INTRODUCTION

This Guide describes in detail how athletes and teams can qualify for the Rio 2016 Paralympic Games in each of the 22 sports on the Games programme. It provides to the National Paralympic Committees (NPCs), to National Federations (NFs), to sports administrators, coaches and to the athletes themselves the conditions that allow participation in the signature event of the Paralympic Movement.

The Guide presents:

- an overview of the Rio 2016 Paralympic Games Programme,
- the general IPC regulations on eligibility,
- the specific qualification criteria for each sport (in alphabetical order),
- a glossary of the terminology used throughout the document.

Structure of sport-specific qualification criteria

Each sport-specific section in this Guide follows a standardised format. Readers can quickly locate information or cross-reference it between sports. The standard structure of each sport-specific qualification criteria is as follows:

- Events
- Athlete Quotas
- Allocation of Qualification Slots
- Maximum Quota Allocation per NPC
- Athlete Eligibility (sport-specific)
- Maximum Entries per NPC
- Qualification System
- Timeline
- Confirmation Process of Allocated Slots
- Reallocation of Unused Qualification Slots
- International Federation (IF) Contact Information

Qualification Methods

There are a variety of qualification methods which the IFs may employ depending on the nature and traditions of each sport. The mix of qualification methods (listed below) within each sport shall respect the following principles:

- To ensure that the world's leading athletes receive the opportunity to perform at the highest level,
- to uphold the fundamental ethical concept of non-discrimination, and

- to ensure that regional opportunities for qualification exist and that regional distribution of qualification slots is justifiably based on elite performances and/or prevalence of a sport in a given region.

In most sports the participation of the host country is guaranteed via reserved slots. However, athletes representing the host country still need to comply with all eligibility requirements in order to enter the Paralympic Games.

The following qualification methods based on performance may be used:

- Placement at World Championships
- Placement at Regional/Zonal Championships or Regional Games
- Placement in other IF sanctioned Competitions or designated Paralympic Qualifiers
- Rank on a World or Regional Ranking List
- Rank on a specific Paralympic Qualification Ranking List
- Achievement of a Minimum Qualification Standard (MQS) with or without subsequent Quota Allocation Formula
- Bipartite Invitations (see page 8 of this section).

In addition, a small number of Universality Wild Cards will be awarded at the discretion of the IPC to athletes representing NPCs who have not been able to achieve entry into the Paralympic Games via the above qualification methods (see page 9 of this section).

RIO 2016 PARALYMPIC PROGRAMME OVERVIEW

The Paralympic Games represents an international, multi-sport competition for athletes with an impairment that reflects the highest standards of athletic excellence and diversity. The goal of the Paralympic Games Programme is to provide exciting events in the Paralympic Games that allow athletes to achieve competitive excellence while engaging and entertaining spectators. To ensure this for the Rio 2016 Paralympic Games, the IPC conducted its quadrennial review process that determined the inclusion and positioning of sports, disciplines and medal events within the Paralympic Games based on established core characteristics and guiding principles.

Core Characteristics and Guiding Principles

The Core Characteristics and Guiding Principles of the Paralympic Sports Programme are as follows:

QUALITY: The essential principles with respect to grade of excellence and accomplishment.

High Performance – Representing the highest athlete performances in the context of the specific sport.

Exciting – Providing a vibrant and energising atmosphere that is entertaining in the context of each sport, yet creates a collective motivational atmosphere that is attractive to spectators and media.

Inspirational – Creating a distinct opportunity for personal experience/reflection that acts as a catalyst for change through showcasing the extraordinary perseverance of the human spirit through athleticism.

Fair Play – Driving collective values of the IPC ensuring that the spirit of fair play prevails, that the health risks of athletes are managed, that fundamental ethical principles are upheld, that prejudice and discrimination are not tolerated and that all forms of cheating are discouraged and dealt with sternly.

QUANTITY: The principles that ensure viable sports, disciplines and medal events within a sustainable programme.

