, inclusive, and comfortable travel experience for all passengers, in compliance with EC Regulation No. 1107/2006 concerning the rights of disabled persons and persons with reduced mobility (PRM) when traveling by air. A complete range of assistance services is offered free of charge from arrival to departure.

Assistance is free of charge and must be requested through the operating airline, travel agent or tour operator at least **48 hours prior to the scheduled journey**.

Upon arrival at the airport, passengers may request assistance at designated PRM call points located near entrances 1 through 4 on the departures level, between doors 7 and 8 on the arrivals level, at the entrance of the M4 metro station, and on level +2 of the P1 parking area. Additionally, passengers can access the "Sala Amica," a dedicated special assistance lounge near check-in area 1, equipped with accessible restrooms, seating, flight monitors and vending machines.

Professional, trained staff support PRM passengers at every stage of their journey, including check-in, security procedures, boarding, disembarkation, baggage claim and customs formalities. Free assistance is also provided for retrieving luggage in reasonable quanties.

The airport is fully equipped with step-free routes, accessible facilities, and clear signage to guide passengers to key areas. Signage and audio-visual systems ensure easy navigation, while emergency procedures are adapted to meet accessibility requirements.

Further information for passengers with disabilities and reduced mobility is available on the official Milano Linate website: **Ridotta mobilità | Milano Linate Airport**. SEA also provides a detailed guide for passengers with reduced mobility: **SEA LIN Service Charter Guide for PRM passengers**.

2.6.3 CONTACT US

For any enquiries, questions or further information regarding accessibility and issues related to specific disability-related needs, please contact: **pf.and@milanocortina2026.org**.

During the Paralympic Winter Games you can also come to the AND/TRA desk located in the Alexander Hall if you need any support.

Alexander Hall is located in Via Marangoni, 1 – 32043 Cortina d'Ampezzo (BL).

AND will be available from 8 a.m. to 5 p.m. on the 27 and 28 of February and 1 March. From the 2 March to the 17 March, the desk will be open from 8 a.m. to 8 p.m.

CHAPTER 3

From the PFH, **TX Ready-to-go services** will be available from 27 February to 17 March 2026
TC – TG Bus lines: details provided in the Transport chapter.

MEDICAL SERVICES

Location: There will be a dedicated room at -1 floor to visit the patient on demand;
Dates of operation: 27/02 to 17/03
Hotline active from 25/02: +39 328 530 4527

CHAPTER 4

ACCREDITATION SERVICES

4.1 DEFINITION OF ACCREDITATION

The Paralympic Identity and Accreditation Card (PIAC), more commonly known as accreditation, entitles its holder to carry out their duties for the duration of the

Games. The PIAC serves as your “identity card” during the Games, and you must carry it with you to gain access to the official competition and non-competition venues.

A Pre-Valid Card (PVC) will be issued to eligible participants.

Where visa assistance was requested at the time of the accreditation application, it can also be used as a visa for entry into EU territories including Italy, when a visa number is printed on it and it is accompanied by your passport or other official travel document. This type of visa authorises multiple entries into Italy between 6 February and 15 April 2026, for a maximum stay of 90 days in a 180-day period.

Milano Cortina 2026 will notify your responsible organisation who will notify you if your PIAC limits entry/exit via Italy only.

4.2 ACCREDITATION VALIDATION PROCESS

All participants due to be accredited for the Milano Cortina 2026 Paralympic Winter Games must attend an official Games accreditation facility to complete the validation process prior to entering any Milano Cortina 2026 Paralympic Winter Games competition or training venue, or the non-competition venues.

PVCs can be validated up to, and including, the day of the Paralympic Winter Games Closing Ceremony (15 March 2026).

Individuals will need to present the identity document, which was used in their accreditation application, along with the PVC. The Milano Cortina 2026 Accreditation team members on duty at accreditation facilities will check the identity document against information submitted in the Accreditation System. If all data is correct, the PVC will be validated and laminated consequently becoming the PIAC.

Milano Malpensa (MXP) and Venezia Marco Polo (VCE) airports are the official Primary Ports of Entry for the Milano Cortina 2026 Paralympic Winter Games. Upon arrival in Italy from outside the Schengen Area, a passport inspection will be conducted by the Italian authorities.

Accredited Persons arriving in Italy through Terminal 1 of Milano Malpensa international airport or Venezia Marco Polo international airport will be able to validate their PVCs at the accreditation validation counters. Accreditation validation counters will be operational from 27 February 2026.

4.3 LOST, STOLEN OR DAMAGED PASSES

Lost and stolen accreditation cards should be reported immediately to the nearest accreditation centre or Venue Accreditation Office (VAO). Participants will be required to complete a Lost/ Stolen Accreditation Card Form and present an acceptable form of identification.

Accreditation cards that are damaged in such a way that the photograph and/or the personal information is not legible or the access control system is not able to read the card, should also be returned for replacement at any accreditation facility that provides accreditation card printing.

Please note that PVCs or PIACs cannot be reissued after the end of the operational period of Milano Cortina 2026 accreditation facilities.

4.4 ACCREDITATION FACILITIES AND SERVICES

The preferred PoE for the Paralmypic Family is Venezia Marco Polo Airport (VCE). The operating hours for the accreditation desk located here can be found below:

OPERATIONAL DATES	OPERATIONAL TIMES
24 - 25 February 2026	Closed
26 February - 6 March 2026	08:00 - 22:00
7 - 15 March 2026	09:00 - 18:00

Please note that there are no accreditation validation services at railway stations, or other PoEs (except for MXP).

The only accreditation facility dedicated to the Paralympic Family is the PFH Accreditation Desk located in Alexander Hall (Via Marangoi, 2, 32043 Cortina d'Ampezzo BL). The opening hours can be seen in the following table.

OPERATIONAL DATES*	OPERATIONAL TIMES
26 - 28 February 2026	08:00 - 17:00
02 - 07 March 2026	08:00 - 17:00
10 - 14 March 2026	08:00 - 17:00
15 March 2026	08:00 - 20:00

*Accreditation Desk not operational on 1, 8 and 9 March 2026

For the Paralympic Opening Ceremony, the main location will be the VAO in VOA, located at Via Pallone 7 (37121 Verona VR). Please see the table below for the opening hours:

OPERATIONAL DATES**	OPERATIONAL TIMES**
24 - 26 February 2026	Closed
26 February - 5 March 2026	08:00 - 17:00
6 March 2026	08:00 - 21:30

**more info on timings and dates at the Paralympic Information Desk.

Please note that all other accreditation facilities operating during the Paralympic Winter Games, can be used by the Paralympic Family. More information on these can be found in the Accreditation Facilities Guide.

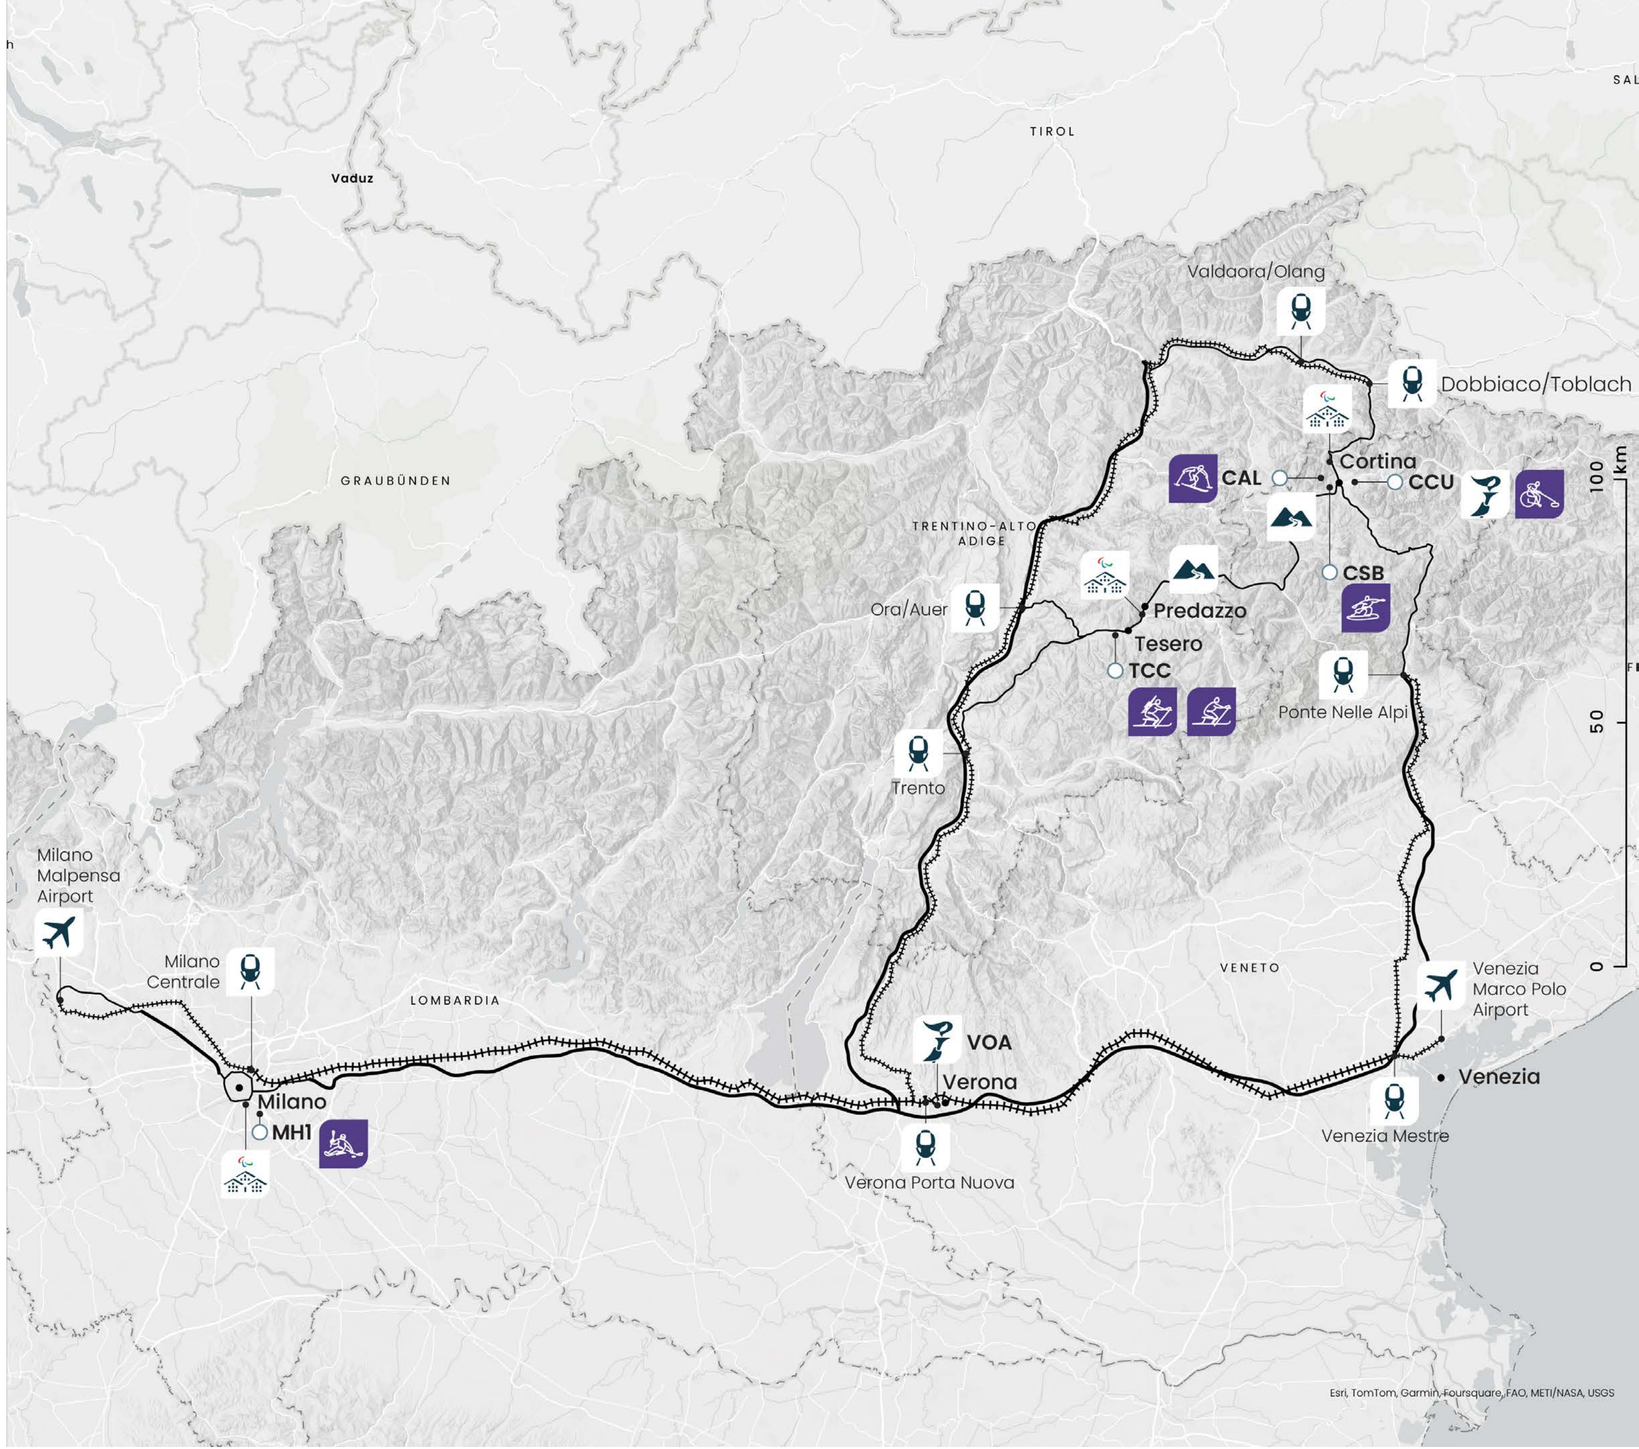
The transport concept is designed for the clusters to operate independently, based on the principle that stakeholders will primarily reside in the cluster where they are competing or working; transfers between clusters will be kept to a minimum due to distance, travel times and Milano Cortina 2026 sustainability targets.



5.1 OVERVIEW OF TRANSPORT SERVICES

Milano Cortina 2026 offers the following transport services valid throughout the three clusters.

All of these transport services will be integrated into the Transport Client app (**Transport Milano Cortina 2026 Transport, available on Apple Store and Google Play Store**), enabling stakeholders to plan their journeys and obtain tickets for bookable services.

TRANSPORT CODE	TRANSPORT TYPE	SERVICE DESCRIPTION	ACTIVATION DATES	HOW TO ACCESS THE SERVICE
TP (PUBLIC TRANSPORT)	Metro, bus, tram, train	Public transport system free of charge for all accredited stakeholders	26 February - 18 March 2026	**Milano cluster** Transport client app **Mountain clusters** Accreditation
TC (TRANSPORT CONNECT)	Bus/coach	Free regular bus service provided by Milano Cortina 2026 shared between all accredited stakeholders	26 February - 18 March 2026	**Milano cluster** Accreditation **Mountain clusters** Accreditation
TG (TRANSPORT GROUP)	Bus/coach	Free service shared between all accredited stakeholders. **Regular 'clean-to-clean' service or within a secure perimeter. This service is available only in Cortina Cluster.**	27 February - 17 March 2026	Accreditation
TX	Light vehicle fleet (car/van)	Ready-to-go (TXR) or Bookable (TXB) service, for point-to-point transfers to/from official TX destinations	27 February - 17 March 2026	Transport Client app; Transport desk; Fleet call centre +39 0299221079

5.2 TP/TC ACCESSIBILITY OVERVIEW

Bus services will include a number of accessible vehicles. These vehicles will be equipped with one to two wheelchairs spaces each, depending on stakeholders needs.

All drivers have received appropriate training to ensure safety and to provide assistance to wheelchair users when required.

MILANO TP

Milano has an extensive and efficient public transportation system, made up of a network of metro, trams, trains, and buses.

In Milano cluster, public transport (TP) network will be used extensively to provide the core service, with all competition, non-competition venues and official accommodation locations connected.

PUBLIC-TRANSPORT OPERATORS

Milano's main public transportation system is run by **ATM** (Azienda Trasporti Milanesi). It consists of buses, trams and an underground metro system.

The ATM system is complemented by 12 suburban lines ("Passante Ferroviario" in Italian) operated by **Trenord**. These lines converge and overlap in Milano, providing users with a widespread and frequent service.

ACCESS TO THE SERVICE

All public transport services within the fare zones Mi1 (covering the city of Milano) and Mi3 (the first ring of neighbouring towns, e.g. Rho and Assago) will be free of charge for all the accredited stakeholders from 26 February to 18 March 2026.

Access will be granted via a QR code in the Transport Client app.

OPERATIONAL DAYS AND HOURS

From 7 to 15 March, the metro will operate from 5.30 a.m. (first departure) to 1 a.m. (last departure). The night network will operate from 1.30 a.m. to 5.30 a.m.. Connections to MH1 will also be enhanced.

