Trigger extensions and adaptations

In accordance with the ISSF Rules, the style/shape of a trigger is a personal choice as long as it stays within the boundary of the given dimensions (as stated in ISSF Rule 7.4.4.1 Item D ‘Depth of fore-end’ and Item I ‘Maximum thickness (breadth) of the fore-end’). No definition of the shape of the trigger is given.

- **Trigger extension**: triggers that have modifications compared to standard triggers, but are inside the dimensions of ISSF Rule 7.4.4.1 and protected by a trigger guard.

- **Trigger Adaptions**: triggers that have modifications compared to standard triggers, and are outside of the trigger guard and dimensions of ISSF rule 7.4.4.1.
  - athletes must have a medical reason to use a trigger adaption;
  - this must be reviewed and approved by a World Shooting Para Sport Classification Panel during a Technical Assessment (in consultation with the Technical Delegate, regarding the safe use of the proposed trigger adaptation) and recorded on the athlete’s Classification and License Cards.

To help to understand the differences, on the following pages are some example photographs and explanations.
Trigger extension: trigger is inside the dimensions of ISSF Rule 7.4.4.1 and protected by a trigger guard.

1 Overview

The diagram shows the upper and lower parts of the SH2 Support Stand. The minimum thickness of the lower part is specified as 20 mm. The dimensions are indicated with various measurements, such as 4, 30, 80, 13, 10, and 25. These measurements help in understanding the structural design and dimensions of the stand.

3 Support stand measuring procedure (Rule 2.9.13)

3.1 Zero point
250 gram measuring bar is used to determine the zero point.

3.2 Spring flexibility
720 gram measuring bar is used to indicate spring flexibility:
- Weak (a) spring: minimum 35mm flexibility
- Strong (b) spring: minimum 25mm flexibility
APPENDIX 8
P5 10m Air Pistol Standard

1 General
1.1 Any calibre 4.5 mm (.177) compressed air or gas pistol may be used.
1.2 The pistol used in the 10m five shot air pistol event must have a magazine that can be loaded with five (5) pellets.

2 Competition
2.1 Three (3) minutes preparation time will be given.
2.2 Ready position:
   2.2.1 Before each series the athlete must lower his arm. The pistol may be rested on the bench or shooting table.
   2.2.2 The pistol may not be raised or lifted to point towards the target until the command “START”.
2.3 A series is considered as having started from the moment of the command "ATTENTION". Every shot fired after that will be counted in the competition.
2.4 Before the beginning of each competition series, the athlete may fire one (1) sighting series of five (5) shots in ten (10) seconds.
2.5 All shooting (sighting and competition series) is by command. All athletes in the same range section must fire at the same time, but organisers may arrange for more than one range section to fire simultaneously under centralized commands.
2.6 The event is forty (40) competition shots.
2.7 The event is divided into series of five (5) shots each in ten (10) seconds. In each series five shots are fired on one (1) Stationary Air Pistol target (see ISSF Rule 6.3.2.6) in the time limit for the series.
2.8 Commands

2.8.1 When the range officer gives the command “LOAD”, the athletes must prepare themselves for their series within one (1) minute.

2.8.2 When one (1) minute has expired, the Range Officer will give the commands:

<table>
<thead>
<tr>
<th>Command</th>
</tr>
</thead>
<tbody>
<tr>
<td>&quot;ATTENTION&quot;</td>
</tr>
<tr>
<td>Seven (7) seconds after “ATTENTION”</td>
</tr>
<tr>
<td>&quot;START&quot; (the signal to fire).</td>
</tr>
<tr>
<td>After 10 seconds &quot;STOP&quot;.</td>
</tr>
<tr>
<td>Shot(s) after the command &quot;STOP&quot; must be counted as zero(es) (0).</td>
</tr>
</tbody>
</table>

2.8.3 The timing will be controlled by stop watches.

2.8.4 Incorrect Range Commands

2.8.4.1 If the athlete wishes to protest because of an incorrect command and/or action by the range officer, the athlete must hold the pistol (or secure in the Loading Device) pointing down range and raise their hand, and immediately after the series report this to the range officer or jury member.