Viable – Ensuring operational and programmatic capability in the context of the IPC's obligations vis-a-vis the International Olympic Committee (IOC) and considering the impact on the Organising Committee of the Olympic and Paralympic Games (OCOG) - eg, financially, cost effective, manageable, number of training and competition venues, safety, risk management.

Sustainable – Ensuring a stable programme that allows forecasting, ongoing evaluation and dynamic evolution of each sport.

UNIVERSALITY: The collective principles that ensure and reflect a diverse movement.

Equitable – Ensuring that gender representation and the type and extent of impairments represented at the Games are taken as a fundamental factor in the composition of the programme.

Global – Establishing a framework that strives to ensure regional representation and the global nature of the Games.

Balance – Weighing and positioning the types of sports and athletes included based on the nature of the sports/disciplines - eg, individual versus team; power versus precision; speed versus endurance, combat versus artistic.

GENERAL IPC REGULATIONS ON ELIGIBILITY

In addition to each IF's sport-specific athlete eligibility criteria the IPC has established a set of general eligibility criteria that apply to all participants in the Paralympic Games. These general regulations are derived from the IPC Handbook. They ensure that the fundamental rights and obligations of the IPC and its membership are recognised and protected. The General IPC Regulations on Eligibility are as follows:

IPC Membership

Only NPCs in good standing with the IPC may enter duly qualified and eligible athletes in the Rio 2016 Paralympic Games. NPCs are reminded that NFs must ensure that their membership with their sport's respective IF is in good standing during the qualification period and upon close of sport entries to the Paralympic Games so their athletes may participate.

Compliance with IPC Policy on the Nationality of Competitors

Any athlete in the Paralympic Games must be a national of the country/territory of the NPC entering him/her and in compliance with the provisions of the IPC Policy on the Nationality of Competitors as published in the IPC Handbook (Section 2, Chapter 3.1).

Minimum Age Requirement

No minimum age limit for athletes competing in the Paralympic Games is stipulated by the IPC on a general basis. However, NPCs should note that an age limit may be established by some IFs through sport-specific athlete eligibility criteria. While the Paralympic Games welcomes the world's youth with an impairment, NPCs are encouraged to send to the Paralympic Games only athletes adequately prepared for high performance competition.

Understanding and Agreeing to the Eligibility Code

To be eligible for participation in the Paralympic Games all athletes must sign, observe, comply with and abide by the rules and regulations outlined on the IPC Eligibility Code form. The IPC Eligibility Code form is part of the NPC registration process.

NPC Selection Standards

The IPC recognises and respects the right of NPCs to establish national selection standards for determining an athlete's or team's qualification to compete in the Paralympic Games. Such standards must be compliant with those established by the IPC as well as with each respective IF's terms and dates of confirmation and the administrative deadlines of the OCOG. All athletes and teams are equally subject to their respective NPC's selection standards.

Compliance with Classification Rules

Only qualified athletes that meet the sport-specific classification rules and have a designated classification status will be eligible for entry in the Rio 2016 Paralympic Games. It is the responsibility of each NPC to ensure that its athletes are appropriately classified in their respective sports prior to entry and that each athlete holds a sport class status that complies with the sport's eligibility requirements as published in this Guide.

BIPARTITE COMMISSION INVITATIONS

As in previous Paralympic Games, the IPC has worked with the IFs to develop qualification methods which allow the top athletes in each sport to compete in the Games, but which also respect the Paralympic Games Guiding Principles. The Core Characteristics of quality, quantity and universality that structure the Guiding Principles are fundamental and leading aspects in the IPC's and IFs' aim to deliver great competition at the Games.

While the primary method in which the Guiding Principles are respected is through the standard qualification methods, the IPC and certain IFs have also sought to provide targeted qualification slot allocations through the Bipartite Commission Invitation Allocation method. These invitations are included in the overall athlete quotas of the relevant sports. Invitations are granted on a discretionary basis by the IPC and the respective IF and are typically allocated based on the following principles:

- to ensure participation of top athletes who may have not had the opportunity to formally qualify through other methods due to extraordinary circumstances;
- to ensure the representation of athletes with high support needs;
- to ensure medal events will have sufficient representation for viability; and
- to enable greater representation by gender.