TP MILANO - ACCESSIBILITY

OPERATOR	ATM	TRENORD
ACCESSIBILITY SERVICES	**Metro**: Currently, all metro stations and trains of the M4 and M5 lines are fully accessible. By 2026, all metro lines are expected to be fully accessible. **Buses**: All urban and suburban bus lines are operated with accessible low-floor buses. The only exception is line 230, where non-accessible vehicles may still be in operation. **Trolleybuses**: Lines are mostly operated with low-floor vehicles, ensuring easier access with reduced mobility. **Trams**: Lines 4, 7, 9, 14, 15, and 31 are fully operated with low-floor trams equipped with boarding platforms. Line 27 is served by accessible trams equipped with either a mobile lift or a boarding platform (low-floor access). Lines 3 and 24 are partially operated with low-floor vehicles. Lines 12 and 16 are partially operated with trams equipped with mobile lifts (platform elevators). Comprehensive guidance for persons with reduced mobility travelling with ATM is available on the official ATM website, which includes dedicated sections for: • people with motor impairments • people with hearing impairments • people with visual impairments The website also provides real-time information on the availability of lifts and stairlifts in metro stations via the Metro - ISB - Informazioni Senza Barriere service. Further details are available on accessible toilets, entry barrier gates, wheelchair restraint systems, SOS intercoms, tactile pathways and tactile station maps, and more.	Use of mobile platform lifts when necessary. Train-specific assistance, particularly for suburban or regional trains.
USEFUL CONTACTS	ATM recommends contacting the dedicated Infoline at +39 02 48 607 607 at least one hour before departure to receive information about the planned journey and the available boarding and disembarking systems (mobile stairs, stairlifts and elevators).	Trenord online form: Assistance for travelers with disabilities - Useful numbers and contacts | Trenord Toll-free number: 800.210.955 (active every day from 8.15 a.m. to 7.45 p.m.) Email: disabili@trenord.it; senzabarriere@trenord.it

CORTINA TP

Stakeholders can access the Cortina cluster from the north via Dobbiaco/Toblach train station. Bus connections to Cortina are available.

Stakeholders can rely on two different TP lines to reach Cortina d'Ampezzo: line 30 from the south (Calalzo di Cadore Train Station), **line 445** from the north (Dobbiaco/Toblach)

The map shows the integration between public transport (TP), Transport Connect (TC) and Group Transport (TG) in Cortina cluster.

PUBLIC TRANSPORT OPERATORS

Public transport (TP) in the Cortina cluster is managed by two main companies: **Dolomiti Bus**, which operates both urban and suburban bus services, and **Südtirol Mobil**, which manages bus connections to Dobbiaco/Toblach (**line 445**) and surrounding areas north of Cortina.

Specifically, Dolomiti Bus manages the current urban service in Cortina consisting of seven lines (**please refer here for the winter schedule**). Dolomiti Bus also operates line 30 between Cortina and Calalzo di Cadore.

ACCESS TO THE SERVICE

Access will be granted through a visual check of accreditation.

OPERATIONAL DAYS AND HOURS

The Milano Cortina 2026 Transport Team has collaborated with local authorities and public transport operators to extend services. Bus frequencies on lines 30 and 445 will be increased accordingly. The bus schedule it is available on the official website: **Linee urbane | Dolomiti Bus**.

CORTINA TC

In Cortina cluster, the Transport Connect (TC) service will consist of regular shuttles connecting major points of interest including accommodation, PVC, PFH, CAL, CCU and CSB.

TC services will also be used for cross-cluster travel and to provide connections with Venezia. The TC-CO-VF line is the only TC service enabling cross-cluster travel, linking Cortina with Val di Fiemme. TC nearest stops to PFH are Piazza Roma and Campetti Roma.

TRANSPORT OPTIONS

TC services within the Cortina cluster will be provided mainly by coaches operating where road conditions allow. In areas with limited access or narrow roads, smaller vehicles such as vans will be deployed, subject to their availability from the provider.

ACCESS TO THE SERVICE

Access will be granted through a visual check of accreditation.

OPERATIONAL DAYS AND HOURS

Within the Cortina cluster, TC services will be operational **from 26 February to 18 March**.

During this period, four different operating phases are planned:

- **Until 27 February**: TC lines will operate during daytime only, following off-peak frequencies.
- **From 28 February to 3 March**: TC lines will operate with both peak and off-peak frequencies.
- **From 4 to 15 March**: some TC lines will also operate at night, in addition to daytime service.
- **From 16 to 18 March**: TC lines will return to daytime operations with off-peak frequencies only.

The network will consist of 16 lines, plus the TC line connecting Venezia Mestre train station with Venezia Marco Polo airport.

LINE	START	END	TIME PERIOD	FREQUENCY (MIN)	TRAVEL TIME (MIN)

CORTINA TG

TG is a ‘clean-to-clean’ service that will be operational from 26 February to 16 March 2026. The service will consist of three lines.

TG-CO-01 will operate 24 hours a day, with peak frequency from 1 to 14 March, from 6 a.m. to 5 p.m. The night frequency will be operational from 12 a.m. (midnight) to 5.30 a.m.

TG-CO-02 will operate with peak frequency from 1 to 14 March from 6 a.m. to 5 p.m.

TG-CO-03 will operate with peak frequency from 1 to 14 March from 6 a.m. to 11 p.m. The night service will be operational from 11 p.m. to 5.45 p.m.

*PVC is inside the secure perimeter, whereas CFC is outside the perimeter.

LINE	START	END	TIME PERIOD	FREQUENCY (MIN)	TRAVEL TIME (MIN)
TG-CO-01	Campetti Roma/Freccia nel Cielo	via CSB	Off-peak	30	12
			Peak	10	
			Night	60	
TG-CO-02	Colfiere (CAL)	Piè Tofana (CAL)	Off-peak	30	7
			Peak	10	
			Night	30	
TG-CO-03	Fiames (PVC)	Freccia nel Cielo via Campetti Roma	Off-peak	30	12
			Peak	10	
			Night	30	

Schedules are subject to change. The most accurate and updated service times will always be available via the Transport client app.

PFH TC-TG SERVICE

The nearest TC stop to PFH will be in Piazza Roma, located 400 metres from the hotel, along a pedestrian route.
Additionally, the Campetti Roma stop, located 280 metres from the hotel, serves the east–west lines TC-CO-02 and TC-CO-04. Please note that along this 280-metre route, the pavement is only partially present, meaning the path is not fully accessible.

Close to the PFH, TG lines are available at the Campetti Roma/Freccia nel Cielo stop, located 280 metrs efrom the hotel, from there the TG-01 will be available to reach Tofane Alpine Skiing Centre and Cortina Snowboard Park.

Sports
- Para Biathlon
- Para Cross-Country Skiing

VAL DI FIEMME TP

From Ora/Auer, bus lines run along the SS48 state road to Penia, passing through the main towns of Val di Fiemme and Val di Fassa, including Cavalese, Tesero, Panchià, Ziano di Fiemme, Predazzo, Moena, Soraga, Vigo di Fassa, and Campitello di Fassa.

PUBLIC-TRANSPORT OPERATORS
Trentino Trasporti is the only local public-transport operator serving the Val di Fiemme area.

ACCESS TO THE SERVICE
Access will be granted through a visual check of accreditation.

OPERATIONAL DAYS AND HOURS
The Milano Cortina 2026 Transport team has worked with the local public-transport operator to extend the service and increase the frequency of the lines. The lines will generally operate from approximately 6 a.m. until 9 p.m.

VAL DI FIEMME TC

In the Val di Fiemme cluster, the Transport Connect (TC) service is the recommended option for stakeholders. It will operate as a network of regular shuttles connecting key points of interest, including Trento train station, accommodation, PVP and TCC.

TC services within the Val di Fiemme cluster will be operated using urban buses, coaches and mini-coaches. Coaches offer 45–53 seats with no standing allowed, while urban buses have a total capacity of 60–80 passengers (34 seated plus up to 45 standing).

ACCESS TO THE SERVICE
Access will be granted through a visual check of accreditation.

OPERATIONAL DAYS AND HOURS
Within the Val di Fiemme cluster, TC services will be operational **from 26 February to 18 March 2026**.

Peak frequency will apply only on competition days, from three hours before until two hours after competition (-3h/+2h time window).

Off-peak frequency will apply throughout non-competition days and outside the

-3h/+2h time window on competition days.

Non-competition days: 26 February-6 March; 9 March; 12 March; 16-18 March.

Competition days: 7-8 March; 10-11 March; 13-15 March.

The network will consist of six lines, including one cross-cluster line to Cortina.

The map on the following page shows the TC routes within the Val di Fiemme cluster.

Schedules are subject to change. The most accurate and updated service times will always be available via the journey planner in the Transport Client App.

5.6 TX SERVICES OVERVIEW

The TX Service is designed to offer reliable and efficient transport solutions to accredited stakeholders with TX entitlement.

It works through two main options, **TX Ready-to-Go (TXR) and TX Bookable (TXB)**. These services can be accessed and booked via the Transport Client App or at the Transport Desk.

	OPERATIONAL HOURS	SERVICE DESCRIPTION	ACTIVATION PERIOD
TX READY-TO-GO (TXR)	7 a.m. to 11 p.m.	Offers immediate access to vehicles without the need for reservations. Available at designated non-competition venues (PFH - PLV) and at competition venues from H-1 to H+1. This service aims to reduce waiting times and optimize vehicle usage	27 February 17 March
TX BOOKABLE (TXB)	7 a.m. to 11 p.m.	TXB requires at least 3 hours' notice. It is strongly recommended to book by 5.00 p.m. the day prior to ensuring availability. TXB is available when TXR is not in operation at a given venue	

TX SERVICES OVERVIEW

The TX Service is available for accredited stakeholders to reach official competition/non-competition venues and accommodation included in the TX Destination List, within each cluster.

Transport TX services are provided to all stakeholders entitled to this level of service in their accreditation.

The TX Service operates exclusively within each cluster; **the TX Service is not available for cross-cluster transport**.

The TX Service is committed to accommodating the needs of all entitled stakeholders, including those requiring specific support during the Milano Cortina 2026 Winter Paralympic Games:

- **Accessible Vehicles**: if the TXR service is active on a venue, there will always be Wheelchair Accessible Vehicle (WAV) available. This ensures inclusive transport options for individuals with accessible needs.
- **Wheelchair Accessible Vehicle (WAV) Requests**: if stakeholders require a WAV for the TXB service, they must specify this requirement at the time of booking (on the App or at the Transport Desk) to ensure appropriate arrangements can be made.
- **Child Seats**: they are available on request but must be booked in advance through the TXB service. Stakeholders are advised to indicate their need for a child seat when making a reservation.

Stakeholders are encouraged to communicate their needs clearly when making reservations to facilitate a smooth transport experience.

TX SERVICES OVERVIEW

The TX Service is composed of two types of Wheelchair Accessible Vehicle (WAV). The first is the **Fiat Ulysse Long**. It can accommodate one wheelchair user and seven additional passengers with two folding seats, and t is equipped with a manual ramp.

The second is a **Fiat Ducato**, which can accommodate up to four wheelchair users. Without wheelchairs on board, it can carry up to eight passengers (seven seats are removable and can create the space for wheelchairs. This vehicle is equipped with an automatic ramp.

In case a stakeholder is requesting TX transport with a transfer from wheelchair to car seat, we will mainly use the **Fiat 600** (according to the study conducted by the ACS Milano Cortina 2026 team). If no more Fiat 600s are available, the study recommends using the Alfa Romeo Tonale and then the Alfa Romeo Stelvio.

5.7 CROSS-CLUSTER TRAVEL

Cross-Cluster transport services will be provided by train, upon reservation, between the following transit hubs: Milano Centrale, Trento and Venezia Mestre. The only exception is the cross-cluster TC service connecting the Cortina and Val di Fiemme clusters.

Cross-cluster free of charge train services will be provided from 26 February to 18 March.

Stakeholders travelling between clusters will have to use the Transport Client App to check train schedules and book seats, starting from 26 February 2026. Bookings can be cancelled in the app, until the train's scheduled departure time.

Stakeholders may book up to four tickets at a time. After one journey has been completed, stakeholders will be able to make an additional booking.

MILANO CORTINA 2026-SELECTED TRAINS FOR CROSS-CLUSTER TRAVEL

Milano Cortina 2026 has reached an agreement with train operators to reserve a specific allocation of seats on selected trains.

MILANO-CORTINA CONNECTIONS

To travel from Milano to Cortina, stakeholders will need to take a high-speed train to Venezia Mestre Train Station and then continue their journey using the TC-CO-AS line to reach the final destination.

ROUTE	TRAIN TYPE	PERIOD	DEPARTURE TIMES	ARRIVAL TIMES
Milano Centrale - Venezia Mestre	High-speed train	26 February - 5 March 16 - 18 March	6.45 a.m. 8.45 a.m. 12.45 p.m. 3.15 p.m. 6.45 p.m.	9 a.m. 11 a.m. 3 p.m. 5.30 p.m. 9 p.m.
		6 - 15 March	6.45 a.m. 12.45 p.m. 4.45 p.m.	9 a.m. 3 p.m. 7 p.m.
Venezia Mestre - Milano Centrale	High-speed train	26 February - 5 March 16 - 18 March	9 a.m. 12 p.m. 3 p.m. 6 p.m. 7 p.m.	11.15 a.m. 2.15 p.m. 5.15 p.m. 8.15 p.m. 9.15 p.m.
		6 - 15 March	11 a.m. 2 p.m. 6 p.m.	1.15 p.m. 4.15 p.m. 8.15 p.m.

Schedules are subject to change. The most accurate and updated departure times will always be available via the journey planner in the Transport Client App.

MILANO CORTINA 2026-SELECTED TRAINS FOR CROSS-CLUSTER TRAVEL

MILANO-VAL DI FIEMME CONNECTIONS (HIGH-SPEED TRAINS)

To travel from Milano to Val di Fiemme, stakeholders will need to take a high-speed train to Trento train station and then continue their journey using the TC-VF-01 line to reach the final destination.

ROUTE	TRAIN TYPE	PERIOD	DEPARTURE TIMES	ARRIVAL TIMES
Milano Centrale-Trento	High-speed train	26 February - 5 March 16 - 18 March	8.45 a.m. 12.45 p.m. 5.45 p.m. 6.45 p.m.	11.15 a.m. 3.15 p.m. 8.15 p.m. 9.15 p.m.
		6 - 15 March	8.45 p.m. 5.45 p.m.	11.15 a.m. 8.15 p.m.
Trento-Milano Centrale	High-speed train	26 February - 5 March 16 - 18 March	9.19 a.m. 1.43 p.m. 3.43 p.m. 5.43 p.m.	11.45 a.m. 4.15 p.m. 6.15 p.m. 8.15 p.m.
		6 - 15 March	9.19 a.m. 5.43 p.m.	11.45 a.m. 8.15 p.m.

Schedules are subject to change. The most accurate and updated departure times will always be available via the journey planner in the Transport Client App.

MILANO CORTINA 2026-SELECTED TRAINS FOR CROSS-CLUSTER TRAVEL

CORTINA-VAL DI FIEMME CONNECTIONS

Stakeholders travelling between Cortina and Val di Fiemme can use the direct TC service operating between Fiames and Predazzo via the TC-CO-VF line.

LINE	START	END	TIME PERIOD	FREQUENCY (MIN)	TRAVEL TIME (MIN)
TC-CO-VF	Predazzo Autostazione	Fiames (CFC)	Off-peak (5 – 7 a.m. / 11 p.m. – 1 a.m.)	120	168
			Peak (7 a.m. - 11 p.m.)	90	
			No night service		

Schedules are subject to change. The most accurate and updated departure times will always be available via the journey planner in the Transport Client App.

MILANO CORTINA 2026-SELECTED TRAINS FOR CROSS-CLUSTER TRAVEL

CORTINA-VAL DI FIEMME CONNECTIONS

Stakeholders will also have the option of travelling via train services operating between the Venezia Mestre and Trento transit hubs (with a change at Verona Porta Nuova train station). From these hubs, they can then connect to the TC network to reach their final destination.

ROUTE	TRAIN TYPE	PERIOD	DEPARTURE TIMES	ARRIVAL TIMES
Venezia Mestre-Trento	High-speed train	26 February - 5 March 16 - 18 March	9 a.m. 11 a.m. 1 p.m. 5 p.m. 8 p.m.	11:15 a.m. 1:15 p.m. 3:15 p.m. 7:15 p.m. 10:15 p.m.
		6 - 15 March	9 a.m. 5 p.m.	11:15 a.m. 7:15 p.m.
Trento-Venezia Mestre	High-speed train	26 February - 5 March 16 - 18 March	6:22 a.m. 7:43 a.m. 9:19 a.m. 3:43 p.m. 5:43 p.m.	9 a.m. 10 a.m. 12 p.m. 6 p.m. 8:30 p.m.
		6 - 15 March	9:19 a.m. 5:43 p.m.	12 p.m. 8:30 p.m.

Schedules are subject to change. The most accurate and updated departure times will always be available via the journey planner in the Transport Client App.

ACCESSIBILITY REQUIREMENTS

Specific attention will be given to ensuring accessible cross-cluster transfers during the Paralympic Winter Games, with services tailored to match actual demand.

