A. INTRODUCTION

The International Paralympic Committee (IPC) governs the Paralympic Movement and is the exclusive owner of the Paralympic Games and owns all rights and data relating thereto. In particular all rights relating to the organisation of the Paralympic Games, their exploitation, broadcasting, recording, representation, reproduction, access and dissemination in any form and by any means or mechanisms whatsoever, whether now existing or developed in the future belong to the IPC. The IPC in conjunction with the respective Organising Committee determines the conditions of access to Paralympic Venues including to the competitions and sports performances of the Paralympic Games.

These Rules apply to the use for news purposes of moving images of the PyeongChang 2018 Paralympic Winter Games to take place in PyeongChang, South Korea (the “Games”) by non-rights holding Television Broadcasters, Radio Broadcasters and News Media Organisations (together referred to as “Non-Rights Holders”). All Paralympic Material is subject to and protected by national and international copyright laws throughout the world, and such copyrights are the exclusive property of the IPC.

Capitalised terms used in these Rules have the meaning set out in the Definitions section at the end of these Rules.

Only those organisations that have been granted the right by the IPC to broadcast Paralympic Material for a particular territory (“Rights Holders”) may do so. No other organisation may broadcast or distribute audio-visual or audio-only coverage of any Paralympic event, including training venues, sporting action, the Opening Ceremony, the Closing Ceremony, victory ceremonies, mixed zones interviews or other activities which occur at Paralympic Venues, including the Paralympic Common Domain, Medals Plaza, Paralympic Village and Village Plaza, during the Paralympic Games Period except as permitted by these Rules.

These Rules apply to Television broadcasting, radio broadcasting, Internet (including newspaper websites), mobile platforms, and other digital media news products and services.

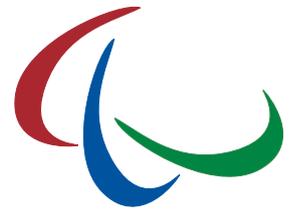

These Rules are subject to applicable national laws and regulations, including any “fair dealing”, “fair use” or equivalent provisions in national copyright laws throughout the world.

B. ACCESS TO PARALYMPIC MATERIAL

- 1) **Sources of Paralympic Material for editing and broadcasting of Short Extracts for News Reporting.** Non-Rights Holders may make arrangements to gain access to Paralympic Material for use in News Programming in accordance with these Rules via one or more of the following sources provided that the Non-Rights Holder must not make any Paralympic Material available until both (a) that Paralympic Material has been transmitted by a Rights Holder during the hours of 0600 to 0000 (UK time) during or immediately following the day the relevant event takes place and (b) the relevant event has concluded:
 - a) Rights Holders in territories where there is a rights-holder (Schedule 1: PyeongChang 2018 Paralympic Winter Games – TV Rights Holding Broadcasters (RHBs)) “off-air” unless agreed access to the signal is arranged between the RHB and the Non-Rights Holder;
 - b) The Host Broadcaster (OBS). It is envisaged that the OBS will make available at 10.00 local time a daily, 5-minute international news package consisting of short extracts of newsworthy footage from the previous day, which may be accessed by Non-Rights Holders for the purposes of selecting and editing Short Extracts for use in news reporting by means of Non-Television Delivery strictly in accordance with these Rules (and for the avoidance of doubt not for any other purposes); and
 - c) Authorised News Agencies having an agreement with the IPC for making the 5 minute international news package referred to in 1 (b) above available.
- 2) **Arrangements, costs of access and technical charges.** Non-Rights Holders shall be responsible for making their own arrangements, at their own cost, for gaining access to Paralympic Material using one or more of the sources set out in paragraph 1 above. In respect of the sources referred to at paragraphs 1(a) and 1(c) above, Non-Rights Holders must negotiate directly with Rights Holders and/or Authorised News Agencies (as appropriate) and pay such fees and technical charges as are agreed between them. In respect of the sources referred to at paragraphs 1(b) above, Non-Rights Holders must negotiate directly with OBS and pay such fees and technical charges as are agreed between them, having regard to the prevailing applicable rate card for access and services.

In respect of the source referred to in paragraph (1)(a), Non-Rights Holders shall use best endeavours to eliminate any of the Rights Holder’s commentary from a Short Extract and shall not in any event use the commentary in a derogatory way.

 - a) **Use in News Programmes only:** Paralympic Material may be used only as a part of bona fide news or sports news programmes of which the actual news or sports news element constitutes the main feature (“News Programmes”). Authorised News Agencies will inform their clients of the obligation under this clause. A Non-Rights Holder shall not add its own logo to the Short Extract.
- 6) Paralympic Material may only be used for a period of twenty four (24) hours following the completion of the event being reported on. Non-Rights Holders electing to do this must only make available on their on-demand/catch-up TV services the entire News Programme (of which the Paralympic Material is part) without any changes to that transmitted through their normal channel and may not make available on their on-demand/catch-up TV services edited clips of Paralympic Material abstracted from such News Programmes, News Programmes containing Paralympic Material made available on the on-demand/catch-up TV services of Non-Rights Holder may remain available for viewing for a maximum of 24 hours from the date of first transmission of the relevant News Programme.