2.8.4.2 If the claim is considered justified, the athlete must be allowed to fire the series.

2.8.4.3 If the claim is considered not justified, the athlete may fire the series, but must be penalized by the deduction of two (2) points in the event from the score of that series.

2.8.4.4 If the athlete has fired a shot after the incorrect command and/or action, the protest must not be accepted.
2.9  Scoring

2.9.1  All shots fired in the 10 seconds shooting time will be scored. Early and late shot(s) will be scored as zero(es).

2.9.2  Ties

2.9.2.1  Any ties for the first three (3) places will be resolved by shoot-off. This will compose of one sighting series in 10 seconds of 5 shots, followed by 1 series of 10 seconds of 5 shots, until the tie is broken.

2.9.2.2  Ties for fourth place and below, will be resolved by count-back in 5-shot-series. If any ties remain the athletes must have the same ranking.

2.10  Interruption

2.10.1  If the interruption is for safety or technical reasons without fault of the athlete:

2.10.1.1  If the elapsed time is more than fifteen (15) minutes, the Jury must allow one extra sighting series of five (5) shots.

2.10.1.2  10m Air Pistol Standard Event, the interrupted series must be annulled and repeated. The repeated series must be recorded and credited to the athlete.

2.10.1.3  Any extension of time allowed by the Jury or Range Officers must be marked clearly, stating the reason, on the Register Keeper's score card and on the scoreboard where it is visible clearly to the athlete.
2.11 Disturbances

2.11.1 Should an athlete consider that they were disturbed while firing a shot, the athlete must hold their pistol pointing down range (or secure in the Loading Device) and inform immediately the Range Officer or Jury Member by raising their hand. The athlete must not disturb other athletes.

2.11.2 If the claim is considered justified:

2.11.2.1 The series must be annulled and the athlete may repeat the series.

2.11.3 If the claim is considered not justified:

2.11.3.1 If the athlete has finished his series, the shot or series must be credited to the athlete.

2.11.3.2 If the athlete has not finished his series due to the claimed disturbance, the athlete may repeat the series.

2.11.4 Scoring and penalties are as follows:

2.11.4.1 The score must be recorded as the total of the five (5) lowest value hits on the targets.

2.11.4.2 Two (2) points must also be deducted from the score of the repeated series.

2.11.4.3 In any repeated series, all five (5) shots must be fired at the target. Any shot(s) not fired or not hitting the target must be scored as zero(es).
2.12 Malfunctions

2.12.1 If a shot has not been fired due to a malfunction, and if the athlete wishes to claim a malfunction, he must hold his pistol pointing down range, retain his grip, and immediately inform the range officer by raising his free hand. He must not disturb other athletes.

2.12.1.1 An athlete may try to correct a malfunction and continue the series, but after attempting any correction, he may not claim an ALLOWABLE MALFUNCTION unless a part of the pistol is damaged sufficiently to prevent the pistol from functioning.

2.12.1.2 If a malfunction occurs in the sighting series it must not be registered as a malfunction. The sighting series may be completed (see ISSF rule 8.9.3c).

2.12.1.3 The number of shots already fired must be recorded and the series may be repeated.

2.12.1.4 Repeating a series because of a malfunction must be permitted only in case of an ALLOWABLE MALFUNCTION and only once in a complete 40 shot event.

2.12.2 Scoring: ALLOWABLE MALFUNCTION

2.12.2.1 The score must be recorded as the total of the five (5) lowest value hits on the targets. The athlete must fire all five (5) shots at the target in the repeat series. Any shot(s) not fired or not hitting the target in the re-shoot must be recorded as zero(es). (Paper target used, a second target must be provided for the re-shoot.)

2.12.3 Scoring: NON ALLOWABLE MALFUNCTION

2.12.3.1 The score must be the total of the fired shots.

During the final round, when commentary from the announcer is taking place, each coach may approach and speak with his team members on their firing points one time (once per Final) for a maximum of 30 seconds. The Jury Member in Charge must control the time limit.