Milano Cortina 2026 has reserved a quota of tickets for individuals using wheelchairs on the selected trains. All stakeholders with accessibility needs can request special assistance (Sala Blu service) by following the procedure described in the Transport Client App. This process will include sending an email to the address indicated in the App, including the specific information required during the booking process.

Stakeholders with accessibility needs who are able to use a regular seat may book their tickets directly via the Transport Client App.

5.8 PARALYMPIC ROUTE NETWORK AND TRAFFIC CONTROL FILTERS

The transport plan is structured around a reliable Paralympic Route Network (PRN).

The PRN is defined as the list of routes and roads determined to support the flow of all accredited stakeholders, where specific traffic management measures will be applicable, depending on the local situation.

Road restrictions may apply across multiple days or during selected periods during Games time, to minimise the impact on background traffic (residents, commuters, etc.).

In the Cortina cluster, specific traffic demand management (TDM) measures will be implemented to ensure that Paralympic transport operations can effectively coexist with local mobility needs.

PRN & TRAFFIC MANAGEMENT CORTINA

Given the strategic role of the Cortina cluster within the Paralympic framework, a comprehensive and structured Traffic Demand Management (TDM) plan has been defined with the implementation of three different zones (0-1-2):

ZONE 0

Inside secure perimeter of the venue. Access to the venue is controlled through a Vehicle Screening Area (VSA) and is limited exclusively to vehicles with a valid VAPP and accreditation of both driver and passengers. On the maps, this area is highlighted in red.

ZONE 1

Represents the immediate area surrounding competition venues. Access is regulated via a Permit Checkpoint (PCP) and permitted only for vehicles with a valid VAPP or a valid Zone 1 Host Territory Car Pass. On the maps, this area is highlighted in purple.

ZONE 2

Host City area. Access is managed through a traffic control filter (TCF) and permitted for vehicles with any VAPP, or a valid Zone 2 and 1 Host Territory Car Pass. On the maps, this area is highlighted in yellow.

12/3	Thursday					
13/3	Friday					
14/3	Saturday				7 a.m.	11 p.m.
15/3	Sunday				6 a.m.	8 p.m.

Access during active perimeter periods will be restricted to vehicles with appropriate accreditation:

- **VAPPs** (Vehicle Access and Parking Permits), for Paralympic-related vehicles.

- **"Drive Arrive letter"**, submitted on Arrivals and Departures System (ADS) up to 48 hours before arrival, on its day of validity will be equivalent to a VAPP, and will give the right to pass through the traffic filters (a printed copy has to be displayed so it is visible through the car windshield). Without a "Drive Arrive letter": mandatory stop at Host Territory Car Pass Distribution Point – designated facilities outside traffic perimeter where Host Territory Daily Car Passes are issued, and where a fast-track lane for Games stakeholders is present - to collect a Host Territory Daily Car Pass upon presentation of hotel reservation or pre-valid card (PVC)

- **Host Territory Car Passes** are permits displayed on the vehicle windshield, issued by local authorities, to identify vehicles essential to the normal functioning of the territory (e.g. residents, workers, hotel-reservation holders, second-home owners, logistics). Additionally, this permit will be issued to stakeholders staying overnight within the traffic perimeters who have a booked parking space, but no VAPP vehicle available.

The Host Territory Car Pass system will be managed through a dedicated platform, designed both to provide information on traffic restriction measures and to support users in applying for a Host Territory Car Pass.

Two types of Host Territory Car Passes will be available:

- **Daily Pass**: valid for a single day and linked to a specific zone. These passes may be requested in advance through the online platform (granting access to the fast-track lane at Pass Distribution Points) or obtained directly on site upon presentation of the required documentation (e.g. hotel reservation). Daily passes will be distributed only on days when traffic filters are active. They are tailored for occasional needs, such as temporary logistics or holders of hotel reservations.

- **Multi-day Pass**: linked to a specific zone and valid for the entire approved period. These passes can only be requested through the online platform during the dedicated application window, with physical collection required at designated locations up until January 2026. They are tailored for recurring needs of local stakeholders, such as residents, workers, second-home owners, and regular logistics operators.

Drafts of Daily and Multi-day Passes

PRN & TRAFFIC MANAGEMENT CORTINA

Key principles of the Traffic Perimeter system:

- Traffic perimeters are designed to manage background traffic; vehicles with a valid VAPP will always be allowed to pass a TCF.
- Drive Arrive letter (submitted on ADS up to 48 hours before arrival) on its day of validity will be equivalent to a VAPP and will give the right to pass through the traffic filters (a printed copy has to be displayed on the car windshield).
- When active, only vehicles with a valid VAPP or a Host Territory Car Pass are authorised to access the perimeter; no permit is needed to exit the perimeter.
- A permit (valid VAPP or Host Territory Car Pass) is not required for movements inside the same zone, once access has been granted.
- The European Disability Parking Card (CUDE) does not grant automatic access to Paralympic Restricted Traffic Zones; a specific Host Territory Car Pass must be requested.
- The above-mentioned traffic zones, except for Zone 0 linked to secure perimeter activation, will follow specific activation calendars, mainly aligned with competition days and operational needs in the Host Cities.
- At their arrival, stakeholders will receive a multi-day pass from the hotel owner of their accommodation, valid for the entire duration of their stay.

5.9 VAPPs & PARKING

Parking and load-zone access at Games venues are extremely limited, and every vehicle requiring access and/or parking must clearly display a Vehicle Access and/or Parking Permit (VAPP).

A VAPP is a physical permit placed on the underside of a vehicle's windshield that dictates different access and parking privileges in and around Games venues. It is equivalent to accreditation for cars and buses, used to restrict traffic in and around the venues, to enhance security and facilitate operations.

Vehicles that do not have a VAPP or do not have the appropriate VAPP for the venue, to progress past the Permit Checkpoint, will be turned away or held pending resolution.

Ensure your VAPPs are displayed correctly before arriving at the Permit Checkpoint (PCP), enabling the permit-control staff to verify your vehicle's access accurately and efficiently.

- **Traffic Control Filter (TCF)**: designed to reduce background traffic around a venue, this check point will filter vehicles with VAPPs from those without. Also allowed through these check points are vehicles with Drive Arrive Letters or Host Territory Car Passes.

- **Permit Check Point (PCP)**: this check point ensures that only vehicles with the correct venue access may proceed.

- **Vehicle Screening Area (VSA)**: vehicles wishing to enter the secure perimeter must go through security screening here and be in possession of a VAPP giving access to one of the 'clean' parking areas or load zones. To pass through the VSA, a driver and all the passengers need to have valid accreditation with respective access rights.

- **Parking Entrance**: the final check takes place to ensure vehicles are parking in the correct location.

A VAPP does NOT guarantee a parking space. Parking spaces are limited and will operate according to a first-come first-served principle.

Paralympic VAPPs will be in effect globally from 23 February to 18 March 2026 but will be activated at individual venues from the security lockdown dates at each venue, which may be earlier.

Any loss, theft or damage of a VAPP, or witnessed misuse, must be reported to the VAPP Office as soon as possible, within 12 hours of discovery. Duplicates will not be provided in the case of lost VAPPs, but a stolen VAPP may be replaced if a police report is provided, if sufficient stocks remain.

Damaged VAPPs may be replaced depending on the justification and stocks available.

5.11 TRANSPORT DESK

Transport desks are available at designated non-competition venues to assist stakeholders with local and last-minute needs, such as booking a TX, providing information on bus services, managing lost-and-found enquiries, and offering guidance on maps, schedules and routes.

At all the other venues, which do not include a Transport desk, transport information will mainly be available through the Transport Client App or through Venue Transport staff present at load zones to offer assistance, if possible.

Other Transport Desks will be available in the following venues:

- Malpensa Milano Airport
- Marco Polo Venezia Airport
- Milano Centrale train station
- Venezia Mestre train station
- Trento train station
- All Paralympic Villages
- International Broadcast Centre (IBC)

5.12 TRANSPORT CLIENT APP

Transport MilanoCortina2026, available on Apple Store and Google Play Store, is a key digital tool designed to support accredited stakeholders in navigating the transport services during the Games.

It will be available in both English and Italian.

The app will integrate official Milano Cortina 2026 transport services with existing public transportation networks within the PRN.

HOW TO ACCESS THE APP

Each user's access to transport services is determined by their accreditation entitlements. To log in to the app, stakeholders need their registration number, which can be found on their Pre-Validated Card (PVC) or in the final accreditation. Each registration number is unique and **unlocks the specific level of service linked to the stakeholder's accreditation** (see next page).

LAUNCH TIMELINE FOR PARALYMPIC GAMES

- 26TH February 2026: Transport Client App access for Paralympic Games – accredited users gain access to the App, see all transport options they're entitled to and book services (High-speed trains and car transport) corresponding to their level of service.

KEY FEATURES

- **Journey Planner**
  Generates optimal itineraries based on user preferences and accreditation eligibility, covering all host cities and clusters.

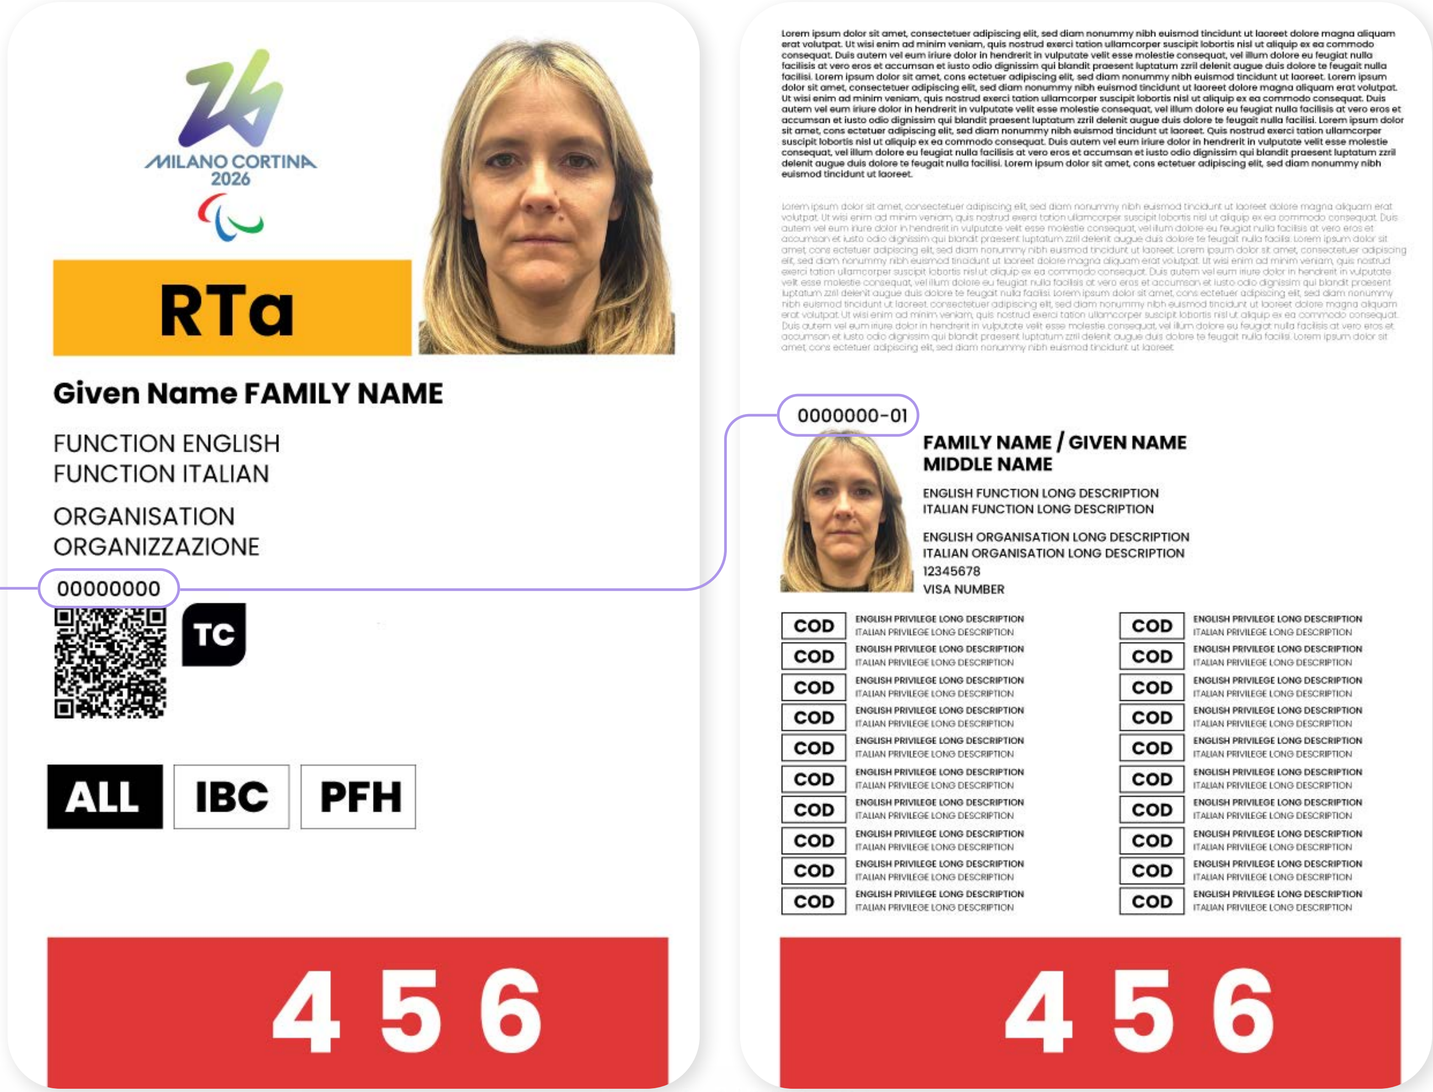
- **Multiple Modes of Transport Routing**
  Combines TP options (trains, metro, buses, trams) with TC and TG.

- **TX Booking**
  Enables eligible users to reserve TX services directly in the app, only for stakeholders in possession of validated final accreditation.

- **Train Booking**
  Gives accredited users the ability to book train journeys between clusters during Games time (except for Malpensa Express services, which will be always provided at the Games Connection Desks both at Milano Centrale and Milano Malpensa airport train stations).

STAKEHOLDER'S ACCREDITATION

ACCREDITATION NUMBER



CHAPTER 6

COORDINATION OF MEDICAL SERVICES

6.1 COORDINATION OF MEDICAL SERVICES

Milano Cortina 2026 Medical Services have developed the medical care programme for the Milano Cortina Winter Paralympic Games under the supervision of the IOC Health, Medicine and Science Commission (IOCHMSC) following the Host City Contract.

The services provided include:

- medical facilities for the athletes and Paralympic Family at every competition, non-competition, and official training venue according to each International Federation's (IF) requirements;
- medical facilities for spectators, staff, Milano Cortina 2026 volunteers and other stakeholders at competition and non-competition venues;
- medical facilities at the Main Media Centre (MMC);
- Paralympic polyclinic available within the Paralympic Villages of Milano and Predazzo, while for the Paralympic Village of Cortina, some of the services (emergency and primary care, dental, pharmacy) will be directly available within the Village while all other planned activities will be carried out at existing, nearby and easily accessible medical facilities, which will be exclusively available for the entire period the Villages are open;
- medically assisted transport from Paralympic venues to hospitals when necessary; and
- designated hospital network for athletes, team officials and Paralympic Family (see below), which will be available on the TX destination lists for the possible continuation of assessments and treatments initiated at the venues or at the primary referral facilities (medical stations or Paralympic polyclinic (Milano e Predazzo) and assimilated medical facilities (Cortina).
    - **Milano**: PVM, IBC, IH1 (Ice Sledge Hockey) : ASST Grande Ospedale Metropolitano Niguarda Piazza Ospedale Maggiore, 3 – Milano
    - **Verona Opening Ceremony**: Ospedale Civile Maggiore di Verona Piazzale Aristide Stefani, 1 – 37126 Verona
    - **Cortina**: PVC, CCU (Wheelchair Curling and Closing Ceremony), CSC (Para Alpine Skiing), CSB (Para Snowboard) : ULSS1 Presidio Ospedaliero San Martino Viale Europa, 22 – 32100 Belluno (BL)
    - **Val di Fiemme**: PVP, TCC (Para Cross Country e Para Biathlon): APSS Trento - Ospedale di Cavalese, Via Dossi, 1 -Via Dossi, 1 - Cavalese (TN)

Healthcare professionals traveling with their National Paralympic Committees (NPC) will be allowed to provide medical care to members of their own delegation. They will be granted access to Milano Cortina 2026 medical facilities at the venues and have consultative privileges in the Paralympic Village polyclinics or at designated hospitals.

6.2 SERVICES FOR THE PARALYMPIC FAMILY

If a member of the Paralympic family is in need of medical assistance, there will be the possibility of having bedside visits directly in a dedicated room situated on the –1 level at the PFH. The medical staff will be based at the Distretto and SISP Cortina d'Ampezzo (Via Cesare Battisti, 80, 32043 Cortina d'Ampezzo BL), approximately 140 metres from the Hotel. The member of the Paralympic family will be visited in the medical room by doctor capable of providing first aid, limited primary care and an initial emergency pre-hospital response for acute illness or injury.

A hotline will be available 24/7 for reaching both the doctor (for bedside visits) and the Cortina Control Operational Centre (for dispatching an ambulance).