The following sports offer Bipartite Commission Invitation slots:

Archery, Athletics, Cycling, Equestrian, Powerlifting, Shooting, Swimming, Table Tennis, Triathlon, Wheelchair Fencing, Wheelchair Tennis.

Timelines and Application Procedures:

Each IF offering Bipartite Commission Invitation slots has established its individual timeline for submission and acceptance of Bipartite Commission Invitation applications. Please refer to the

respective section in each sport's chapter of this Guide. All Bipartite Commission Invitation decisions are final with no opportunity for protest or appeal.

REDISTRIBUTION OF VACANT QUALIFICATION SLOTS

Each IF confirms in writing to the NPCs the allocation of qualification slots their teams and athletes have obtained. The NPCs then must confirm acceptance of their allocated slots by the deadline established in each sport's chapter of this Guide. Any qualification slots not used by an NPC will be reallocated according to the method outlined in the respective sport's chapter of this Guide. Qualification slots that cannot be reallocated by the established deadlines or become vacant (following the deadline for final sport entries) may be redistributed at the sole discretion of the IPC to any sport on the programme. All redistribution decisions are final with no opportunity for protest or appeal.

UNIVERSALITY WILD CARDS

In each edition of the Paralympic Games, the IPC institutes a slot allocation method to uphold the Universality principle and to ensure representation of a maximum number of eligible member NPCs. This slot allocation is called Universality Wild Card (UWC) method and is by invitation only. No athlete and no NPC is entitled to receiving a UWC. All UWC decisions are final with no opportunity for protest or appeal.

Such invitations may be extended if an NPC has been unable to qualify athletes in any of the 22 sports on the programme. The UWC slot is allocated to the individual athlete, not to the respective NPC.

UWC slots fall outside the athlete quotas published in this Guide. For the Rio 2016 Paralympic Games the IPC will consider granting UWCs in the following sports:

- Athletics
- Swimming

A maximum of one (1) male UWC slot and one (1) female UWC slot may be granted if an NPC has not obtained any qualification slot otherwise. NPCs who have obtained only one (1) qualification slot (irrespective of gender) may be given one (1) female UWC slot in addition.

Criteria for Consideration

In order to be considered for a UWC athletes must meet the following conditions:

- comply with the General IPC Regulations on Eligibility as published in this Guide;
- comply with the Athlete Eligibility Criteria for their respective sport as published in this Guide. This entails meeting all requirements for licensing and classification at the time the UWC is awarded; and
- be on the “Accreditation Long List” as described under Key Dates below.

Athletes who do not meet these criteria will not be considered for a UWC.

The IPC Governing Board reserves the right to award a UWC under exceptional circumstances irrespective of the above criteria and in any sport.

Application Process

The IPC will announce the UWC application process one (1) year prior to the Rio 2016 Paralympic Games.

KEY DATES

The following dates and deadlines have been established by the IPC and the Rio 2016 Organising Committee and need to be observed across all sports on the programme:

Begin of Qualification Period: 1 January 2014

Each IF may determine their own qualification period during which athletes and teams can attain results and rankings that count towards qualification for the Rio 2016 Paralympic Games. No IF may establish a qualification period that begins prior to 1 January 2014. All qualifying results must be achieved during the respective sport’s qualification period. Results and rankings achieved prior to 1 January 2014 may not be considered for qualification towards the Rio 2016 Paralympic Games. If a sport maintains a ranking list which – by the end of their qualification period - incorporates results achieved prior to 1 January 2014 a separate ranking list needs to be established for the purpose of Paralympic Games qualification. Participation in a competition during the qualification period may depend on results achieved prior to the beginning of the respective sport’s qualification period.

