Championships event programme.

An AQS result will only be recognised for slot allocation from the licensed athletes with an international sport class status Review (R) or Confirmed (C) during the qualification period at an IPC Recognised Competition.

If more athletes have achieved the AQS than the total number of qualification slots available under this method then the qualification slots will be allocated to NPCs as follows:

$$\text{Male: } A \times \frac{850}{B} = \text{NPC Allocation}$$

A – Total number of male athletes with an AQS per NPC

B – Total number of male athletes with an AQS

$$\text{Female: } C \times \frac{350}{D} = \text{NPC Allocation}$$

C – Total number of female athletes with an AQS per NPC

D – Total number of female athletes with an AQS

IPC Athletics reserves the right to make minor adjustments to the factor in order to achieve the required allocation of qualification slots per gender. The allocation figure will, in most instances, be rounded up to the next whole number. However, at IPC Athletics discretion, allocation figures less than 0.5 may be rounded down.

In the case that there are less athletes meeting the AQS during the qualification period than available in the quota, IPC Athletics will distribute the qualification slots through the BQS Allocation method.

BQS ALLOCATION	BQS Allocation Method will only be undertaken if there are remaining qualification slots from AQS Direct Allocation Method.	remaining male slots from AQS Direct Allocation
	The eligible athletes who only achieved a BQS performance will be used to determine the NPC's final allocation through this method.	remaining female slots

An NPC can only be allocated one qualification slot per athlete regardless of whether the athlete has achieved a BQS in multiple events.

from AQS
Direct
Allocation

The BQS Allocation will be conducted as follows:

The available qualification slots under BQS Allocation Method in each gender will be allocated based on results captured from IPC Recognised Competitions between 1 January 2012 and 27 May 2013, in the respective individual medal events included on the 2013 IPC Athletics World Championships event programme.

A BQS result will only be recognised for licensed athletes with an international sport class status Review (R) or Confirmed (C) during the qualification period at an IPC Recognised competition.

If more athletes have achieved the BQS than the total number of qualification slots available then the qualification slots will be allocated to NPCs as follows:

Male:
$$E \times \frac{F}{G} = \text{NPC Allocation}$$

E – Total number of male athletes with a BQS per NPC
F – Total number of the available male qualification slots
G – Total number of male athletes with a BQS

Female:
$$H \times \frac{I}{J} = \text{NPC Allocation}$$

H – Total number of female athletes with a BQS per NPC
I – Total number of the available female qualification slots
J – Total number of female athletes with a BQS

IPC Athletics reserves the right to make minor adjustments to the factor in order to achieve the required allocation of qualification slots per gender. The allocation figure will, in most instances, be rounded up to the next whole number. However, at IPC Athletics discretion, allocation figures less than 0.5 may be rounded down.

UNIVERSIALITY WILD CARD INVITATION	<p>Universality Wild Card will be granted to NPCs who have not been allocated a male and female slot through the above methods. NPCs will be granted one (1) male and one (1) female Universality Wild Card Invitation slot. This applies equally to a female universality invitation slot from an NPC with one (1) male slot, and vice versa.</p>	<p>50 male slots 50 female slots</p>
<p>Entry to track events over 400m for wheelchair and over 800m for amputatory and throwing events will require approval by IPC Athletics</p> <p>These slot(s) should be used to ensure the participation of highest ranked athlete(s) from the respective NPC.</p>