Hotline active from 25/02: +39 328 530 4527

PERIOD	PROCESS	REQUIRED VEHICLE PASS	
PFH	Cortina – Hotel Franceschi	27 February 2026	17 March 2026

6.3 AT THE PARALYMPIC VILLAGES

The polyclinic, present in the Paralympic Villages, has an emergency room operational 24/7. Doctors and nurses are always there to help with life-threatening condition, first aid and small injuries. Other specialist services will be made available at the Paralympic polyclinics for those entitled.

Services availability may vary per Village.

6.4 AT COMPETITION VENUES AND NON-COMPETITION VENUES

Milano Cortina 2026 Medical Services have developed a healthcare plan aimed at ensuring necessary assistance during competitions, official trials and training sessions at all indoor and outdoor competition venues, and in non-competition venues for athletes, Paralympic Family, workforce and accredited individuals, as well as spectators when their presence is expected.

At competition venues and at the Paralympic Winter Games Opening Ceremony in Verona, there will be medical teams on site available to provide medical help. If further treatment is needed, the patient will be transported to the nearest available hospital.

In Val di Fiemme, a medical facility outside the village will be available: Azienda Provinciale Per I Servizi Sanitari - Distretto di Fiemme (Corso de Gasperi, 12, 38037 Predazzo TN)

In Cortina, a medical facility outisde the village will be available: Distretto e SISP Cortina d'Ampezzo (Via Cesare Battisti, 80, 32043 Cortina d'Ampezzo BL).

CHAPTER 7

PARALYMPIC FAMILY AT COMPETITION AND NON-COMPETITION VENUES

7.1 COMPETITION SCHEDULE

Please find the competition calendar below.
For more details about events, locations and timetables, please choose from the following three options:

THE OFFICIAL GAMES WEBSITE
IT: https://milanocortina2026.olympics.com/it/competition-schedule

EN:https://www.olympics.com/en/milano-cortina-2026/paralympic-games/schedule/overview

THE OFFICIAL MILANO CORTINA 2026 APP
An official app will include ticketing features, the full competition schedule and real-time updates.

INFORMATION AT THE OFFICIAL HOTEL INFORMATION DESK
You can access all information regarding the competition calendar, including changes to the competition schedule, at the Paralympic Family information desk located at the Alexander Hall. To consult the opening hours of these counters, please refer to section 3.3 Offices and Services.

7.2 PARALYMPIC FAMILY LOUNGES & STANDS

The Paralympic Family lounges are dedicated spaces available at each competition venue, offering hospitality and catering services. Paralympic Family holding an accreditation with a ‘zone 6’, or, where applicable, an upgrade card (upgrade card ‘zone 6’), will have access to these lounges.

Paralympic Family lounges are open during the competition sessions, specific to each venue, at the following times:

- **opening**: one hour before start of competition; and
- **closing**: one hour after end of competition (or the last victory ceremony), or, if the competition (or the last victory ceremony) ends after 9.00 p.m., 30 minutes after.

The following services levels will be available in the lounges:

- TV screens broadcasting the Paralympic events, as well as free Wi-Fi. Tables and chairs will be arranged in the lounge as well.
- Catering services will be provided at lunchtime and dinnertime, according to the competition schedule of each venue and will include warm dishes and a cold buffet. Vegetarian and gluten-free options will be also available. Throughout the opening times of the lounge, snacks and refreshments will be available, including a range of alcoholic and non-alcoholic beverages.

Dedicated Paralympic Family Stands, accessible on a ‘first-come, first-served basis’, are available at the competition venues.

The Paralympic Family Stand is divided into two sections, based on the entitlements indicated on the accreditation. Each section can be identified by coloured covers directly affixed to the seats:

- **Official Stand**: code “O” + magenta covers,
- **Federation Stand**: code “F” + Carta da Zucchero (dusty blue) covers.

Depending on the entitlements indicated on the accreditation, the Milano Cortina 2026 Protocol team members will be there to provide guidance to the designated seating area. Upon arrival at the competition venues, Paralympic Family may follow the way finding signage directing to the Paralympic Family areas.

Like the lounges, the stands also open one hour before the start of events, and close one hour after the end. This time limit is reduced to 30 minutes if the events finish after 9 p.m.

Kindly note that in Cortina Para Snowboard Park, the Paralympic Family Stand consists of a standing area.

O	Official Stand
F	Federation Stand

7.3 PRIME EVENT SESSIONS

Prime Event sessions are sessions determined by the IPC to have Prime Event status due to seating limitations.

The IPC and Milano Cortina 2026 reserve the right to implement a Prime Event session where certain accreditation functions or upgrade cards will not facilitate access to the venue, the Paralympic Family Lounge or Official Stand. To attend the event, the participant and other accredited persons will be required to purchase a ticket for the Prime Event session(s).

The following categories do not have access to Prime Events:

- IPC Recognised IF Representative (B Category);
- Entourage of Guest (B Category);
- Head of Diplomatic Mission (B Category);
- IPC Guest (B Category) (grey background);
- IPC Transferable Guest (B Category);
- WADA Athlete Engagement (B Category);
- WADA Staff (B Category);
- Transferable IF Guest Card (IF Category), except for own sport managed by IF Guest Pass;
- Head of Diplomatic Mission (NPC Category)
- Entourage of Sovereign or Head of State (NPC Category)
- Entourage of Head of Government (NPC Category)
- Transferable Guests (NPC Category)
- OCOG Guest (OCOG Category) (red background).
- IF upgrade cards (U Category); and
- NPC Upgrade Cards (U Category)

These PIACs are identified by the venue code ALL in black letters on a grey box.

7.5 PARALYMPIC VILLAGES

The Paralympic Villages of Milan Cortina 2026 reflect the Games' unique multi-cluster format and the commitment to sustainability, operational efficiency and long-term legacy. Spread across multiple locations in northern Italy, these Villages are designed to accommodate athletes and team officials as close as possible to their competition venues, in alignment with the new IPC principles of flexibility and integration with local development goals.

All Villages priorities functionality, accessibility, athlete comfort and post-Games reuse. Each site is designed to respond to the specific needs of its sports disciplines while minimizing environmental impact and supporting local communities.

The model includes traditional residential clusters in Milano, Cortina and Predazzo - based on new builds, renovations or modular structures.

MILANO PARALYMPIC VILLAGE

Address: Via Lorenzini 3/5, 20139 Milano MI
Pre-opening: 27 February 2026
Opening period: 28 February 2026 to 17 March 2026
Opening hours: 24/7

Located in the Porta Romana district in southern Milan (Lombardy region), the Paralympic Village covers 38,000 square meters at an altitude of 120m. The site consists of six newly built seven-floor residential buildings and two renovated non-residential facilities, organised around shared outdoor areas. Residential units occupy the first floor and above, while common services are located on the ground floor.

The Main Entry on the southeast side (Via Lorenzini) serves as the access point for all accredited individuals. Upon first arrival, residents may deposit their luggage in a dedicated tent and complete accreditation procedures at the on-site Accreditation Centre. Baggage screening and security checks are mandatory. Guest Passes can be collected at the Guest Pass Centre inside the accreditation tent and must be returned when exiting (max. at 9:00 pm).

The Village Plaza, accessible without "R" zone accreditation, is open to PIAC holders with Village access codes, Village Guest Passes or Village Media Passes. The Residential Zone remains restricted to authorised holders. Services within the Village Plaza are accessible to residents and guests throughout the opening period and are not free unless otherwise specified. Confirmed services include a Kiko Make-Up Station, Samsung Paralympic Edition Counter, a merchandising store, Caffè Vergnano 1882, TCL Media Station, Omega self-standing Watch, Ali-baba pin trading, Grana Padano sampling station, VISA ATM.

CORTINA PARALYMPIC VILLAGE
Address: Paralympic Village Cortina - Main Entry
Pre-opening: 27 February 2026
Opening period: 28 February 2026 to 17 March 2026
Opening hours: 24/7

The Cortina Paralympic Village is located in the Fiames area, 5 kilometres north of Cortina d'Ampezzo in the Veneto region. Entirely temporary, the Village features single-floor prefabricated residential modules connected by accessible pathways and surrounded by the Dolomite

Mountain landscape. It spans 126,000 square metres and sits at an altitude of 1,293m.

Communal services are concentrated in larger temporary structures positioned near the Main Entry and centrally within the 1km-long site. Team Processing Centre (TPC) access is located on the east side, and the designated Accreditation Centre is used for validation upon first arrival. Once accreditation and baggage screening are completed, residents may enter the Village. The Guest Pass Centre, situated after security screening, issues and collects Village Guest Passes upon presentation of a valid ID. Passes must be returned before exiting. The Main Entry is accessible to accredited residents, guests, media, and first-time arrivals. Depending on their access rights, individuals may enter the Village Plaza or Residential Zone.

The Village Plaza is open to holders of an OIAC/PIAC with a valid Village access code, as well as Village Guest Pass and Media Pass holders. As a separate zone, it does not require “R” zone access. Control points ensure only authorised individuals access the Residential Zone.

Partners activations and services available in the Village Plaza include Kiko make up store, Samsung, merchandising store, Grana Padano, VISA ATM, Bar Caffè Vergnano, P&G flex space and Omega. These services are available for guests and residents and are not free of charge unless otherwise noted.

Other partner services available in other areas include Samsung and Coca Cola, located in the Recreational Area, Technogym in the Fitness Centre, and Poste Italiane, AbinBev and Ottobock, also located in the Residential zone.

PREDAZZO PARALYMPIC VILLAGE
Address: Via Fiamme Gialle 8, 38037, Predazzo TN
Pre-opening: 27 February 2026
Opening period: 28 February 2026 to 17 March 2026
Opening hours: 24/7

The Predazzo Paralympic Village is located in the town centre of Predazzo, in the province of Trento, Trentino-Alto Adige region. Part of the Val di Fiemme cluster, the Village is hosted within the existing Guardia di Finanza Alpine School complex. The site spans 34,000 square metres and sits at an altitude of 1,018m. Services will be distributed across the various pavilions of the facility.

Predazzo does not include a Team Processing Centre. Instead, the Accreditation Centre, located 250 metres from the Village, in Via G. Marconi 15, 38037, Predazzo TN is the designated arrival point for all residents. Accreditation validation and assistance will be handled on-site. After validation, residents can walk to the Main Entry, while baggage will be transferred separately by the Milano Cortina 2026 Logistics team. TC and TX transport services will also be available near the Accreditation Centre.

The Guest Pass Centre is co-located with the Accreditation Centre. Guests must present a valid ID to receive their Guest Pass, which must be returned before exiting the Village. Reduced working hours and on-call service will be in place during the pre-opening period. There is no Village Plaza in the Paralympic Village Predazzo.

7.6 MEDIA FACILITIES: INTERNATIONAL BROADCAST CENTRE (IBC)

The International Broadcast Centre (IBC) is located at Fiera Milano Congressi, one of Europe's largest congress and convention centres, comprising six pavilions and spanning three different levels. During the Olympic Winter Games, the IBC will be part of the Main Media Centre (MMC), which will include both the IBC as well as the Olympic Games Main Press Centre (MPC). During the Paralympic Winter Games, only the IBC and Main Accreditation Centre (MAC) will be operational, at this location.

Instead of a Main Press Centre, Enhanced Venue Media Centres (EVMCs) will be serving accredited media as central media hubs at the Paralympic Winter Games. See next chapter for more information.

The IBC is the temporary home for Olympic Broadcasting Services (OBS) and Media Rights-Holders during the Games. It is called the heart of the Games since it is where all the feeds from the competition venues are received, edited, and distributed to the world.

Key areas inside the IBC :

- TV studios for media right holders
- offices and meetings rooms
- technical areas
- compounds and satellite farm
- complex infrastructure of HVAC and power supply
- Services area

The IBC comprises Pavilions 3 and 4 and it is composed of three floors of operational space.

The MAC (Main Accreditation Centre) is where IBC guest passes can be collected and it is located at Pavilion 5 - Level 1, in front of the Main Entrance. The UAC (Uniform and Accreditation Centre) is also located at the perimeter, at Pavilion 2.

IBC & MAC Address: Piazzale Carlo Magno 1, 20149 Milano

7.6.1 OPERATIONAL PERIOD

The services and facilities at the IBC will be activated gradually in the lead-up to the Games. From 6 January until the end of the Paralympic Winter Games, the IBC will operate on a 24-hour basis. Except for the transition period between the Winter Olympics and the Winter Paralympics, 23–28 February 2026, when the IBC will be open from 8 a.m. to 8 p.m. For more information on the IBC operational dates and times, see table below:

The MAC (Main Accreditation Centre) will be operational from 6 January until the end of the Paralympic Winter Games (15 March 2026).

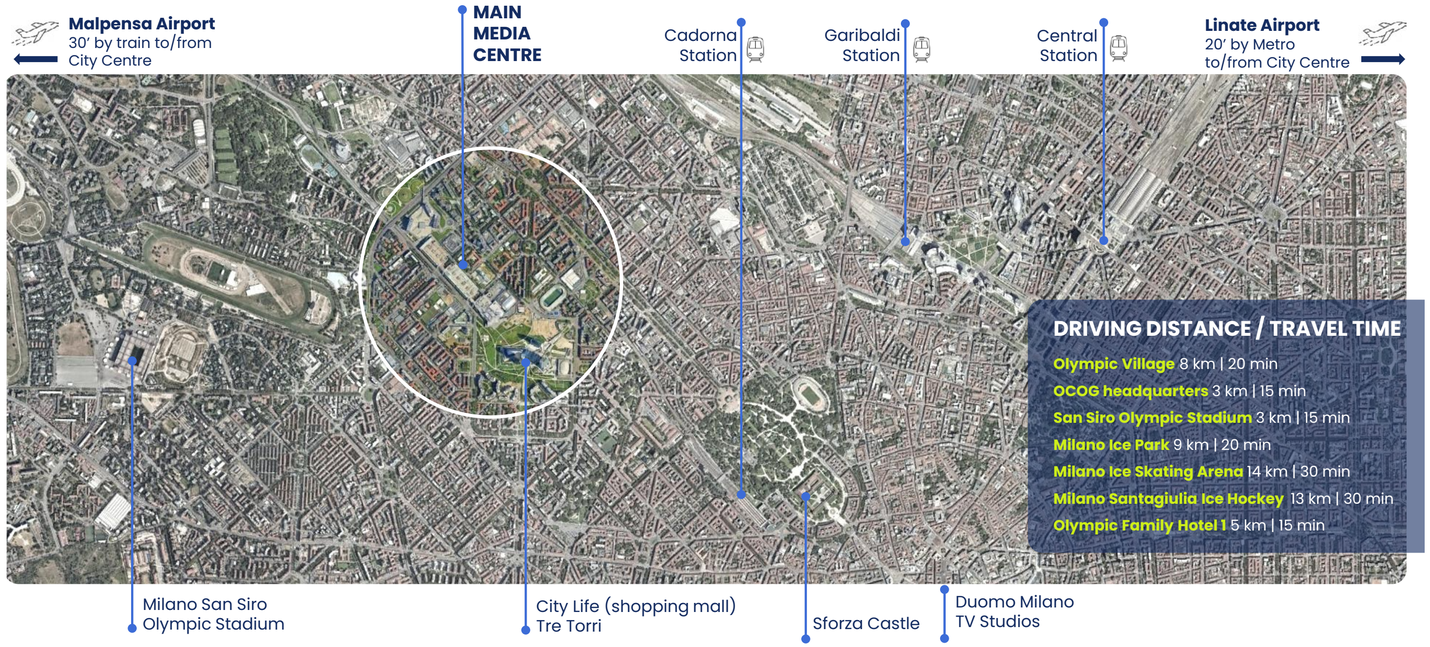
	TRANSITION	PARALYMPIC OPERATIONS
IBC INTERNATIONAL BROADCAST CENTRE	23 Feb 2026 28 Feb 2026	2 Mar 2026 15 Mar 2026
	24/7	24/7

Security sweep: 1 march

7.6.2 ACCESS TO THE VENUE

The venue is situated in a central area of Milano, easily accessible by public transport and close to some of the city's main attractions, including the Duomo, Parco Sempione and San Siro Stadium. Additionally, the venue is conveniently located near Cadorna, Garibaldi and Centrale Station, just a few metro stops away from the metro stations located in front of the venue.

Linate Airport (LIN) is reachable by metro, while Malpensa (MPX) is reachable via Cadorna and Garibaldi stations.