12.1.7. **Malfunctions**
Malfunctions in qualification round and finals competition will be governed according to ISSF Rules. Athletes may have only one malfunction per stage (qualification round and finals competition), either ALLOWABLE or NON-ALLOWABLE.

12.1.8. **EST Complaints and Score Protests**
EST complaints during qualification round and finals competition will be decided according to ISSF Rules.
12.1.9. **Protests**

### 12.2. Qualification Round

#### 12.2.1. Location

The Mixed Team qualification round will be fired on the qualification range in one or more relays.

#### 12.2.2. Start List

The two members of each team must be set to fire on adjacent firing points with the male athlete on the right and the female athlete on the left. Teams will be set by a random computer draw according to ISSF Rules. Teams from the same nation may not be set next to each other.

#### 12.2.3. Call to Line

For each qualification relay, the CRO will call the athletes to the line five (5) minutes before the preparation and sighting time start.

#### 12.2.4. Preparation and Sighting Time

There will be a ten (10) minute preparation and sighting time before the qualification round. This will be followed by a 30-second pause to reset the targets. During the preparation and sighting time, the announcer will explain the competition format for spectators and introduce the competing teams.

12.3. Finals Competition

12.3.1. Location

When the team reports (30 min. before), the team coach must inform the RTS Jury which team member will shoot on the left and which team member will shoot on the right.

12.3.4. Scoring
Scores from the qualification round do not carry forward. The finals competition scoring will start from zero. All match shots in the finals competition (both rifle and pistol) will be scored with decimal scoring.

12.3.5. EST Complaints During Finals
If a team member or coach complains, or a Range Officer or Jury Member observes, that the paper strip is failing to advance, the CRO must stop the sighting period or competition, direct the Technical Officer to fix the problem and then continue firing.

If a team member complains that his target fails to register or that there is an unexpected zero or unexplained miss, the following steps must be taken:

a) The Jury and Range Officer must note the time when the complaint occurred;
b) The Range Officer must stop the second team member from firing and direct the athlete whose target malfunctioned to fire an additional shot. If the additional shot registers, the Range Officer will direct the team to complete the series/shot plus 60 seconds of additional time. The value of the additional shot will be counted and the missing shot will be ignored.
c) If the additional shot does not register, the Range Officer must direct the team with the target that malfunctioned to stop shooting. At the end of the series/shot, the Jury must stop the competition and direct the Technical Officer(s) to repair or replace the target.
d) After the target is repaired or replaced, all teams will be given two (2) minutes of unlimited sighting shots. The team that had the malfunctioning target will then complete their series/shot in the time remaining when the interruption occurred plus 60 seconds of additional time. After they complete their series, the competition will continue.

12.3.6. Reporting and Start Times
The start time for the finals competition will be when the CRO begins the commands for the first competition series. Teams that qualify for the finals competition must report to the finals range preparation area, with both team members, one coach and all necessary equipment, at least 30 minutes before the schedule start time. A two-point (2) penalty will be deducted from the score of the first competition series if one or two team members do
not report on time. If the Victory Ceremony is scheduled after the finals competition, all athletes must report with a national team uniform appropriate for a Victory Ceremony. Juries must complete equipment checks during the reporting period and as quickly as possible after the athlete reports. Team members and their coaches must be allowed to place their rifles or pistols on their assigned firing points in the FOP at least 18 minutes before the scheduled start time. Teams and their coaches must be assembled in firing point order for the call to the line at least twelve (12) minutes before the scheduled start time.

12.3.7. Call to line
The CRO will call all athletes in the Final to the firing line by commanding “ATHLETES TO THE LINE.” All athletes must pause on the firing line and turn to face the spectators as the CRO announces “LADIES AND GENTLEMEN, PLEASE WELCOME THE ATHLETES IN THE (10M METER AIR RIFLE/AIR PISTOL) MIXED TEAM FINAL.” After pausing for applause, the CRO will command “TAKE YOUR POSITIONS.” The athletes must then turn and go directly to their assigned firing points.