Accreditation Deadline: 30 April 2016

NPCs must submit to the Rio 2016 Organising Committee complete information about every potential delegation member whom they consider sending to the Games. This “Accreditation Long List” includes athletes (duly qualified, replacements, substitutes, Bipartite candidates,

Universality Wild Card candidates etc.), competition assistants (guide runners, tandem pilots, goalkeepers, Boccia assistants), coaches, team physicians, administrators, physiotherapists, caretakers, press attachés, Paralympic attachés and Chefs de Mission – along with NPC Presidents, Secretaries General and accompanying guests. Only athletes who are accredited by 30 April 2016 can be entered into the Games by the sport entries deadline (see below).

Sport Entries Deadline: 15 August 2016

Sport Entries is the official registration process for athletes selected and qualified to participate in the Paralympic Games. Any athlete an NPC may choose to enter must meet all eligibility criteria by the time the entry is made. The athlete also has to be on the “Accreditation Long List” (see previous section). The last possible day to meet the eligibility criteria is 15 August 2016. Sport Entries will close at 23:59h, Rio de Janeiro time, on 15 August 2016.

Allocation of Qualification Slots

The qualification slot is allocated to the NPC not to the individual athlete. In case of a Bipartite Commission Invitation the slot is allocated to the individual athlete not to the NPC.

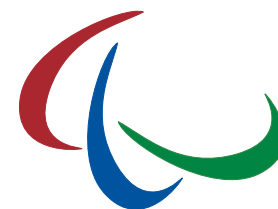

Maximum Quota Allocation per NPC

An NPC can be allocated a maximum of forty-eight (48) male qualification slots and thirty-two (32) female qualification slots. Exceptions may be granted through the Bipartite Commission Invitation Allocation method. If an NPC is unable to use all of the allocated qualification slots in a given gender, the unused slots cannot be transferred to the other gender. They will be reallocated in the respective gender to other NPCs through the Bipartite Invitation Commission Allocation method.

Athlete Eligibility

To be eligible for selection by an NPC, athletes must:

- hold an active IPC Athletics Athlete License for the 2016 season;
- have achieved at least one (1) BQS performance at an IPC Athletics Recognised Competition (IPC Competition, IPC Sanctioned Competition, or IPC Athletics Approved Competition) for each of their respective medal events between 15 October 2014 and 14 August 2016 in accordance with the Athlete Licensing Programme Policies valid for the 2014-2016 seasons – exceptions may be made via the Bipartite Commission Invitation Allocation method;
- be internationally classified with a 'Confirmed' sport class status or a 'Review' sport class status with a review date after 31 December 2016.

To be eligible for a relay medal event, athletes must:

- have entered an individual medal event (with exception of the additional relay specialist).

Maximum Entry per NPC

An NPC can enter a maximum of three (3) eligible athletes per Individual medal event provided each has achieved at least a BQS performance in that event.

NPCs can enter a maximum of one (1) team in each relay medal event comprising up to six (6) eligible athletes.

NPCs may enter a maximum of six (6) eligible athletes in each marathon medal event. A maximum of three (3) athletes per NPC may enter each marathon medal event as their only event.

NPCs may enter an eligible athlete in an unlimited number of medal events as long as the athlete has achieved at least a BQS performance in each of these medal events.

QUALIFICATION SYSTEM

Qualification slots will be allocated as follows:

METHOD	QUALIFICATION	TOTAL

Allocation of Qualification Slots

The qualification slot is allocated to the NPC not to the individual athlete. In case of a Bipartite Commission Invitation the slot is allocated to the individual athlete not to the NPC.

To ensure all medal events on the program are viable at the Rio 2016 Paralympic Games IPC Swimming reserves the right to allocate slots to the exclusive use of certain sport classes, in particular for athletes with high support needs. The slot shall be used as allocated or the NPC must return the slot to IPC Swimming.

Maximum Quota Allocation per NPC

An NPC can be allocated a maximum of thirty-four (34) male qualification slots and a maximum of twenty-eight (28) female qualification slots for a maximum total of sixty-two (62) qualification slots per NPC. Exceptions may be granted through the Bipartite Invitation Commission Allocation method.

