Item: 1

Athletes' Names and & Number Bibs.

Summary:

Avoid mixing bib sponsors on the same uniform.

Details:

As per the Games sponsorship agreements and requirements, athletes must fix their name and number bibs on their uniforms so they are matching on the chest and on the back with the same sponsor (either **Bradesco** or **Nissan**).

Team managers and coaches have to ensure that their athletes are wearing the right bibs and avoid mixing the above sponsors together on the same uniform.

As announced at the technical meeting, the name bib will be always worn on the chest except for wheelchair racing athletes and high jump events. The number bibs have to be worn on the back of the uniform.
