Rules for the use of short extracts for news reporting applicable for the PyeongChang 2018 Paralympic Winter Games within Australian territory

2017
A. INTRODUCTION

The International Paralympic Committee (IPC) governs the Paralympic Movement and is the exclusive owner of the Paralympic Games and owns all rights and data relating thereto. In particular all rights relating to the organisation of the Paralympic Games, their exploitation, broadcasting, recording, representation, reproduction, access and dissemination in any form and by any means or mechanisms whatsoever, whether now existing or developed in the future belong to the IPC. The IPC in conjunction with the respective Organising Committee determines the conditions of access to Paralympic Venues including to the competitions and sports performances of the Paralympic Games.

These Rules apply to the use for news purposes of moving images of the PyeongChang 2018 Paralympic Winter Games to take place in PyeongChang, South Korea (the “Games”) by non-rights holding Television Broadcasters, Radio Broadcasters and News Media Organisations (together referred to as “Non-Rights Holders”). All Paralympic Material is subject to and protected by national and international copyright laws throughout the world, and such copyrights are the exclusive property of the IPC.

Capitalised terms used in these Rules have the meaning set out in the Definitions section at the end of these Rules.

The Australian Paralympic Committee (“APC”) has been granted the right by the IPC to broadcast Paralympic Material in Australia and the APC has sub-licensed this right to Seven Network (Operations) Limited (“Seven”) (APC and Seven to be referred to individually as a “Rights Holder” and together as the “Rights Holders”). No other organisation may broadcast or distribute audio-visual or audio-only coverage of any Paralympic event, including training venues, sporting action, the Opening Ceremony, the Closing Ceremony, victory ceremonies, mixed zones interviews or other activities which occur at Paralympic Venues, including the Paralympic Common Domain, Medals Plaza, Paralympic Village and Village Plaza, during the Paralympic Games Period except as permitted by these Rules.

These Rules apply to Television broadcasting, radio broadcasting, Internet (including newspaper websites), mobile platforms, social media and other digital media news products and services.

These Rules are subject to applicable national laws and regulations, including any “fair dealing”, “fair use” or equivalent provisions in national copyright laws throughout the world.
B. ACCESS TO PARALYMPIC MATERIAL

1) Sources of Paralympic Material for editing and broadcasting of Short Extracts for News Reporting. Non-Rights Holders may make arrangements to gain access to Paralympic Material for use in News Programming in accordance with these Rules via one or more of the following sources:
   a) Seven;
   b) The Host Broadcaster (OBS). It is envisaged that the OBS will make available at 10.00 local (PyeongChang) time a daily, 5-minute international news package consisting of short extracts of newsworthy footage from the previous day, which may be accessed by Non-Rights Holders for the purposes of selecting and editing Short Extracts for use in news reporting strictly in accordance with these Rules (and for the avoidance of doubt not for any other purposes);
   c) Authorised News Agencies having an agreement with the IPC; and
   d) The APC.

2) Arrangements, costs of access and technical charges. Non-Rights Holders shall be responsible for making their own arrangements, at their own cost, for gaining access to Paralympic Material using one or more of the sources set out in paragraph 1 above. In respect of the sources referred to at paragraphs 1(a) and 1(c) above, Non-Rights Holders must negotiate directly with Rights Holders and/or Authorised News Agencies (as appropriate) and pay such fees and technical charges as are agreed between them. In respect of the sources referred to at paragraphs 1(b) above, Non-Rights Holders must negotiate directly with OBS and pay such fees and technical charges as are agreed between them, having regard to the prevailing applicable rate card for access and services.

5) **Courtesy Credit/Rights Holder “Bug”:** Each use of Paralympic Material in accordance with these Rules must give an on-screen credit to either the APC or Seven (depending upon the source of material) by leaving on that individual Rights Holder’s watermark for the duration of the Short Extract (should the Paralympic Material not be sourced through a Rights Holder, the user shall not be obliged to add that Rights Holder’s watermark), provided always that such display of the credit/bug is in accordance with applicable local law, and accords with established custom and practice in the relevant broadcasting market. Transnational All-News all Sports News Channels will give an on-screen credit to the IPC. Authorised News Agencies will inform their clients of the obligation under this clause. Seven’s watermark must not be obscured, cut-off, removed or covered by another watermark.

Non-Rights Holders electing to do this must only make available on their on-demand/catch-up TV services the entire News Programme (of which the Paralympic Material is part) without any changes to that transmitted through their normal channel and may not make available on their on-demand/catch-up TV services edited clips of Paralympic Material abstracted from such News Programmes, News Programmes containing Paralympic Material made available on the on-demand/catch-up TV services of Non-Rights Holder may remain available for viewing for a maximum of 7 days from the date of first transmission of the relevant News Programme.