Athlete Eligibility

To be eligible for selection by an NPC athletes must:

- hold an active IPC Swimming Athlete License for the 2016 season;
- have achieved a Minimum Qualification Standard (MQS) at an IPC Swimming Recognised 50m Competition (IPC Competition, IPC Sanctioned Competition or IPC Approved Competition) for the respective event between 15 October 2014 and 14 August 2016;
- have achieved a Minimum Qualification Standard (MQS) in accordance with the Athlete Licensing Programme Policies valid for the 2014-2016 seasons; and

- be internationally classified with a ‘Confirmed’ sport class status or a ‘Review’ sport class status with a review date after 31 December 2016.

Maximum Entry per NPC

An NPC can enter a maximum of three (3) eligible athletes per medal event.

NPCs can enter their athletes who have met at least one (1) MQS in an unlimited number of further medal events as long as they have met the Minimum Entry Time (MET) for each of these additional events.

NPCs can enter a maximum of one (1) team in each relay event as long as the MQS for the relay has been met. All team members must have qualified in at least one (1) individual event to be selected as part of the relay-team.

QUALIFICATION SYSTEM

Qualification slots will be allocated as follows:

METHOD	QUALIFICATION	TOTAL
2015 World Championships Allocation	<p>The top two (2) ranked athletes at the 2015 IPC Swimming World Championships in each of the Individual medal events on the Rio 2016 Paralympic Programme will each obtain one (1) qualification slot for their respective NPC. In the case that an athlete is ranked first or second in more than one medal event, he/she can only obtain one (1) qualification slot for his/her NPC.</p> <p>In the case that fewer slots are allocated through this method than available in the quota, IPC Swimming will allocate the remaining slots via the MQS Slot Allocation Method.</p>	<p>150 male athletes</p> <p>100 female athletes</p>
MQS Qualification Allocation	<p>Athletes who achieved an MQS performance at an IPC Recognised Competition between 15 October 2014 and 31 January 2016 but who did not obtain a direct allocation slot at the 2015 World Championships for their respective NPC will be considered to determine the NPC’s MQS Qualification Allocation slots.</p> <p>An NPC may be allocated no more than one (1) qualification slot per athlete even if the athlete has achieved an MQS in multiple events.</p>	<p>185 male athletes</p> <p>175 female athletes</p>

	<p>If more athletes have achieved an MQS than the total number of qualification slots available under this method, then the qualification slots will be allocated as below. The ranking of the athlete on the IPC Swimming World Ranking List closing 31 January 2016 will be taken into account (weighted) to determine the final number of slots allocated to each NPC:</p> <p>Rank 1-8 equals 1 Rank 9-12 equals 0.8 Rank 13-16 equals 0.6 Rank above 16 equals 0.5</p> <p>Male: $A \times (B \div C) = \text{NPC Allocation}$</p> <p><u>A</u>: NPC's total number of male athletes with an MQS (based on the weight of their rank) who have not obtained a slot at World Championships <u>B</u>: Total number of available male qualification slots <u>C</u>: Total number of male athletes with an MQS (based on the weight of their rank) who have not obtained a slot at World Championships</p> <p>Female: $D \times (E \div F) = \text{NPC Allocation}$</p> <p><u>D</u>: NPC's total number of female athletes with an MQS (based on the weight of their rank) who have not obtained a slot at World Championships <u>E</u>: Total number of available female qualification slots <u>F</u>: Total number of female athletes with an MQS (based on the weight of their rank) who have not obtained a slot at World Championships.</p> <p>IPC Swimming reserves the right to round up or down in order to achieve the required allocation of qualification slots per gender. In most instances the allocation figure will be rounded up to the next highest number. However, at IPC Swimming's discretion allocation figures with .49 and below may be rounded down.</p>

	Any qualification slot not allocated under this method will be distributed through the Bipartite Commission Invitation Allocation method.	
Bipartite Commission Invitation Allocation	Five (5) eligible male athletes and five (5) eligible female athletes will be considered by the IPC and IPC Swimming for Bipartite Commission Invitation qualification slots. To be considered for a Bipartite Commission Invitation slot, NPCs must submit an official application in writing to IPC Swimming by 10 April 2016.	5 male athletes 5 female athletes