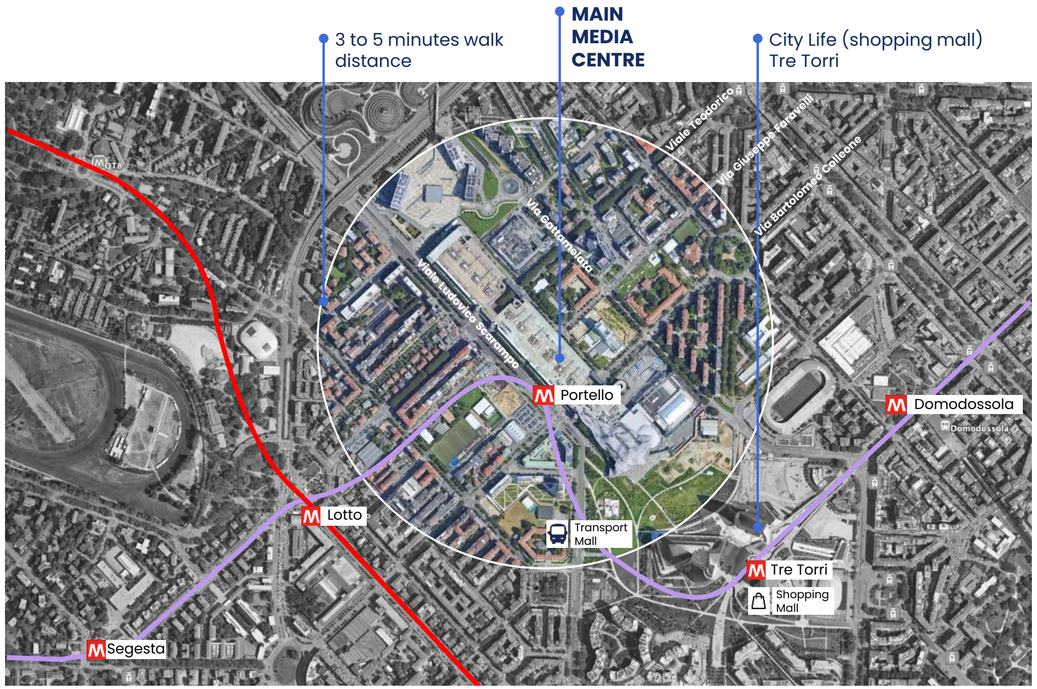
7.6.3 PUBLIC TRANSPORT

Two metro lines (5 and 1) serve the venue, with a walk of less than five minutes from the main entrances.

ACCESS VIA METRO LINE 5

The metro station Portello is located directly in front of the venue. This line also connects MMC to San Siro Stadium. The nearest entrance is through gate 5, as shown on the map below.

Gate 5 provides access to Level 1 Pavilion 3.



7.6.4 ACCESS POINTS

7.6.5 ACCESS DEVICES

During the transition period from 23 February to 28 February, SAP, visitor pass, or accreditation (OIAC, PIAC) is accepted to enter the site.

After 1 March 2026, and until the end of the Winter Paralympics, only PIAC and IBC guest passes are accepted to enter the IBC.

For the 'bump out' from 16 March to 31 March 2026, SAP, visitor pass, and Paralympic accreditation are accepted to enter the venue.

*Note, that PVC cards are accepted on the first day of entrance only.

PERIOD	PEDESTRIAN ACCESS	VEHICLE ACCESS
Transition: 23/02 to 28/02	SAP – OIAC – PIAC	VAPP Olympic and PARA – NGT vehicles access pass
Security Sweep: Venue closed | 01/03	No access	No access
Paralympic Operations: 02/03 to 15/03	PIAC – IBC guest pass	VAPP Paralympic
Bump-out: 16/03 to 31/03	SAP	NGT vehicle access pass

7.6.6 IBC GUEST PASSES

The IBC Guest Pass will be approved, delivered and managed by OBS, for accredited media and visitors. The office will be in the same location as it will be in the Olympic Winter Games, adjacent to the Media Accreditation Centre, near PSA 5 (MMC Main Entrance). No more than three IBC Guest passes will be issued to the same individual for the duration of the Paralympic Winter Games. The requesting entity will be responsible for submitting the personal data of all guest-pass recipients in the Guest Pass System by 5 p.m. the day before.

IBC Guest Passes' contact and operational details:

IBCguestpass@obs.tv

23-28 February 2026
9 a.m.-6 p.m.

01-14 March 2026
8 a.m.–8. p.m.

15 March 2026
9 a.m.-6 p.m.

Signatories will receive a web-based account to submit their requests electronically.

All IBC Guest Passes will be scanned at the PSA
All guests must be escorted at all times while in the IBC by an individual with the IBC code on their accreditation.

7.7 MEDIA FACILITIES: ENHANCED VENUE MEDIA CENTRES

Due to the specific configuration of the Milano Cortina 2026 clusters, there will be no Mountain Media Centre, but instead services and facilities provided in key Venue Media Centres (VMCs) have been enhanced, such as longer opening hours, and photo services.

For the Paralympic Winter Games, there will be three Enhanced Venue Media Centres (EVMCs) at the following venues:

- Milano Santagiulia Ice Hockey Arena (Para ice hockey);
- Cortina Curling Olympic Stadium (Wheelchair curling); and
- Tesero Cross-Country Skiing Stadium (Para cross-country skiing and Para biathlon).

IPC Press Briefings will take place at the EVMC in Cortina.

For operational dates and times, see overview below:

PERIOD	PROCESS
FIRST DAY OF OPERATIONS	Opening day of Paralympic Villages (28 Feb 2026)
EXTENDED OPERATIONAL HOURS	Milano (MH1) / Val di Fiemme (TCC) 28 Feb – 5 Mar: 9 a.m. - 6 p.m. Cortina (CCU) 28 Feb – 3 Mar 9 a.m. - 6 p.m. 4 – 5 Mar: 9 a.m. - 9 p.m.
GAMES TIME OPERATIONAL HOURS	6–15 Mar Milano (MH1) / Val di Fiemme (TCC) Non-competition days: 9 a.m. - 6 p.m. Training days: -1 hour prior to the start / +1 hour after the end of training. Competition days: -2 hours prior to the start / +2 hours after the end of competition. 6–15 Mar Cortina (CCU) From 7 a.m. to 12 a.m or from –1 hour prior to the start until +1 hour after end of training; or from –2 hours prior to the start until +2 hours after the end of the competition, if this exceeds the above operational hours
LAST DAY OF OPERATIONS	Day of the Closing Ceremony (15 Mar)

7.8 PARALYMPIC FAMILY ASSISTANTS (PFAS)

The Paralympic Family Assistants (PFA) assists Paralympic family with daily activities such as transportation, venue navigation, sport schedules, specific needs support and general local knowledge. The PFA may also support with language assistance.

The eligible Paralympic family members for this service are:

- IPC President, IPC Honorary President, IPC Vice Presidents, IPC Governing Board Member, IPC Lifetime Member
- IOC President and IOC Honorary President
- IFs Presidents and Secretaries Generals of the Games Programme
- NPCs Presidents and Secretaries Generals

Upon availability, an exception can be made for:

- IOC members & Director General
- WADA Executive
- Host OCOG President & Director General
- Future OCOG Presidents

The PFA support will be available from the 7 March 2026, one day after the Opening Ceremony (CER3+1), till the 16 March 2026, the day after the Closing Ceremony (CER4+1).

For Milano Cortina 2026, the PFA assignment process has been revised to improve efficiency and reduce time demands on volunteers:

48 hours before the required support: members will submit the request for a PFA specifying the cluster, the time and meeting point (venue or PFH). The link for the request form will be sent 10 days prior to the Opening Ceremony (CER3) so on the 24 February.

24 hours before the start of the shift: confirmation and PFA details about the volunteer will be sent to the member by email.

Other rules concerning the PFA:

- There will be no individually assigned PFA.
- A pool service of PFAs will be available only in Cortina. The service is provided on a ‘first come-first served’ basis, subject to availability.
- The PFAs will operate within their assigned cluster only– no cross-cluster movement is allowed.
- PFAs cannot drive vehicles.

Volunteers’ policy:

- Shifts are nine hours including a one-hour meal break.
- Shift times range from 6.30 a.m. till 11.59 p.m. The hours are based on public transportation availability.
- Volunteers may work a maximum of five consecutive days, followed by two days off
- A minimum of eleven hours break between two shifts is required.

For all PFA-related questions and form submissions, please contact the OFA PFA Coordination Team at the email: gfa@milanocortina2026.org.

7.9 PROHIBITED, RESTRICTED AND AUTHORISED ITEMS

Security at the official venues:

Competition venues, Villages and some non-competition venues will undergo a security inspection conducted by State Authorities. This inspection, referred to as the security sweep, will ensure no dangerous or prohibited items are present on venue.

During the lockdown period, in terms of security, different rules and policies apply to enter official venues, such as accreditation check, security check and restrictions on allowed items.

In fact, when entering the sites, you will undergo an accreditation check, as well as a personal inspection if you are carrying luggage or a bag. Adapted procedures are available for people whose age, mobility or medical condition may require it. Please refer to the following policies and procedures for more detail:

Prohibited and Restricted items list

CHAPTER 8

OPENING AND CLOSING CEREMONIES OF THE PARALYMPIC WINTER GAMES

8.1 OPENING CEREMONY

The Opening Ceremony for the Paralympic Winter Games takes place on 6 March 2026 at the Arena di Verona, an iconic symbol of Italian heritage and a spectacular venue for the Milano Cortina 2026 Games. Set in the heart of Verona, this historic amphitheatre welcomes all the athletes to celebrate the spirit of the Games. This will be the first time a Paralympic Ceremony has taken place at a UNESCO World Heritage Site. In preparation for this historic event, €20 million has been invested to enhance accessibility throughout Verona, ensuring an inclusive experience for all. This commitment goes beyond the Ceremony itself: it represents a concrete step toward a future where culture and sport are increasingly accessible to everyone, benefiting visitors and citizens alike.

8.1.1. CONCEPT, ACCESS, TRANSPORTS

CONCEPT

On 6 March 2026, the magnificent Arena di Verona will host the Paralympic Opening Ceremony, a celebration where art, culture and sport come together to honour Italy's heritage and celebrate the Paralympic Movement.

More than a performance, the Ceremony will be a powerful expression of inclusion, resilience and passion, showcasing how sport can inspire social and cultural change. Through a narrative built on respect, equality, and progress, it will celebrate the human spirit and the ability to overcome every barrier.

As one of the most iconic beauty shots of Milano Cortina 2026, the Arena di Verona will transform into a symbol of unity and emotion, a place where the magic of Italian beauty meets the universal values of the Paralympic Winter Games, creating a unique and unforgettable experience for all.

ACCESS

The Paralympic family will have a dedicated stand. You will be informed of your location closer to the Games.

HOW TO ENTER THE ARENA?

To access the Verona Olympic Arena, guests will receive a Ceremony Kit that includes:

- a Supplementary Access Control Device (SACD) presented as an invitation (Segnaposto) to enter the venue;
- the transport plan detailing your itinerary; and
- a meal voucher for Paralympic Family guests with access to the Meal Box service.

The invitation will be on top of the ordinary accreditation and will grant access to specific areas of the venue. It will also contain information about the Ceremony (ceremony timings, seating area and lounges).

The FAs in charge of each stakeholder will distribute the invitations 48 hours prior to the Ceremony.

For guests unable to receive the invitations, a distribution will be organised at the PSA C just outside the entrance of Verona Olympic Arena.

TRANSPORT

Paralympic family guests will have several travelling options for the Paralympic Opening Ceremony:

From Cortina Cluster:

- A direct dedicated transfer by bus (including accessible vehicles) will transport the Paralympic family from Cortina directly to the Ceremony venue. Exact meeting point and timings will be communicated at a later stage.
- Guests who aren't eligible for the direct dedicated transfer will be able to reach Verona by taking the TC line from the Cortina cluster to Venezia Mestre train station, from where high-speed trains have been booked to Verona Porta Nuova Station. Once in Verona, a TC-shuttle will transport guests directly to the venue entrance. The shuttle will be departing from the end of the Platform 1 at the back of the station. The shuttle will run non-stop from the station to the venue and back. There will be a departure every five minutes at least – exact schedule to be provided soon.
- The following seats will be bookable via the Transport App for the 6 March:

VENEZIA MESTRE - VERONA PORTA NUOVA	
09:00	50
11:00	100
12:00	50
13:00	100
15:00	100
16:00	150
17:00	150
17:30	150

From Milano Cluster:

- Guests will be invited to take the TC/TP to Milano Centrale train station, from where high-speed trains have been booked to Verona Porta Nuova Station. Once in Verona, a TC-shuttle will transport guests directly to the venue entrance. The shuttle will be departing from the end of Platform 1 at the back of the station. The shuttle will run non-stop from the station to the venue and back. There will be a departure every five minutes at least – exact schedule to be provided soon.
- A charter train has been booked from Milano Centrale to Verona Porta Nuova station. It will depart at 4.35 p.m. and arrive at 5.52 p.m. – 450 stakeholders will be able to travel on that train – tickets will be distributed to the stakeholders directly and will not have to be booked via the Transport App.
- Additionally, the following seats will be bookable via the Transport App for the 6 March:

VENEZIA MESTRE - VERONA PORTA NUOVA	
08:45	50
09:45	50
11:45	25
12:45	25
13:45	25
14:45	25
15:45	100
16:45	50
17:15	100

From Val di Fiemme Cluster:

- Guests will be invited to take the TC to Trento train station, from where high-speed trains have been booked to Verona Porta Nuova station. Once in Verona, a TC shuttle will transport guests directly to the venue entrance. The shuttle will be departing from the end of Platform 1 at the back of the station. The shuttle will run non-stop from the station to the venue and back. There will be a departure every five minutes at least – exact schedule to be provided soon.
- The following seats will be bookable via the Transport App for the 6 March:

TRENTO - VERONA PORTA NUOVA	
09:19	100
13:43	50
15:43	150
17:43	150

Additionally, a 'self-drive' option is available. A Park&Ride will be accessible for any accredited guests willing to reach Verona with a vehicle driven by themselves. The car park has 1,200 parking spaces – the access policy is currently being finalised. Parking will be fenced and secured.

A TC shuttle will transport guests from the car park to the venue entrance directly – there will be one shuttle departure every five minutes at least – exact schedule to be provided soon.

The following routes will be operating on 6 March: one TC line will operate non-stop from the train station to the venue back of house and one TC line will operate non-stop from the Park &Ride to the venue back of house.

Return to the hotels will be done similarly to the trip to Verona; guests that came by bus will be able to board the buses and head back to Cortina directly, other guests will be able to take the TC shuttle from the venue back to Verona Porta Nuova station and head back to their respective cluster by train.

The following charter trains will operate the returns – these trains will be boarded on a first-come first-served basis – no pre-booking needed.

NB: No luggage storage will be available in Verona.

WEATHER AND CONTINGENCY PLANS

Verona Olympic Arena stands are open-air.
A weather forecast will be shared closer to the date for appropriate dress code.

FOOD AND BEVERAGE SERVICE

The Paralympic family will receive a voucher for a meal box from the designated concession or be granted access to one of the two lounges inside Palazzo della Gran Guardia, where food and beverages will be provided.

VENUE ACCESS AND STORAGE INFORMATION

The city of Verona will implement a security perimeter with accreditation and ticket checks around Verona Olympic Arena.

To facilitate security checks, we recommend small personal belongings. There will be no direct AND transportation after the ceremony to the airports. Moreover, no luggage deposit will be available onsite.

8.2 CLOSING CEREMONY

The Closing Ceremony for the Paralympic Winter Games takes place on 15 March 2026 at the Cortina Curling Olympic Stadium, to welcome the athletes one last time to celebrate the spirit of the Games.

8.2.1. CONCEPT, ACCESS, TRANSPORT

CONCEPT

On **15 March 2026**, the spotlight will shine on Cortina. Surrounded by the majestic Dolomites, it stands as both a symbol of winter sports excellence and a timeless icon of culture and nature.

The **Paralympic Closing Ceremony** will be a collective celebration, a moment of reflection, unity, and joy shared by athletes, spectators and local communities. More than a conclusion, it will mark a new beginning, carrying forward the legacy of Milano Cortina 2026 and celebrating an Italy capable of uniting sport, nature and culture in one unforgettable emotion.

ACCESS

The Paralympic family will have a dedicated stand. You will be informed of your location closer to the Games. This year, due to the compact venue size, the majority of the Paralympic family who have been eligible to attend past closing ceremonies will not have access to the Closing Ceremony.

HOW TO ENTER THE STADIUM?

To access the Cortina Curling Olympic Stadium, the guests will receive a Ceremony Kit that includes:

- a Supplementary Access Control Device (SACD) presented as an invitation (Segnaposto) to enter the venue;
- the transport plan detailing your itinerary; and
- a meal voucher.

The invitation will be on top of the ordinary accreditation and will grant access to specific areas of the venue. It will also contain information about the ceremony (ceremony timings, seating area and lounges). The invitation will be distributed 36 hours prior to the ceremony.

TRANSPORT
Paralympic Family Hotel guests will have several options to reach the Paralympic Closing Ceremony:

By foot:
- Given the close proximity of the Paralympic Family Hotel to the ceremony venue (CCU), the easiest/recommended way would be to reach the venue by foot. Corso Italia and Via del Castello will be pedestrianised and accessible during the Games (snow plowing…). A clear and accessible pedestrian path from PFH to CCU – most probably through the Nations' Village – is currently being finalised.

By bus:
- Guests will be given the possibility to take the TC to get closer to the venue. The TC will end at Campetti Roma (behind Franceschi Park Hotel) from where guests will have two options:
  - either to walk via the Nations Village to Via del Castello to reach the venue via the pedestrian and accessible path;
  - or to walk through the PSA and to take the TG to the Freccia nel Cielo – from there, guest will have less than 150m to the venue entrance.

Return to the hotels will be done similarly to the trip to the venue, either by foot or by TC/TG.

Accessible shuttles will be available to accommodate any accessible needs and facilitate the trip to the ceremony venue.

