Dear Sport Friends,

As the fight for Tokyo 2020 qualification slots continues in 2019 harder than before, it is time for every athlete to show their best and shine on the top of podium. In the beginning of this most important period on the road to Tokyo only the best athletes will get closer to their dream of participation in the next Paralympic Games. Chances and opportunities always can be found, but competing in such tournaments that can truly serve and fulfil every requirement is as important as athlete's everyday practice.

In April 2019 our traditional competition will meet all the requirements of what a Tokyo 2020 qualification event should provide and will serve and motivate every athlete who are willing to prove their skill, talent and power. Through four competition days the world's top ranked athletes are going to have the chance to impress the World, or even try to make history with a new world records.

On behalf of the LOC I can proudly say that the Local Organising Committee hand in hand with World Para Powerlifting will ensure that the Eger 2019 World Para Powerlifting World Cup is a huge success.

So "The FOP is set, the bar is loaded", and Eger is ready to host a grand event again.

I wish the best to all of the participants, to make your Paralympic dreams come true!

9 Host City Information

The name of Eger represents, for every Hungarian, the story of determined patriotism, when the outnumbered heroic defenders in the fortress, led by István Dobó, held out against the Turks in their initial attack in 1552.

Eger is a paradise for historical sightseers and contains something like 200 historical monuments. In addition to all of these attractions, it is a picturesque place with a small,

pedestrianised town centre that features many brightly painted houses with iron balconies lining narrow, twisting streets. Ornate lampposts and hanging baskets of flowers decorate the cobbled lanes and squares and sculptures representing the battle against the Turks are a proud reminder of the victorious saga.

Castle of Eger – St. Stephen, first king of Hungary, founded a bishopric in Eger sometime between 1001 and 1009 AD. The town's ecclesiastical importance led to the construction of a stone fortress for its protection in 1248, built around a Romanesque cathedral. By the 16th century, the Turkish invasion was in full swing, with Buda falling in the 1540's. In 1552 the Turks turned their attention to one of the biggest obstacles in the region, the fortress of Eger. The Hungarian defenders, only two thousand strong, managed to withstand a five-week siege by a force about forty times its size. The fortress of Eger, now a protected historic monument, is the site of the István Dobó Castle Museum. Permanent exhibitions cover the history of the castle, the underground fortification system (Casemates), while another exhibits the medieval forms of punishment. Carvings from the destroyed cathedral can be seen in the lapidarium, while the marble sarcophagus of István Dobó, the heroic captain of the fortress during the 1552 siege, can be found in the Heroes' Hall. The Art Gallery, also hosted in the castle, has one of the finest art collections in Hungary with works by Dutch, Italian, Austrian, and Hungarian masters.

Eger Basilica - Monstrous Basilica in Eger is the second largest in Hungary. From the outside a huge and very impressive building with a typical dome, which is open to visitors. The interior impresses by its vastness, beautiful decorations, and impressive paintings on the ceiling. The sanctuary towers jutting out are visible from a distance.