There will be no direct AND transportation to the airports after the ceremony.

WEATHER CONSIDERATIONS
The Cortina Curling Olympic Stadium is an indoor heated venue.

FOOD AND BEVERAGE SERVICE
Depending on the level of service, guests will either be granted access to the lounge inside the stadium, where food and beverages will be provided, or they will receive a voucher for a meal box from the designated concession located in the Paralympic Family area, where beverages will also be available only for them. Should they wish to purchase extra food items, these can be bought at the spectator's concession.

STORAGE INFORMATION
To facilitate security checks, we recommend small personal belongings. Moreover, no luggage deposit will be available at the stadium.

CHAPTER 9

WHEELCHAIR, ORTHOTIC AND PROSTHETIC REPAIR SERVICES

9.1 OTTOBOCK WHEELCHAIR, PROSTHETICS & ORTHOTICS REPAIR SERVICE

Ottobock will be the official provider of wheelchairs, prosthetics and orthotics repair services for athletes, NPC team officials, International Federation Games officials and members of the Paralympic family during the Milano Cortina 2026 Paralympic Winter Games.

Repairs will be made free of charge to wheelchairs, orthoses or prostheses (competition & everyday equipment) which, if not repaired, would prevent athletes from competing or delegates from retaining their usual degree of independence. The main workshops are located in the three Paralympic Villages in the residential zone.

Dates and operation times are shown in the table below:

VILLAGE SERVICE	LOCATION	AVAILABILITY
Village Repair Service Centre	Paralympic Village Milano – Residential Zone	27 Feb. – 15. March 8 a.m. - 9 p.m.* * During Opening & Closing Day, the service will operate from 8 a.m. to 4 p.m., on 27 Feb. from 10 a.m. to 6 p.m.
	Paralympic Village Predazzo – Residential Zone	
	Paralympic Village Cortina – Residential Zone	

Venue Repair Service Centres provide basic repairs and spare parts to help athletes just before and during competition and training.

VENUE SERVICE	LOCATION	AVAILABILITY*
Para Ice Hockey	Santagiulia Ice Hockey Arena, Milano	06.-07.03. / 09.-10.03. / 12.-15.03.
Para Alpine Skiing	Tofane Alpine Ski Centre, Cortina	06.-07.03. / 09.-10.03. / 12.-15.03.
Para Snowboard	Para Snowboard Park, Cortina	07.-08.03. / 12.-14.03.
Wheelchair Curling	Curling Olympic Stadium, Cortina	03.03. - 14.03.
Para Biathlon	Cross-Country Skiing Stadium, Tesero	06.-07.03. / 09.-10.03. / 12.-13.03.
Para Cross-Country Skiing	Cross-Country Skiing Stadium, Tesero	08.03. / 11.03. / 14.-15.03.

*The operating times of the Venue Repair Service Centres will adapt to the training & competition schedule

CHAPTER 10

FURTHER INFORMATION

10.1 VISION OF MILANO CORTINA 2026

The vision of Milano Cortina 2026 is to celebrate the Paralympic values, embodying contemporary Italian culture and the Italian Spirit, to shape a brighter, healthier and more sustainable future.

Milano Cortina 2026 celebrates the Italian Spirit, vibrant and dynamic, with its talent and the power of the human gesture.

An Italian Spirit that looks to the future with sensitivity and enthusiasm, to inspire people through sport.

A Spirit that clearly expresses our will to uphold and showcase the values of the Games. A Spirit that will shine in the exceptional performances of the athletes, in the flame of the Paralympic Torch, in the snow of the mountains, in the lights of the cities, in the emotions that only sport can give.

Milano Cortina 2026's graphic approach blends innovation with authenticity, creating a generative system of signs that celebrates both the Paralympic values and Italy’s rich cultural legacy.

10.2 TORCH RELAY

PARALYMPIC TORCH RELAY

The journey of the Milano Cortina 2026 Paralympic flame is a powerful opportunity to showcase Italy to the world once more: the beauty of Italy's landscapes and culture, and—above all—the inclusive spirit of the country, a vibrant, dynamic, and contemporary force that will inspire future generations.

From 24 February 2026 – following the Closing Ceremony of the Olympic Winter Games – to 6 March 2026, the day of the Paralympic Games Opening Ceremony, the Paralympic Torch Relay will keep the spotlight on the Games, sustaining excitement and amplifying messages of respect, accessibility and inclusivity. The flame will travel across the Games territory through a series of events and activities spread throughout the regions, uniting communities in celebration.

After being lit in Stoke Mandeville, in the United Kingdom, on 24 February, the flame will visit Torino, Milano, Bolzano, Trento and Trieste. Following the five Flame Festivals, these flames will merge into a single flame during the Unifying Ceremony in Cortina d'Ampezzo on 3 March. From there, the Relay will continue to Venice and Padua, before reaching its final destination in Verona on 6 March.

Each event is designed to welcome everyone, with accessibility at its heart, creating meaningful encounters between people, places and the values of the Paralympic Movement.

Above all, the Paralympic flame will be carried by torchbearers who embody passion, talent, energy and respect. They will represent the diversity of our communities and the strength of human potential, carrying with them the promise of a brighter future.

The flame is accompanied by the Paralympic Torch Relay Partner, Allianz, who fully embraces the values it represents.

PARALYMPIC TORCH RELAY OFFICIAL EMBLEM

The Emblem of the Paralympic Torch Relay reflects the identity of the Paralympic Winter Games Milano Cortina 2026, presenting a strong and coherent visual language. The emblem incorporates the flame Vibe at its core, reflecting the unique and distinct values of the Paralympic movement.

The flame also symbolizes our vibrant spirit, shining through the performances of the athletes, the snow of the mountains, the lights of the cities, and the emotions that only sport can evoke.

TORCH

The Milano Cortina 2026 Paralympic Torch is called Essential, a tribute to its minimalist design, featuring a reflective, iridescent finish in Mountains of Light, honoring the inner strength of Paralympic athletes and the power of their courage to reshape the world.

Its essential form enhances the centrality of the flame, striking a perfect balance between technology, innovation, and sustainability. Essential is a tribute to the excellence of Italian design. Every detail has been carefully crafted to symbolize the strength and determination of athletes, as well as their ability to bring people together through sport.

It is more than just an object—it is an icon, a fundamental part of the story that Milano Cortina 2026 aims to write and the legacy it seeks to leave to the Paralympic Movement.

10.3 EMBLEM

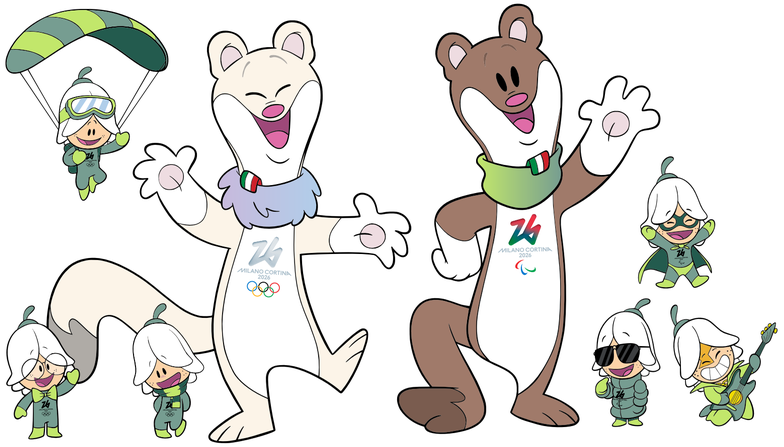
The Paralympic version of the Milano Cortina 2026 emblem, Futura, embodies a simple yet powerful gesture. The number 26 is drawn in continuous motion, like a finger trace on a foggy window, revealing the story beneath.

This emblem speaks to the heart, symbolizing sustainability, inclusivity, and a vision for the future, inviting all to be part of a transformative journey through sport and values.

Transparent and evocative, Futura offers a window to a brighter, more inclusive world.

To enhance the concept of the "26" revealing pictures, patterns, and colors, different versions of the Milano Cortina 2026 emblem have been created, featuring a variety of shades and gradients derived from the brand's color palette.

10.4 MASCOTS



Tina and Milo are the two Mascots of the Olympic and Paralympic Winter Games Milano Cortina 2026. The two inseparable stoats are brother and sister, and their names ‘Tina’ from Cortina and ‘Milo’ from Milan, derive from their two host cities.

Born in the Italian mountains, they grew up surrounded by the beauty of nature and share a passion for adventure and sport. Tina is the Olympic Mascot. She was born in Italy, in the mountains immersed in the green of summer and the white of winter snow. She has a brother called Milo who she is very close to. Milo is the Paralympic Mascot, he was born without a leg, but with a little ingenuity and a lot of willpower, he learned to use his tail and overcome every obstacle making his diversity a strength.
He lives in the mountains, he's a practical guy, he likes to create, fix, assemble, disassemble, invent... build artefacts with the wood from its forests. For some time now, he has specialised in the creation of musical instruments that Tina will then play. Milo is lively and loves to have a good time. He is always on the move: he runs, jumps and climbs his beloved trees. I love joy and making my friends laugh makes me happy. He's crazy about games you can play in the snow. He's competitive, but he also knows how to lose. He is kind and hospitable, personable and patient. The only thing he can't stand is when someone mistreats the mountain.

In the stages leading up to Milano Cortina 2026, Tina and Milo will not be alone: their adventure companions will be six small snowdrops: “The Flo”. They are a team: some of them are good at talking, some are excellent sportsmen, some are more judicious, some are rowdier and some are a little shy... what unites them is their shared passion for the outdoors and fun. They live in the mountains, usually during the winter they rest under the snow to conserve the energy they need for spring and summer. In these two seasons, they are at their best: they like to travel, play, discover new things and make friends!

10.5 LEGACY

LEGACY STRATEGY

The Milano Cortina 2026 Games have changed Italy forever. The power of the Games has brought about a very important change, which will increasingly bring to life the motto “a better life through sport” in Italy.

In September 2023, Article 33 of the Italian Constitution was amended to include sport as one of the foundations of the entire country: The Italian Republic recognises the educational, social and psychophysical wellbeing promotion value of sports activity, in all of its forms.

Within this context, in which Italy saw its lowest ever rate of sedentary lifestyles in 2025, the Fondazione Milano Cortina 2026 Legacy strategy is based on two pillars as the foundation for the change that the Olympics and Paralympics in Italy are creating:

- More Movement for All
- Sustainable Local Economic Development

The common thread running through the entire strategy is the concept of “Together”. Together with all stakeholders, it has been possible to create a legacy thanks to numerous projects that have translated into enormous benefits for the whole of Italy. It would not have been possible to create a legacy without an overall vision capable of seeing beyond the horizon, generating positive externalities in both the short and long term.

Over time, numerous projects have been launched throughout Italy, which we have grouped into different themes that improve and will continue to improve the lives of citizens. The project families are as follows:

- Sport and physical activity
- Gender equality and inclusion
- Accessibility
- Competences and skills
- Mobility
- Environment
- Health and medical facilities

WHERE THE LEGACY IS MADE

The Olympic and Paralympic Winter Games Milano Cortina 2026 are the result of a union between city and mountains. The legacy created by the Games in these areas is very different, and below we outline the main points of change that the Olympics and Paralympics have accelerated.

MOUNTAIN VILLAGES – COMBATING DEPOPULATION IN MOUNTAIN AREAS

Where: Bormio, Livigno, Cortina, Predazzo, Tesero, Anterselva

The acceleration of investment in infrastructure (sports and mobility), new governance (EDE), the healthcare system (the upgraded Livigno hospital, infrastructure improvements at the Niguarda, Belluno and Sondalo hospitals) and extensive communication will give mountain villages a new and longer life for the next 20 years, improving the resilience of local communities. Moreover, it will also increase the attractiveness of the territories themselves through numerous investments aimed at improving the accessibility of accommodation facilities in the Provinces of

Bolzano and Trento, in Veneto, and in the Lombardy Region, where initiatives have been launched to enhance the accessibility of hospitality facilities, with particular attention to guests with motor, visual, auditory, and intellectual disabilities. Additionally, the Autonomous Province of Trento has initiated a project to improve the accessibility of the local mobility system, working on railways and other infrastructures. The goal is to make public transportation more inclusive and efficient, ensuring greater independence for people with specific needs. Furthermore, the Municipality of Cortina has adopted and developed the PEBA (Plan for the Elimination of Architectural Barriers), directing interventions in areas related to the Games system and the city's main points of interest. PEBA plans are mandatory planning tools established by Italian law, aimed at identifying, analyzing, and removing barriers present in public buildings and urban spaces to guarantee accessibility, usability, and safety of environments for people with disabilities, elderly people, parents with strollers, and other individuals with reduced mobility.

CITIES – STRATEGIC PROJECTS AND NEW NEIGHBOURHOODS CREATED THANKS TO THE GAMES

Where: Milano and Verona

The acceleration of urban regeneration through long-term public and private investment will enable people to live in redeveloped neighbourhoods, expand the possibility of hosting students from all over the world thanks to the 1,700 beds left as a legacy to the universities in the Milano area (Villagio di Milano and Milano Santagiuia Ice Hockey Arena, etc.), improved, renovated, and accessible infrastructures (Arena di Verona, City of Milano etc.), historic centers, and museums, renovated and accessible (City of Verona) and enjoy transport links that are fully accessible to all (all Milano metro lines). In addition, the opportunity to get more exercise thanks to various projects launched with Milano Cortina 2026 partners (renovation of playgrounds, social inclusion project, etc.) will create a new generation of sports people. Specifically, the Cities of Milano and Verona have also adopted the PEBA and PAU (Urban Accessibility Plans), which are strategic planning tools aimed at ensuring an inclusive urban system that promotes autonomous and safe mobility for everyone, especially people with disabilities, through the adaptation of infrastructure, pathways, and public transport services.

In preparation for the Olympic and Paralympic Winter Games Milano Cortina 2026, the Lombardia Region has launched project initiatives to promote accessibility and inclusion related to the adaptation of the city's commercial activities, public buildings, municipal parks, registry offices, museums, theaters, and libraries. Meanwhile, the City of Verona has prepared the municipal PEBA, promoting works to improve the accessibility of pedestrian routes related to the Games, as well as public buildings (museums, tourist attractions, sports facilities), public parks, and public transportation.

All these investments have also led to numerous improvements in terms of sports infrastructure. Here are a few examples:

- Renovation and improvement of the Antholz/ Anterselva Biathlon Arena
- Renovation of the Tesero Cross-Country Skiing Stadium to create a new, internationally unique sports centre

- Redevelopment of the Stelvio Ski Centre (Livigno) and construction of a multifunctional ski stadium
- Redevelopment of the “Eugenio Monti” sliding centre (Cortina) to create a world-class winter sports centre

Moreover, all venues, in preparation for the Games, will be accessible and usable by people with disabilities.

The interconnected development between cities and mountains has also enabled Italy to win another prestigious event in a very short time, namely the 2028 Youth Olympic Games. Below are some examples of projects that fall within the two pillars of legacy: more movement for all and sustainable local economic development.

These projects are just a few of those that have been developed thanks to the Olympic and Paralympic Games by all stakeholders.

PILLARS OF LEGACY

1. More movement for all

The goal of the ‘More Movement for All’ pillar is to get as many people as possible to move more during the day, practice more sports and, at the same time, try to make any sport, with a focus mainly on winter sports, completely accessible to people with disabilities.

Below are some examples of projects to combat sedentary lifestyles by promoting daily physical activity at school, in cities and in the workplace.

Walking The Games

A project involving more than 10.000 children in schools in the various areas covered by the Games (city and mountains) in daily physical activity through digital gamification that had them walking virtually from Beijing to Milano, following the route of the Olympic flame. The project produced an important result: three-quarters of the students interviewed reported an increase in physical activity as a result of the initiative.

Gen26: values passed on to new generations

Gen26 is the title of the Milano Cortina 2026 Education Programme and constitutes its educational identity, placing young people at the centre. The Programme aims to inspire new generations through Olympic and Paralympic sporting values. In order to deliver a lasting legacy to the country and the global sports movement, Gen26 wants to create a community of young sports enthusiasts throughout the territory. The programme has three important ambitions for the Olympic and Paralympic Movement, to be achieved before, during and after the Games:

- spreading Olympic and Paralympic values
- promoting physical activity for mental and physical well-being
- sharing professional skills in the field of major sporting events.

The Gen 26 Education Programme from 2022 to 2025 has produced the following results:

- almost 2 million young people involved in the programme's activities
- 150,000 teachers reached
- around 60 organisations awarded the Gen 26 label
- 20 projects and toolkits

Winter Games Week
Olympic and Paralympic Education in schools. This initiative, carried out in collaboration with the Ministry of Education and Merit, aims to make students protagonists in the journey towards Milan Cortina 2026, stimulating awareness, participation and active citizenship. Since the initiative began, around 500.000 young people have taken part, offering them the opportunity to experience Olympism through educational, physical and interactive activities, made possible by the educational toolkits provided by Gen26. Pupils from 21 Italian regions have participated. Thanks to Winter Games Week, 82% of schools will continue to use the educational kit created by Fondazione Milano Cortina 2026 in their lessons; 61% of schools have increased their provision of physical activities for young people and 44% of sedentary students have started playing sports after this event.

Adaptive Winter Sport
A project that enables all people with disabilities to practise winter sports and makes mountain locations accessible (mountain huts and hotels, as well as chair lifts, ticket offices and cable cars). Specifically, the project involves young people and families, as well as sporting and non-sporting institutions, in a process that starts with knowledge and training and leads to the safe practice of Paralympic sports. In addition to offering Paralympic winter sports to those who already practise sport, the ambition is to bring new people who did not previously practise sport into the sport. Adaptive Winter Sports' work starts with the practice of sport and, in order to promote it, connects the partners of the Olympic and Paralympic Winter Games Milano Cortina 2026 with local communities and existing organisations throughout the country to create long-term interactions and solutions in all areas. Specifically, the interventions concerned:

- Donation of technical equipment and sports gear to the Italian Ice Sports Federation
- Creation of events, open days, and showcases in the area to promote sports activities
- Mapping of mountain huts, shelters, and facilities (cable cars, chair lifts, etc.) to verify accessibility and intervene where necessary

Go for 30
A project carried out with all the Games' stakeholders (partners, municipalities, regions) which aims to get people moving more in the workplace by encouraging individuals, and therefore companies and institutions, to adopt practices that promote at least 30 minutes of daily exercise through simple measures such as active breaks, sustainable mobility, sport and prevention. This project also aims to transform Milano into Italy's leading city for wellbeing by 2030.

Urban redevelopment projects
Carried out by the Games' partners that encourage more movement and physical exercise in different neighbourhoods of cities, such as the playground created in Milan in Via Pepe by one of the Games' TOP partners.

Move More Toolkit
Specific toolkits to encourage people to move more during the day. These toolkits have been designed to promote and disseminate simple tips and practices to get people moving more at work, in cities and in schools. These toolkits have been distributed to Games partners, schools and local communities.

In addition, thanks to the education programme, educational toolkits have been brought into schools. Below are some of the toolkits provided:

A.“**OVEP**” – Olympic Values Education Programme

- The official IOC toolkit, translated into Italian for the first time and available online free of charge, promotes excellence, respect and friendship through free educational materials. It can be integrated into school curricula and helps students and teachers understand the benefits of sport and the values of Olympism in everyday life.
- It creates an educational community (teachers, students, schools) aware of the educational value of sport.

B. “**I'mPOSSIBLE**” - Learning about the Paralympic Movement

- IPC educational toolkit, translated into Italian for the first time and freely downloadable online; involves Paralympic athletes in raising students' awareness of the rights of people with disabilities and the history of the Paralympic Movement.
- It contributes to a profound cultural change in the perception of disability, raising awareness among the younger generation about the rights of people with disabilities and the concept of equality through sport.

C.“**LineUP-LiveUP” from the SC:ORE programme - Sport against youth violence and substance abuse**"

- An international initiative developed by the IOC and UNODC to prevent crime and violence among young people through sport.
- Introduces a long-term replicable intervention model in schools and youth centres.
- Provides an internationally validated methodology that can be integrated into civic and sports education programmes.

D.“**Equality on the Field - Sport beyond stereotypes**”

- Educational toolkit designed with Terre des Hommes Italia Onlus and in collaboration with FA Human Rights to promote gender equality, inclusion, respect and overcoming prejudice; it offers schools and families educational content and practical activities to raise awareness among students and promote a more equitable society through sport.

Below is a brief excerpt that makes us reflect on and highlights how the Games and the whole movement behind them can change not only a nation but also influence the normal habits of all of us.

- Pre-Games scenario: Italy was the fourth OECD country with the highest rate of sedentary lifestyles among adults in 2020, with a percentage of people not reaching the recommended levels of physical activity higher than the OECD average. In particular, 44.8% of the Italian adult population does not meet the WHO guidelines on physical activity. This percentage increases further among children, where Italy has the worst figure among OECD countries, with 94.5% not reaching the recommended levels.1
- Scenario following the arrival of the Games in Italy: In Italy, two out of three people now participate in sports, reaching a total of 21.5 million participants, while the rate of sedentary lifestyles has reached an all-time low of 32.8%. The 2025 “Italy, Sport and Health” report highlights an increase in regular participation (from 27.9% to 28.7%), while the number of people who engage in occasional activity is

decreasing. The government is committed to making sport accessible and free for all, with the aim of breaking down economic and physical barriers and getting more young people involved. New initiatives have been launched to enhance the range of sports on offer at local level, including through projects such as “Sport for All” and “Sport and School Classmates”.

2. Sustainable local economic development

The objectives of this second pillar are manifold and have multiple purposes:

- Increase the attractiveness of the various territories by improving their infrastructure, mobility and services
- Increase the number of tourists by creating opportunities to welcome and host new events over time
- Increase knowledge and skills in order to have highly trained personnel ready to respond to the various needs of the territories.
- Develop and grow SMEs, social businesses (foundations, associations, non-profit organizations, cooperatives, benefit companies) and very small enterprises, and create a more interconnected territory ready to respond to different needs.

Below are some specific projects:

A. **Impact 2026**

Impact 2026 was launched in 2023, thanks to the collaboration between Milano Cortina 2026 and Professor Muhammad Yunus, winner of the Nobel Peace Prize in 2006 and the IOC's Golden Laurel in Tokyo 2020, in line with the work already undertaken by the Paris 2024 Organising Committee.

Impact 2026 is the project with which Milano Cortina is laying the foundations for creating new connections within the various territories, seeking to provide greater market opportunities to all those small businesses (SMEs, social businesses, very small enterprises) that would otherwise have great difficulty accessing the market.

The ambition of the project was also to encourage all stakeholders (local entities, CONI, Games partners) who cooperated in the organisation of the Games to embark on this innovative path of Social Procurement.

Finally, a series of projects dedicated to the true legacy of the future, namely the young people who will shape the world of tomorrow and a future that must increasingly be inspired by the values of sport and, therefore, of the Olympic and Paralympic Games.

B. **Training future young italian professionals**

Milano Cortina 2026 for University: Milano for University, an innovative programme dedicated to training future young professionals. A major sporting event can leave a lasting educational and professional legacy. It is with this vision that Fondazione Milano Cortina 2026, through the Gen26 Educational Programme, has launched the “Milano Cortina 2026 for University” project, an initiative that focuses on young people, their aspirations and their future. In a time marked by uncertainty and global challenges, Gen26 aims to build bridges between education and work, between dreams and reality. The “Milano Cortina 2026 for University” project was created with this goal in mind: to offer university students concrete tools, guidance and opportunities for direct contact with the world of work, inspiring them through unique experiences.

- 49 university courses dedicated to mega-event management
- 36 contacts with universities for the creation of courses
- 194.475 young people involved in courses dedicated to mega-event management

Dual Career Pathways: The mission of the Milano Cortina Foundation is to support student-athletes with scholarships and personal coaches. This programme, which involves the Milano Cortina 2026 Foundation, CONI, CIP, the Minister for Sport and Youth, and the Ministry of University and Research, will help to strengthen and integrate the values of education with those of competitive sport. It provides real support to those who want to combine study and sport in a mutually beneficial way. The dual career issue potentially affects 14 million athletes. With this programme, we want to support them in their personal and professional growth in the pursuit of excellence.

Creation of the new **EMBE Master's programme with SDA Bocconi School of Management** in Milano, launched in 2024: transferring and enhancing skills and talents to train new professionals for major events at a global level is the goal behind the synergy with SDA Bocconi School of Management. The first ever edition of SDA Bocconi's Executive Master in Business of Events (EMBE) will start in September 2024. EMBE is an executive programme, divided into modules, which takes place over 16 months in six cities (Doha, London, Milan, Paris and Rome). This programme combines managerial and entrepreneurial experience, leveraging the global power of sport. This initiative fits perfectly with the commitments made by the Milano Cortina 2026 Foundation, namely to create a lasting legacy in terms of human capital development for the benefit of the country.

"PCTO with Milano Cortina 2026" – Cross-cutting skills and guidance in sport: Training courses dedicated to secondary school students to discover what goes on behind the scenes at major sporting events: a mix of theory and practice with the aim of developing professional skills and building a lasting link between school, sport and local areas.

CONCLUDING CHAPTER – MILANO CORTINA 2026: A LEGACY FOR THE FUTURE OF THE COUNTRY

Milano Cortina 2026 is not only a celebration of sport and Olympic and Paralympic excellence, but also a real catalyst for change, capable of leaving a lasting legacy for the country. More than just a two-week event, the 2026 Winter Olympics and Paralympics are an opportunity to regenerate territories, innovate infrastructure, stimulate economic and cultural development, and above all, strengthen social cohesion.

A DRIVER FOR REGIONAL DEVELOPMENT

Thanks to Milano Cortina 2026, the Alpine areas involved have the opportunity to rediscover and enhance their potential. The modernisation of infrastructure, the redevelopment of urban and mountain areas, the upgrading of transport and the digitalisation of Alpine valleys will contribute to a lasting improvement in the quality of life of residents and the competitiveness of the regions.

NEW OPPORTUNITIES FOR TOURISM AND THE LOCAL ECONOMY

The international interest generated by the Games will give a significant boost to tourism, with effects that will extend beyond the short term. The Games destinations, already famous for their natural and cultural heritage, will benefit from global visibility that will attract new tourist flows even after 2026. Added to this is the growth of the hospitality sector, local crafts and mountain businesses, with positive repercussions on employment.

INFRASTRUCTURE SERVING COMMUNITIES

The works planned for Milan Cortina – such as roads, sports facilities, accommodation and logistics structures – have been designed from the outset with sustainability and reuse in mind. These are not “cathedrals in the desert”, but integrated infrastructure that will continue to serve local communities, schools, sports associations and citizens. Some facilities will become centres of excellence for youth training and sports.

SPORT AS AN EDUCATIONAL AND SOCIAL LEVER

Milan Cortina 2026 is also a great opportunity to strengthen the culture of sport in Italy. Educational initiatives linked to the Games – in schools, gyms and town squares – are already helping to promote active lifestyles, inclusion and well-being. The emulation effect generated by athletes will inspire new generations to take up sport, breaking down economic and cultural barriers.

10.6 MILANO CORTINA 2026 SUSTAINABILITY ACTIONS

The Olympic and Paralympic Winter Games Milano Cortina 2026 aim to demonstrate how sport events can benefit host communities and serve as a model for the transition towards more sustainable large-scale events. In collaboration with stakeholders, Milano Cortina 2026 is committed to delivering more sustainable and responsible Games, **by reducing carbon emissions, protecting ecosystems and preserving the natural beauty of the host territories, promoting human rights, disability inclusion and gender equality, fostering local economic development, applying principles of circular economy, and encouraging sport and wellbeing**. For more information, please refer to the Sustainability, Impact and Legacy Strategy.

Key sustainability actions implemented by Milano Cortina 2026 are as follows:

TRANSPORT

- Cross-cluster movements by train and bus services for all, including persons with disability
- Public transport as main backbone of the system in Milano
- 35% less cars than in previous editions and 21% full-electric vehicles (fleet)
- Use of HVO (Hydrotreated Vegetable Oil), a less carbon emissive fuel (- 60/90% compared to fossil fuels) for back-up power generators and where feasible for fleet

ENERGY

- Venues using 100% certified renewable electricity
- Temporary generators only for emergencies (thanks to the improvement of the grid in the mountain areas, a legacy initiative)

FURNITURE AND OVERLAY

- Reuse of 20,000 equipment items from Paris 2024
- Sustainable procurement strategy promotion rental vs purchase, local supplies, and furniture manufactured with recycled materials

FOOD AND BEVERAGE

- Promotion of local products
- Availability of vegetarian options and higher proportion of chicken on menus instead of beef
- Availability of drinkable tap water at all venues, with a view to reduce bottled water consumption
- Reusable or compostable tableware
- Food waste recycled to compost or donated

INFRASTRUCTURE AND NATURAL ECOSYSTEMS

- Use of 85% of existing and temporary venues
- Upgraded snow-making system with improved energy and water efficiency
- Mitigation of infrastructure-related impacts on local ecosystems and nature restoration plans

HUMAN RIGHTS, GENDER EQUALITY, DIVERSITY AND DISABILITY INCLUSION

- Promotion of human rights, gender equality, inclusion and accessibility to support delivery of gender-equal, inclusive, balanced and diverse Games that reflect of the world we live in today
- Promotion of physical activity and inclusive local economic development

10.6.1 HOW TO CONTRIBUTE TO THE GAMES' SUSTAINABILITY EFFORTS

Paralympic Family can contribute to these efforts by taking the following actions:

Carbon footprint

In its commitment to reducing the Games' carbon footprint, Milano Cortina 2026 encourages all stakeholders to:

- Reduce consumption: minimise the use of energy, water, goods, and raw materials.
- Choose options that do not require the use of single-use plastic.

Circular economy

- When purchasing new materials and goods, favour renewable and recyclable materials.
- Dispose of waste responsibly: they are valuable resources that can be recycled into new products.
- Use designated bins and follow waste segregation rules (recycling, organic, general waste, etc.).

Natural habitats' protection

- Avoid entering closed or protected areas; always follow signage and staff directions.
- Do not harm, capture, or collect wild animals or plants, especially if they are protected species.
- Avoid damaging trees and plants.
- Do not light fires: it's strictly prohibited and extremely dangerous.
- Avoid smoking. Smoking is forbidden in all competitive venues. In Villages there will be designated smoking areas.
- Cigarette butts are dangerous waste, especially in forested or alpine areas where they could generate fires.
- Don't litter. Take all trash with you, including fruit peels or paper scraps.

Food and beverages

- Choose vegetarian options and prefer white meat to other types of meat, to contribute to the Games' carbon reduction objective
- Choose food and beverage with less packaging
- Minimize use of disposable tableware
- Reduce food waste

Human Rights, Gender Equality, Diversity and Disability Inclusion

From fighting discrimination, abuse and harassment to supporting gender equality and disability inclusion, every action counts. Enjoying the Games responsibly means contributing to greater sustainability and positive impact.

- Speak up and report discrimination and abuse. If you witness or experience discriminative, harassing or abusive behavior, report it to staff or volunteers. They are there to enable a positive Games experience for all. Safeguards will be in place to protect individuals from any form of retaliation.
- Champion fair, balanced, and inclusive language in any communication content.

10.7 CULTURAL OLYMPIAD

The Milano Cortina 2026 Cultural Olympiad is a multidisciplinary, plural and widespread programme to promote Olympic and Paralympic values through culture, heritage and sport. The Milano Cortina 2026 Cultural Olympiad has the ambition to involve the cultural community in an open and participatory project, and encourages artists, operators, cultural institutions and organisations to join in this great design experience.

A calendar of artistic and cultural initiatives that has been exciting Italy on the road to the Games, culminating in exciting and engaging programming during the Winter Olympics and Paralympics. The Cultural Olympiad's interactive map allows you to discover the programme and its main emblematic events to find out about practical aspects such as timetables and how to book: **Culture | Milano Cortina 2026**. Please note that this is a continuously updated calendar.

ART POSTERS EXHIBITION AT TRIENNALE MILANO
Promoted by Milano Cortina 2026 and Triennale Milano, in collaboration with the IOC and IPC. Realised by ten Italian artists under 40, invited to offer their own creative interpretation of the Olympic and Paralympic Winter Games and values. The collection reflects the vitality of the Italian contemporary art scene and the vibrant and dynamic spirit of the upcoming Winter Olympics and Paralympics.
Viale Emilio Alemagna, 6, Milano - Until 15 March 2026

WHITE OUT EXHIBITION AT TRIENNALE MILANO
An exhibition curated by Konstantin Grcic and Marco Sammicheli, exploring the innovations, technologies and social dynamics of winter sports and how design has shaped their evolution in terms of performance, safety, inclusion, sustainability and cultural impact, including their influence on fashion and communication.
Viale Emilio Alemagna, 6, 20121 Milano - End of January 2026 – March 2026

IL SENSO DELLA NEVE AT MILANO MUDEC
The exhibition takes a cross-disciplinary approach, exploring the meaning of snow from an anthropological, scientific and artistic perspective. It also includes reflections on climate change and global warming by contemporary artists such as Judy Chicago, Irene Kopelman, Philipp Messner, Walter Niedermayr, Shimabuku and Xu Zhen.
The exhibition begins with the formation of snowflakes, then moves on to the cultures of the Arctic and Tierra del Fuego, with a special focus on the Selk'nam people. The exhibition continues with an analysis of the iconography of snow in art from the 17th to the 20th century: there is a series of Japanese prints, including Hiroshige and Kuniyoshi as well as works belonging to the European tradition by Boetti, De Nittis, Ligabue, Longoni and Morbelli.
MUDEC Museum, Via Tortona, 56 - Milano - 12 February 2026–28 June 2026

I LIMITI NON ESISTONO: "CORTINA DI STELLE" IN CORTINA
"Limits Don't Exist" is a series of exhibitions sponsored by the Italian Paralympic Committee and INJA Louis Braille, Cramum, in collaboration with the Museum of Contemporary Art in Cavalese, the Lombardy Region, and Lagazuoi Expo Dolomiti. The focus of the exhibition project is the promotion of braille as a symbol of inclusion and a tool for emancipation. Through the art of Fulvio Morella, braille becomes the common thread linking three symbolic locations of the event: Milano, Val di Fiemme and Cortina. On 22 December, the third and final stage of "Cortina di Stelle" will come to an end, an exhibition spread between the Lagazuoi Museum and the Council Chamber of the Municipality of Cortina.
Corso Italia 33, Cortina d'Ampezzo and Museo Legazuoi, 22 December 2025 – 31 March 2026

"ARTE E SPORT SI INCONTRANO AL MUSEION" AT BOLZANO
Museion is Bolzano's museum of modern and contemporary art. To mark the Olympic and Paralympic Winter Games Milano Cortina 2026, it is opening an exhibition showcasing the torches from all editions of the Olympic Games, highlighting the evolution of art and design through these iconic symbols and bringing together sport, culture and innovation.
Piazza Piero Siena 1, ex. Via Dante 6 - Bolzano (BZ) - 7 November 2025–29 March 2026

THREE-YEAR PROJECT "ANELLI DI CONGIUNZIONE" 2024-25-26: TRENTO
"Connecting Rings" is a three-year exhibition that aims to transform Le Gallerie of Trento into a sort of cultural hub dedicated to the Olympic and Paralympic Games in view of the Milano Cortina 2026 edition. "Performance" and "Competition", specifically, address the theme of applied technology and the venues of the Olympic Games. The project is animated by different partnerships and initiatives to engage the community and schools.
Le Gallerie di Trento, Vicolo di Piedicastello 2, Trento (TN) - Until the end of 2026

"BEYOND BARRIERS" SCULPTURE IN VERONA
A permanent sculptural tribute to history and inclusion. This proposal envisions the creation of a permanent sculpture in Piazza Brà, in the heart of Verona, to commemorate Milano Cortina 2026. The artwork aims to celebrate the Olympic and Paralympic values through a symbolic and material language that intertwines tradition and identity, conveying a message of inclusion and universality. The sculpture is made entirely of natural stone, historically used in the construction of Verona's Arena, combining local and international materials.
Piazza Bra, Verona - From January 2026, permanent

10.8 OFFICIAL MILANO CORTINA 2026 LICENSED PRODUCTS

Official Milano Cortina 2026 licensed products are available in many product categories such as apparel (sweatshirts, t-shirts, jackets, jerseys, baby clothing etc.), accessories (caps, hats, beanies, bags etc.), gifts and novelties (mugs, pins, magnets, keyrings, collector coins etc.), plush toys (Mascots and the Flo).
You can purchase all the official licensed products in the following places:

1. Off-venue "**Official Stores**", both in Milano and in Cortina:

- Milano Megastore – Piazza Duomo
- Milano – San Babila
- Milano – Cairoli
- Milano – XXV Aprile
- Milano – Duca d'Aosta
- Milano – Pt. Ticinese
- Milano – Centrale Station
- Cortina – Corso Italia

2. In-venue "**Official Stores**", in each competition venue

3. Milano Cortina 2026 Official Online Store
Please bear in mind that at brick-and-mortar Official Off-Venue and In-Venue Stores, only Visa cards (as well as cash) are accepted as official payment methods. Transactions on the Official Online Store, however, can be completed using not only Visa cards, but also Mastercard, Amex, Maestro or PayPal.

10.9 INSURANCE

The below coverage will be valid only during Games time, starting from arrival on Italian soil.

GENERAL LIABILITY
Coverage resulting from personal injury, property damage and financial loss caused to third parties. The policy is valid only for Paralympic related activities for which Milano Cortina 2026 is responsible.

MEDICAL TREATMENT AND REPATRIATION
Coverage of medical expenses relating to all injuries and illnesses (health and accident) suffered by any accredited person that requires treatment before the person is able to return home, as well as costs incurred for their repatriation.

PERSONAL ACCIDENT
Coverage and compensation in the event of death or disability of accredited persons resulting from an accident occurring in connection with their activities at the Paralympic Winter Games.

VEHICLES INSURANCE
Coverage in place:

- Motor liability for damages to third parties (mandatory under Italian law).
- Damages to vehicles.
- Personal accident & repatriation for drivers covered under medical/personal accident insurance.

STOCK AND TRANSIT
Damages to equipment/goods in the care, custody and control of Milano Cortina 2026, or for which the Organising Committee is contractually responsible.

WHAT IS NOT COVERED

- Any activity performed in Italy before Games time (training, field-of-play inspections etc.).
- Loss and theft of freelancers' personal professional equipment, i.e. cameras, laptops, smartphones etc.
- Loss and theft of accredited persons' personal belongings.
- Personal injury, damage to properties and financial harm caused to external parties outside Paralympic activities.

10.10 GENERAL SAFETY AND SECURITY

As per the rules of engagement, the Italian government is responsible for the security of the Games on its territory. Milano Cortina 2026 supports the authorities in designing security measures for all official venues and being the main point of contact with all state forces and authorities during the planning and delivery phase of the Games.

GENERAL INFORMATION ON ITALIAN EMERGENCY CONTACTS

The general European number for emergencies (NUE), valid also in Italy, is **112**.

For specific matters, you can call the following national numbers:

For the Lombardia region, and the autonomous regions of Trento e Bolzano

- **112**: Arma dei Carabinieri – general number for any emergency.

For the Veneto region:

- **112**: Arma dei Carabinieri
- **113**: Polizia di Stato (State Police) – for incidents, thefts etc.
- **115**: Vigili del Fuoco (Fire brigade) – for fire, weather emergencies etc.
- **118**: Servizio di urgenza ed emergenza medica (Medical emergencies) – for any medical emergency.

GENERAL INFORMATION ON GAMES SECURITY CONTACTS

In addition to the nation's security numbers, during the Games, all competition venues and some non-competition venues will have on site a Venue Security Command Centre (VSCC). Within this office, a representative of the Milano Cortina 2026 Security team will always be present during opening hours.
On a central level, the Games Security Command Center (GSCC) is active before, during and after the Games, to coordinate issues centrally.

STATE AUTHORITIES

Seeing as this edition of the Winter Olympics and Paralympics extends across a vast territory of northern Italy, different authorities play a key role in ensuring security at the Games. In fact, other than the Ministry of Interior, which operates at a national level, the closest collaboration is found with provincial and local authorities, whom will be "on the ground" during Games time.

These are divided on a provincial level:

- Prefettura di Milano
- Prefettura di Verona
- Prefettura di Sondrio
- Prefettura di Belluno
- Commissariato del governo di Trento
- Commissariato del governo di Bolzano

All of the above are represented at a city level through their respective Questura.
Mobilised Italian authorities will not only come from the Polizia di Stato but also the Arma dei Carabinieri, Guardia di Finanza, Vigili del Fuoco etc.

RESPONSIBILITIES

Within the Milano Cortina 2026 Organising Committee, Security is responsible for:

- coordinating the security sweeps and lockdown with the authorities;
- implementing private security resources for all official venues;
- securing the perimeter of venues;
- video surveillance monitoring when applicable;
- handling security checks at the gates, both for pedestrian access and vehicle access;

- screening of deliveries when the venue is in lockdown;
- handling asset protection for OBS spaces; and
- supporting and liaising with state authorities on any issue connected to security.

SECURITY OF THE OFFICIAL VENUES

Competition venues, Villages and some non-competition venues will undergo a security inspection conducted by state authorities. This inspection, referred to as the security sweep, will ensure no dangerous or prohibited items are present in venue. Once the inspection is finalised, and the green light is given from the state authorities, the venue will be in lockdown.

During the lockdown period, in terms of security, different rules and policies apply for entering official venues, such as accreditation check, security check and restrictions on allowed items.

In fact, when entering the sites, you will undergo an accreditation check, as well as a personal inspection if you are carrying luggage or a bag.

Adapted procedures are available for people who's age, mobility, or medical condition may require it.

Please refer to the following policies and procedures for details.

10.11 EMERGENCY CONTACTS

Emergency numbers outside of the Milano Cortina 2026 sites:

- emergency number for Europe: **112**
- emergencies (ambulance service): **118** (only from an Italian number, for other numbers, call **112**)
- police: **113**
- firefighters: **115**

These numbers can be reached from any Italian or foreign number or SIM card. Milano Cortina 2026 recommends that you do not store emergency service numbers in your phones as speed-dial functions can lead to accidental calls. Emergency numbers at Milano Cortina 2026 sites are given on the accommodation sites.

10.12 SMOKING POLICY

The Milano Cortina 2026 Paralympic Winter Games are a smoking-free Games. Smoking and tobacco consumption in any form, including e-cigarettes, are prohibited within all venues of Milano Cortina 2026. Smoking is prohibited on competition and non-competition sites, in their car parks and in all official hotels. Exceptions apply to certain areas of official hotels (balconies, terraces) that do not fall under the Milano Cortina 2026 jurisdiction, where the regulations of each hotel apply.

10.13 CURRENCY AND EXCHANGE MACHINES

The official currency in Italy is the euro (symbol: €; ISO code: EUR). Milano hosts a wide range of banks, both domestic and international. Most are open Monday to Friday, from 9.00 a.m. to 5.00 p.m., though some branches may close for a lunch break between 12.30 p.m. and 2.00 p.m.

While certain banks may exchange foreign currency for euros — often charging a fee — you can also visit currency-exchange offices that specialise in this service. Be sure to carry valid identification.

You can access euros at any time using your bank card at the many ATMs (bancomat) available across the city and in the clusters. During the Games, only VISA cards or cash can be used to purchase food, beverages, merchandise, and other items inside official venues. Other payment methods (e.g. Mastercard, American Express) will not be accepted.

To facilitate payments, ATMs and prepaid card kiosks will be available at competition sites. Fans can load money onto physical or virtual cards via the Visa Go app.

Get ready for the Games. Contact your bank and request a Visa card now.

10.14 TAXES AND TIPS

In Italy, the prices shown generally include VAT (value-added tax), but not always the service charge. In many restaurants, a cover charge (*coperto*) is a separate item and can vary depending on the location. If the service has been especially good, you can leave a tip to show your satisfaction. Usually, the tip amounts to 5–10% of the bill, but it is not mandatory.

A city tax will be applied in non-official hotels. The table on the next page shows the different amounts based on the different types of accommodations in Cortina.

TYPE OF ACCOMMODATION	TAX PER PERSON PER NIGHT
5 Star Hotel	€5.00
4 Star Hotel	€4.50
3 Star Hotel	€3.50
2 Star Hotel	€2.50
1 Star Hotel	€2.00
R.T.A. Tourist Hotel Residence	Same as above, based on rating
Furnished Apartments for Tourist Use	€2.50
Family-run B&bs	€2.00
Guest Houses	€1.50
Holidays Homes (Case per ferie)	€1.50
Mountain Lodges (Rifugi)	€1.50
Agritourism Facilities	€2.00
Campsites	€2.00

10.15 WEATHER CONDITIONS

The climate in Italy during the winter varies depending on the region. In northern and central Italy, winters are generally mild to cold, with temperatures often ranging from 0°C to 10°C during the day and dropping below freezing at night, especially in mountainous areas. Rain and occasional snow are common, particularly in the north and the Apennine mountains. In southern Italy, winters tend to be milder, with daytime temperatures usually between 10°C and 15°C and rare snowfall. Relative humidity during the winter months averages at around 70%. Average monthly rainfall is higher in autumn and winter, often between 70 and 100 millimetres depending on the region.

10.16 TIME ZONE

The Italian time zone is UTC+1 during standard time, and UTC+2 during daylight saving time.

10.17 LOST AND FOUND

If you lose an item, please go to the Paralympic Family information desk at the Paralympic Family Hotel. They are staffed by representatives from Paralympic Family Services, Transport Services and Accommodation Services, who can help you with any queries you may have.

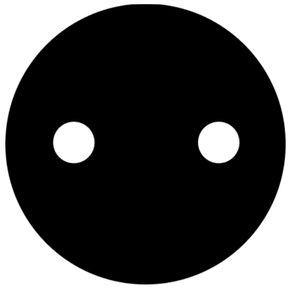
If you lose an item at a competition venue, please visit a dedicated info point or ask a representative from Paralympic Family Services who will help you to manage the issue. If the found items registered remain in the Information point/centre after the end of the session, they will be stored in a box and transferred, within the following two days to the Lost and Found Claim Centre of the Municipality.

If you lose an item during the Opening or Closing Ceremony, reach out to Milano Cortina 2026 staff based in the lounge and they will assist you with this issue.

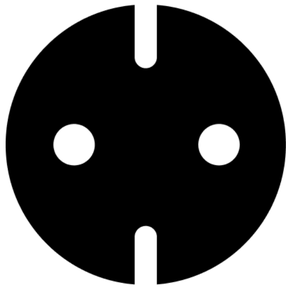
10.18 ELECTRICITY

Italy operates on a **230V supply voltage and 50Hz.** For Italy, there are three associated plug types: C, F and L. In Cortina and the surrounding area, type L is most commonly used.

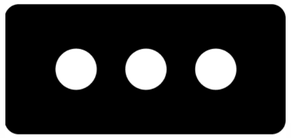
Type C



Type F



Type L



10.19 MOBILE PHONES

GETTING A PHONE

Before you travel to Italy, check with your mobile operator to find out whether your phone is technically and commercially compatible with Italian networks, and how you will be charged for calls you receive from your home country and/or make (local or international). To browse the internet and send messages from your smartphone, you need to activate data roaming (unless you are connected to a Wi-Fi network). This feature, accessible through your device settings, may incur additional charges. Do not forget that you might need a plug adapter for your laptop charger.

If you want to buy a phone in Italy, the main national operators — TIM, Vodafone, WindTre, Fastweb and Iliad — have numerous retail stores. Supermarkets and electronics shops also offer a variety of mobile phones.

GETTING A SIM CARD

In Italy, you can easily buy a SIM card at the stores of the main network providers, where you can choose a package that suits your needs. Purchasing an eSIM is also possible, either through mobile operator stores, online platforms such as eSIM.net, or via dedicated operator apps. The advantage of an eSIM is its flexibility, as it eliminates the need for a physical SIM card and allows multiple numbers to be used on the same device. However, not all phones support eSIM, so be sure your device is compatible. Please note that you will need to provide proof of identity before purchasing the SIM card as the SIM will be registered directly in each individual's name

10.20 USEFUL APPS ON SMARTPHONES

ACCESS REGISTRATION PORTAL
The Access Registration Portal (ARP) is an easy-to-use self-registration platform that provides accredited personnel in Milano and rate-card token holders with access to the apps they are entitled to. Entitlements depend on the accreditation function or the type of token. The ARP manages the MediaZone, Remote CIS, transport app and weather apps.

MILANO CORTINA 2026 TRANSPORT ACCREDITATION APP SPECIFICALLY FOR ACCREDITED PERSONS.

The Transport Client App provides accredited users with a simple and personalised way to plan, book, and manage journeys — all within a seamless platform. It streamlines the travel process, making each step more convenient and efficient. Designed to enhance overall satisfaction, the app brings together all travel needs in one place.

TICKETING APP
For people who have bought tickets for the Games, the Official Ticketing App is the only app for accessing or transferring these tickets. Tickets are 100% digital and only usable through this app.

PARALYMPIC WINTER GAMES – MILANO CORTINA 2026
Paralympic Winter Games – Milano Cortina 2026 is the official app of Milano Cortina 2026. Here you can find everything to do with the calendar, competition venues, live results, medals and all the essential information for spectators to be able to plan their trip and arrival at the venues, as well as all information on the celebrations surrounding Milano Cortina 2026. You can also access a range of sports news and information on the sports and athletes.

For further information, please check the official website: Paralympic Games App | Milano Cortina 2026.

10.21 NETWORK (WI-FI) CONNECTIONS

- An accredited user may register as many wireless devices as they wish, however, a maximum of five devices may be actively connected to the network at the same time.
- Each device only needs to be registered once. Thereafter, the device will automatically reconnect in all areas of Paralympic venues where accredited-user WiFi is available.
- Devices will be authorised to connect to the WiFi until the end of the Games.
- Users are prohibited from using the WiFi for illegal, unethical or unauthorised purposes. Any breach of policy will result in the device being automatically removed from the network and they will be denied future access.

CHAPTER 11

LIST OF ACRONYMS

ACRONYM	MEANING
ADS	Arrivals and Departures System
ARP	Access Registration Portal
GCD	Milano Cortina 2026 Games Connection Desk
GSCC	Games Security Command Center
IBC	International Broadcast Centre
MAC	Main Accreditation Centre
MPV	Multi-Passenger Vehicle
MXP	Milano Malpensa Airport
NUE	European emergency phone number
OBS	Olympic Broadcasting Services
OCOG	Organising Committee for the Olympic and Paralympic Games
PCC	Paralympic Closing Ceremony

ACRONYM	MEANING
PCP	Permit Checkpoint
PFA	Paralympic Family Assistants
PIAC	Paralympic Identity and Accreditation Card
PIR	Property Irregularity Report form
PFH	Paralympic Family Hotel
POC	Paralympic Opening Ceremony
PoEs	Ports of Entry
PRM	People with Reduced Mobility
PSA	Pedestrian Screening Area
PVC	Pre-Valid Card
RFI	Rete Ferroviaria Italiana (Italian Railway Network)
SAP	Single Access Pass

ACRONYM	MEANING
SACDs	Supplementary Access Control Devices
SEA	Società Esercizi Aeroportuali (Airport Operations Company)
AND SPs	Arrivals & Departures Service Points
TC	Transport Connect
